governments at the national and county levels are distinct and inter-dependent and shall conduct their mutual relations on the basis of consultation and cooperation’;

FURTHER AWARE THAT, there is no existing comprehensive legal framework to guide the consultative and collaborative process between the Ministry of Health (MoH) and County Governments;

COGNIZANT THAT, when the Managed Equipment Services (MES) project was launched on 6th February, 2015, the Ministry of Health entered into arrangements with five foreign firms for the provision of specialized medical equipment worth Kshs. 38 Billion;

NOTING THAT, according to the Ministry of Health, the project is aimed at improving health infrastructure and enhancing the capacity of counties to provide specialized health care targeting non-communicable conditions such as cancer and renal conditions, as well as to promote diagnostic, radiological and critical care

CONCERNED THAT, the Council of Governors (COG) has voiced opposition to the project on the grounds that County governments were not involved in the tender-procurement process, the monies are debited annually from the accounts of the Counties directly by the Treasury, there was lack of proper consultation between the Ministry of Health and County governments, and, that leasing the medical equipment was ultimately more expensive than direct purchase;

CONCERNED FURTHER THAT, the extent to which county government structures or institutions were involved in the project has remained unclear, and the opposition raised by the COG reveals serious gaps in the consultative process between the MoH and county governments, including the terms of the contracts which end in 2022;
