9*. MOTION – ROAD DESIGNS AND CONSTRUCTIONS TO INCORPORATE RUN-OFF WATER HARVESTING AND MANAGEMENT MECHANISMS

(The Hon. Joseph M'eruaki, MP.)

THAT, aware that Article 43 of the Constitution provides that every person has the right to clean and safe water in adequate quantities; further aware that water harvesting is an important practice for water management; cognizant of the fact that earth-dams and water-pans would play a key role in water harvesting especially in arid and semi-arid areas; noting that a large quantity of run-off water goes to waste in most parts of the country; further noting that this run-off water if properly harvested and managed would be useful for domestic, livestock and irrigation purposes; appreciating that increased infrastructural development especially in roads has led to the mobilization of machineries and human resources in most areas; further appreciating that these civil engineering machineries and

personnel can be useful in the construction of earth-dams and water-pans; this House **resolves** that the Government through the Ministry of Transport, Infrastructure, Housing and Urban Development ensures that all road designs and constructions incorporate run-off water harvesting and management mechanisms.
