(Department of Health)

THAT, aware that currently there are approximately 44 million persons living with dementia worldwide, a figure that is expected to triple by 2050; acknowledging that caring for dementia patients can be a difficult experience; appreciating the contribution of family members and other care givers of people suffering from dementia across Kenya; noting with concern that mental healthcare does not seem to be a priority in the public health sector in Kenya since the allocation for mental healthcare is less than 1% of the total public health budget; acknowledging the importance of raising awareness of dementia and ensuring that people with dementia are treated with dignity and respect; appreciating the contribution of non- governmental organizations such as the Africa Mental Health Foundation and the International Institute for Legislative Affairs who provide a platform for sharing of views and experiences on care of people with dementia; noting the need to enhance awareness on and provide better care for patients of dementia; the Senate directs the Standing Committee on Health to immediately initiate review of the existing legislation on health care in order to

mainstream and enhance care for patients of dementia and further that the Committee submits a report to the House on the matter within ninety (90) days.

D. MOTION – (Sen. Sammy Leshore)
(Department of Health)
