Ministry Of Information Communication and Technology: State Department of Information Communication Technology

Reports and Financial Statements for the year ended June 30, 2019

I. KEY ENTITY INFORMATION AND MANAGEMENT

a) Background Information

The State Department was formed on May 2016 via Executive Order No. 1/2016 by splitting the Ministry of ICT into two State Department and Headed by the Cabinet for ICT who is responsible for the general policy and strategic direction of the Ministry.

i. Vision

Kenya as a globally competitive knowledge-based economy.

ii. Mission

To facilitate universal access to ICT infrastructure and services all over the country

iii. Strategic Goals/ Objectives

- To formulate, review and implement appropriate ICT policies, legal and institutional frameworks that improve efficiency of service delivery.
- To collect, collate and disseminate credible information to promote a competitive knowledge based society through informed citizenry.
- To train, build and strengthen the ICT and mass media skills development.
- To develop a world class ICT infrastructure that ensures availability, efficient, reliable and affordable ICT services

iv. Mandate and function of the state department

The Mandate of the State Department is derived from the executive order No. 1/2016 which stipulates the following functions; National ICT Policy and Innovation Promotion of E-Government

- Promotion of Software Development Industry
- ICT Agency (E-Government, Kenya ICT Board and Government Information Technology Services)
- Provision of ICT Technical Support to MDAs
- Policy on Automation of Government Services
- Development of National Communication Capacity and Infrastructure
- Management of National Fibre Optic infrastructure

Ministry Of Information Communication and Technology: State Department of Information Communication Technology

Reports and Financial Statements for the year ended June 30, 2019

The State Department has two administrative departments namely Directorate of ICT, Administration and four Semi-Autonomous Government Agencies (SAGAs): ICT Authority, Konza Technopolis Development Authority, Telkom Kenya Limited and TEAMS Kenya Limited.

b) Key Management

The State Department day to day management is under the following key organs as derived in executive order:-

- Management of Information Communications Technology (ICT) in Government
- Development and implementation of ICT related policies, regulations, standards and guidelines
- Promotion of e-government services
- ICT Training and skills development
- Development of National Communications Capacity and ICT Infrastructure
- Promotion of the ICT Industry
- Fibre optics infrastructure development and management
- Coordinate the planning and development of the SMART City (Konza)

c) Fiduciary Management of the State Department

The Key management personnel who held office during the half year review ended 30th June, 2019 and had direct fiduciary responsibility were;-

S/N	Designation	Name
1.	Accounting Officer	Jerome Ochieng
2.	Deputy Secretary Administration	Abraham Ondeng
3.	Director of ICT	Hesbon Malweyi
4.	Senior Chief Finance Officer	Christopher Kariuki
5.	Deputy Chief Economist	Joseph Mwangi
6.	Senior Assistant Accountant General	Joseph Mwangi
7.	Director HRM	John Odhiambo

*Ministry Of Information Communication and Technology: State Department of
Information Communication Technology*

Reports and Financial Statements for the year ended June 30, 2019

d) Fiduciary Oversight Arrangement

The following State Department Committee provided the fiduciary oversight arrangements to ensure prudent financial management;

1. State Department Budget Implementation Committee

- To review and consider the cash flow plan
- To review the utilization of cash limits
- To review and recommend reallocation of expenditures
- To prepare budget for the State Department in consultation
- To implement the Treasury Circular on expenditures

2. State Department Audit Committee

- Review and approve the internal audit work plan and forward it to PS for funding
- Review the internal and external filing, recommendation and proposed corrective and preventative action where necessary
- Review the systems established to ensure sound public financial management and internal control as we compliance with polices, rule, regulations and procedures

II. FORWARD BY THE CABINET SECRETARY

The State Department was allocated a total of KShs. 25,110,215,184 of which KShs. 1,793,518,798 for recurrent expenditure and KShs. 23,316,696,386 for development expenditure in financial year 2018/19. During the period under review the State Department Absorbed KShs. 21,808,456,701 by 30th June, 2019 which was 87% of the approved budget. The variance was attributed to untimely release of exchequer and implementation of austerity measures introduced by the National Treasury.

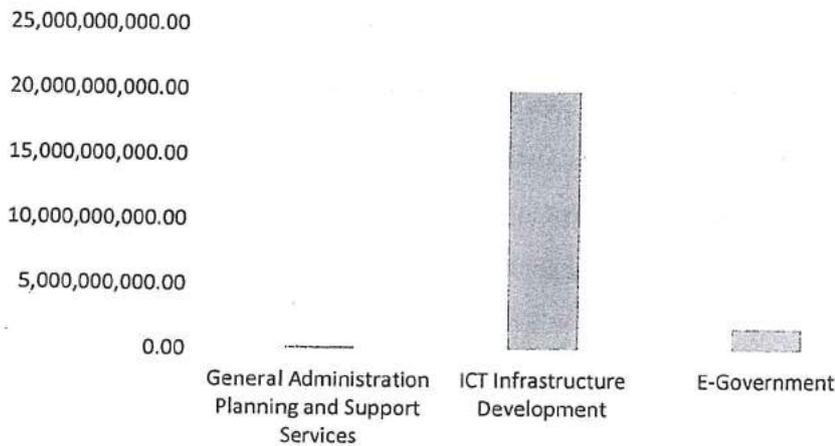

EXPENDITURE FOR FY 2018/2019

- ▣ Compensation of Employees
- ▣ Use of goods and services
- ▣ Transfers to Other Government Units
- ▣ Social Security Benefits
- ▣ Acquisition of Assets

The State Department utilized the funds in implementation of its three major programmes namely in: (i) General Administration and Support Services, (ii) e-government services and (iii) ICT infrastructure Development. Under the programmes there are sub-programmes that includes; General administration and support services, e-government services, ICT infrastructure Connectivity and BPO Development.

BUDGET PERFORMANCE PER PROGRAMME

During the period under review the State Department continued with the development and review key policies and legal frameworks which included National ICT Policy, ICTA and KOTDA Bill, Language Policy, Digitization Policy, Government Architecture Framework, Access to information Regulations National ICT Master plan, among others. These policy and legal frameworks will facilitate growth and development of the ICT industry.

ACHIEVEMENT ON IMPLEMENTATION OF PROJECTS

During the year under review, the State Department implemented various projects aimed at increased access to quality and affordable world class infrastructure and services country wide. These includes:-

1. Digital Literacy Programme

The Implementation of the Digital Literacy Programme: During the year the State Department assembled over 100,000 devices and distributed to the remaining 3000 schools left out during the phase I of implementation.

2. Establishment of Konza Techno City

Implementation of Konza Complex and horizontal infrastructure is on-going and during the quarter the following were achieved:

- Constructed 90% of **Konza Complex** phase IA.

3. Mobilized equipment to initiated construction of physical infrastructure under **Konza Engineer, Procure, Construct and Finance (EPC-F)** model construction. So far 25% of the annual construction completed. Commence excavation of the street scape and road networks. Completed construction of the project camp site which includes offices, accommodation buildings, and shipped project equipment's such as trucks and heavy machineries.

4. Presidential Digital Talent:

Completed Training of 400 ICT graduates and recruited another cohort of 400 ICT graduates which was launch at Kenya School of Government to be placed in both public and private sector.

5. Ajira Programme:

During the year ending 30th June, 2019 the State Department trained over 3,400 youths in universities and polytechnics which includes Sigalagala, Nairobi University Main and Kisumu Campus, Jaramogi Oginga Odinga University, Kenyatta University Nakuru Campus, Maseno University among other tertiary institutions. In addition established ajira Clubs in the Universities.

6. National Optic Fibre Backbone Infrastructure (NOFBI) – Expansion

Implementation of NoFBI Phase II expansion ongoing and cumulatively 2500KM of fiber layed connecting sub-county, level 5 hospitals and police stations among other government buildings in the Counties.

7. Eastern Africa regional transport, trade and trade development facilitation project (EARTTDFP)

Rehabilitated 105KM out of 300KM of NOFBI Phase I network from Eldoret in Kenya to Nandabal in South Sudan which was destroyed during road construction.

8. Constituency Innovation Hub

The Ministry cumulatively established 150 Constituency innovation hub across the country which provides free Wi-Fi. The project targets to support Ajira Programme.

9. County Connectivity Project (CCP)

Rollout CCP Connectivity to cover sub-counties under phase IIIA of the project. Shipped the project equipment's for the commencement of the actual network configuration.

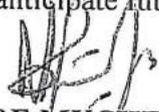

10. Government Shared Services

The Ministry continued with the Implementation of the Government shared services supports: Government Common Core Network (GCCN), Unified Communication System, Government Data Centre, G-Pay, IPRS, iTax, ICT Applications among others to ensure 99.9% Uptime of key government services.

EMERGING ISSUES AND CHALLENGES

The State Department faced the following emerging issues and challenges in its endeavor to implement the identified programmes and Key projects during the first quarter of FY 2018/19:

1. **Development Budget:** the delay in disbursement of development budget affected the implementation of key projects in the Ministry.
2. **Infrastructure:** Vandalism of ICT infrastructure, Lack of harmonized data management system, Limited penetration of telecommunication infrastructure in rural areas, Digital divide between the rural and urban areas which limits public awareness of the advantages and opportunities of ICT, Lack of or inadequate supply of affordable and uninterrupted power supply. In addition lack of political support in implementation of Constituency innovation Hub.
3. **ICT Skills Gap :** Both National and County Governments are offering more services via various online media and moving more toward shared services and greater leveraging of ICT to enhance service delivery.
4. **Policy Framework:** The National ICT policy has not been finalized. More so, there is lack of a policy on ICT Human Capital development.
5. **Limited interoperability of government systems:** Many government systems work in isolation of each other, which creates duplication and inefficient resource management. Most processes are to a large extent paper-based, which creates unnecessary delays. As such ICTs can be leveraged through e-Government initiatives to further improve government operational effectiveness and efficiency, thereby improving service delivery to citizens
6. **Rapid technological change:** Technological advancements and the search by suppliers for new markets have resulted in a bewildering array of technical solutions in search of problems to fix. Governments face the challenge of fostering the development of e-government while there is still great uncertainty regarding fast moving technological change, and it is difficult to anticipate future policy impacts in detail.

**JOE MUCHERU, EGH
CABINET SECRETARY**

III. STATEMENT OF ENTITY MANAGEMENT RESPONSIBILITIES

Section 81 (1) of the Public Finance Management Act, 2013 requires that, at the end of each financial year, the accounting officer for a National Government Entity shall prepare financial statements in respect of that entity. Section 81 (3) requires the financial statements so prepared to be in a form that complies with relevant accounting standards as prescribed the Public Sector Accounting Standards Board of Kenya from time to time.

The Accounting Officer in charge of the state department for ICT is responsible for the preparation and presentation of the entity's financial statements, which give a true and fair view of the state of affairs of the entity for and as at the end of the financial year ended on June 30, 2019. This responsibility includes: (i) maintaining adequate financial management arrangements and ensuring that these continue to be effective throughout the reporting period; (ii) maintaining proper accounting records, which disclose with reasonable accuracy at any time the financial position of the entity; (iii) designing, implementing and maintaining internal controls relevant to the preparation and fair presentation of the financial statements, and ensuring that they are free from material misstatements, whether due to error or fraud; (iv) safeguarding the assets of the entity; (v) selecting and applying appropriate accounting policies; and (vi) making accounting estimates that are reasonable in the circumstances.

The Accounting Officer in charge of the state department for ICT accepts responsibility for the entity's financial statements, which have been prepared on the Cash Basis Method of Financial Reporting, using appropriate accounting policies in accordance with International Public Sector Accounting Standards (IPSAS). The Accounting Officer is of the opinion that the state department for ICT financial statements give a true and fair view of the state of department's transactions during the financial year ended June 30, 2019, and of the department's financial position as at that date. The Accounting Officer charge of the state department for ICT further confirms the completeness of the accounting records maintained for the department which have been relied upon in the preparation of the department's financial statements as well as the adequacy of the systems of internal financial control.

The Accounting Officer in charge of the state department for ICT confirms that the department has complied fully with applicable Government Regulations and the terms of external financing

*Ministry Of Information Communication and Technology: State Department of
Information Communication Technology*
Reports and Financial Statements for the year ended June 30, 2019

covenants (where applicable), and that the department's funds received during the year under audit were used for the eligible purposes for which they were intended and were properly accounted for. Further the Accounting Officer confirms that the state department for ICT financial statements have been prepared in a form that complies with relevant accounting standards prescribed by the Public Sector Accounting Standards Board of Kenya.

Approval of the financial statements

The *State Department's* financial statements were approved and signed by the Accounting Officer on
14/2/ 2020.

REPORT OF THE AUDITOR-GENERAL ON STATE DEPARTMENT FOR INFORMATION COMMUNICATION TECHNOLOGY FOR THE YEAR ENDED 30 JUNE, 2019

REPORT ON THE FINANCIAL STATEMENTS

Adverse Opinion

I have audited the accompanying financial statements of State Department for Information Communication Technology set out on pages 12 to 43, which comprise of the statement of assets and liabilities as at 30 June, 2019, and the statement of receipts and payments, the statement of cash flows and summary statements of appropriation – recurrent and development combined for the year then ended, and a summary of significant accounting policies and other explanatory information in accordance with the provisions of Article 229 of the Constitution of Kenya and Section 35 of the Public Audit Act, 2015. I have obtained all the information and explanations which, to the best of my knowledge and belief, were necessary for the purpose of the audit.

In my opinion, because of the significance of the matters discussed in the Basis for Adverse Opinion section of my report, the financial statements do not present fairly, the financial position of the State Department for Information Communication Technology as at 30 June, 2019, and of its financial performance and its cash flows for the year then ended, in accordance with International Public Sector Accounting Standards (Cash Basis) and do not comply with the Public Finance Management Act, 2012.

Basis for Adverse Opinion

1. Variances Between the Financial Statements and Trial Balance

The balances reported in the financial statements as at 30 June, 2019 and the supporting balances as per the trial balance differed as detailed below:

	Account Balance	Financial Statements Balance (Kshs)	Amount as per Trial Balance (Kshs)	Difference (Kshs)
1.	Bank balances	111,631,734	1,158,198,194	(1,046,566,460)
2.	Liabilities	0	4,511,344,223	(4,511,344,223)

	Account Balance	Financial Statements Balance (Kshs)	Amount as per Trial Balance (Kshs)	Difference (Kshs)
3.	Cash clearance account	0	(5,555,491,743)	5,555,491,743
4.	Fund balance	148,219,341	28,357,423,752	(28,209,204,411)

No satisfactory explanation or reconciliation between the two set of records were provided. In the circumstances, it has not been possible to confirm the accuracy and correctness of the financial statements for the year ended 30 June, 2019.

2. Unexplained Adjustments to the Financial Statements

Whereas the Management presented revised financial statements, the adjustments between the first set of financial statements and the final revised set were not supported with the relevant documents to justify the amendments. Details of the unsupported adjustments are as summarized below:

Component	Initial Financial Statements (Kshs.)	Revised Financial Statements (Kshs.)	Total Variance	Explained Variance (Kshs.)	Variance (Kshs.)
Domestic Travel and Subsistence	34,375,342	41,159,224	6,783,882	0	6,783,882
Foreign Travel and Subsistence	5,439,874	6,107,019	667,045	38,902	628,243
Acquisition of Assets	3,048,423,975	3,047,781,086	642,889	0	642,889
Prior year Adjustments	(2,851,784)	1,693,071	4,544,855	0	4,544,855

In addition, the statement of assets and liabilities reflects an unexplained prior year adjustment balance of Kshs.1,693,071 which has not been explained/reconciled.

In the circumstances, it has not been possible to confirm the accuracy and correctness of the financial statements for the year ended 30 June, 2019.

3. Proceeds from Foreign Borrowing

As disclosed in Note 2 to the financial statements, the statement of receipts and payments reflects an amount of Kshs.12,747,095,693 in respect of proceeds from foreign borrowings. The amount relates to payments made on behalf of the State Department to various Contractors by the lending institutions. This balance is made up of Kshs.712,997,115, Kshs.1,744,690,132 and Kshs.10,289,408,396 made to contractors by KBC Bank NV Belgium (Financier) relating to County Connectivity Project (CCP), China EXIM Bank relating to National Optic Fibre Backbone Infrastructure (NOFBI) (II) Expansion Project and UNICREDIT S.P.A respectively relating to Konza Technocity Project. However, no details in respect to the date the payments were made by the Banks, details of authorization (whom and the date) to the

Banks payments and bank debit advices. In addition, documentation and details of how the contractors were procured were not provided for audit review.

Consequently, the accuracy, validity and existence of proceeds from foreign borrowings totalling Kshs.12,747,095,693 for the year ended 30 June, 2019 could not be ascertained.

4. Use of Goods and Services

As disclosed under Note 4 to the financial statements, the statement of receipts and payments reflects an amount of Kshs.222,350,725 in respect of use of goods and services. However, included in the balance are payments that were posted to incorrect expenditure accounts as shown below:

Account Name (Incorrect)	Amount (Kshs)	Nature	Correct Account Name
Hospitality, Supplies and Services	160,000	Training fees	Training
Domestic Travel and Subsistence	2,761,594	Air tickets	Foreign travel
Domestic Travel and Subsistence	133,872	Allowances to staff during training	Training
Specialized Materials	500,000	Allowances for staff for facilitation	Hospitality, supplies and services

The above misclassifications have not been explained or adjusted in the financial statements leading to misstatement of various account balances as at 30 June, 2019.

In the circumstances, the accuracy and completeness of balances of Kshs.222,350,725 reflected in the statement of receipts and payments for the year ended 30 June, 2019 could not be ascertained.

5. Accounts Receivables

As disclosed under Note 9 to the financial statements, the statement of assets and liabilities reflects account receivables balance of Kshs.132,470,289 which includes Kshs.132,314,063 in respect of clearing accounts. The clearing accounts balances relate to AIE's advanced to Ministries, Departments and Agencies for purposes of procurement of IT equipment which had not been accounted for as at 30 June, 2019. However, the balance of Kshs.132,314,063 excludes Kshs.193,218,304 outstanding from The National Treasury which had been advanced by 12 May, 2019

No explanation was provided on how the balance of Kshs.193,218,304 had been accounted for in the financial statements.

Further, the amount outstanding in respect of the State Department for Public Service as reflected in the books of the State Department for Information Communication Technology was Kshs.46,186,028 while in the books of the State Department for Public

Service was Kshs.81,668,693 resulting to an unexplained and unreconciled difference of Kshs.35,482,665.

Consequently, the accuracy and completeness of accounts receivables balance of Kshs.132,470,289 as at 30 June, 2019 could not be ascertained.

6. Accounts Payables

The deposits bank account reconciliation statement reflects a cash book balance of Kshs.95,882,683 as at 30 June, 2019 and amounts paid in the cash book but not yet reflected in the bank statement amounting to Kshs.34,316,389. The deposit account balance for the previous year, as at 30 June, 2018, was Kshs.3,100,249 which increased to Kshs.95,882,683 as at 30 June, 2019. The increase in the deposit balance and transactions thereof was as a result of a deposit of AIE received from the Ministry of Interior and Coordination of National Government amounting to Kshs.577,960,000 for purchase of ICT components of National Integrated Information Systems, (NIIMS) project.

The following were noted in respect of the transactions in this account

- a) The Department's communication via letter MICT/CONF.A/18/31 dated 21 February, 2019 through which the Department requested for AIE was not availed for audit review.
- b) The breakdown of the payments/expenditure that are in line with the detailed critical infrastructural components budget as per the AIE notification that was submitted by the State Department of Interior and Coordination of National Government were not provided for audit verification and review.
- c) Detailed approved workplan and procurement plan for the utilization of the AIE requested matching workplan to the expenditure were not provided for audit review.
- d) The surrender or absorption summary for the AIE included a payment voucher for Kshs.255,000,000 for monies transferred back to the State Department of Interior and Coordination of National Government. However, no request for refund or any other supporting documentation other than the payment voucher were availed for audit verification.
- e) The NIIMS registration started on 2 April, 2019 and ended on 25 May, 2019. However, there were payments and expenditure for activities undertaken long after the closure of the exercise, some of which were in relation to the negotiation process.

The total payments made to the internet service providers amounted to Kshs.132,250,290. The State Department owns and controls the National Optic Fibre Backbone Infrastructure (NOFBI) which provides internet to these service

providers. However, the service providers have not been charged for the use of this infrastructure. No explanation has been provided for this anomaly.

- f) An amount of Kshs.6,060,000 was paid to East and Southern Africa Management Institute to undertake capacity building for various officers and an additional Kshs.17,177,600 was paid as subsistence allowance to officers attending the said training. However, no evidence of travel and attendance of the training including the clearance certificates have been availed for audit verification. Further, no approved work plan has been provided to demonstrate that this activity, with a total cost of Kshs.23,237,600, was part of critical infrastructure components of the NIIMS project which were transferred from the State Department of Interior and Coordination of National Government to the State Department for Information Communication Technology and actually included in the work plan implementation schedule for the period under review.

Consequently, the accuracy and validity of the accounts payable balance of Kshs.95,882,683 as at 30 June, 2019 could not be confirmed.

The audit was conducted in accordance with International Standards of Supreme Audit Institutions (ISSAIs). I am independent of the State Department for Information Communication Technology Management in accordance with ISSAI 130 on Code of Ethics. I have fulfilled other ethical responsibilities in accordance with the ISSAI and in accordance with other ethical requirements applicable to performing audits of financial statements in Kenya. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my adverse opinion.

Key Audit Matters

Key audit matters are those matters that, in my professional judgment, are of most significance in the audit of the financial statements. There were no key audit matters to report in the year under review

Other Matter

Unresolved Prior Year Matters

In the audit report of the previous year, several paragraphs were raised under the Report on Financial Statements. However, the Management has not resolved the issues nor given any explanation for failure to adhere to the provisions of the Public Sector Accounting Standards Board templates and The National Treasury's Circular to resolve the issues.

REPORT ON LAWFULNESS AND EFFECTIVENESS IN USE OF PUBLIC RESOURCES

Conclusion

As required by Article 229(6) of the Constitution, because of the significance of the matters discussed in the Basis for Conclusion on Lawfulness and Effectiveness in Use

of Public Resources section of my report, based on the audit procedures performed, I confirm that public resources have not been applied lawfully and in an effective way.

Basis for Conclusion

Unauthorized Expenditure - Training Expenses

The statement of receipts and payments and Note 4 of the financial statements reflects a balance of Kshs.222,350,725 in respect of use of goods and services which reflects an amount of Kshs.26,517,290 for training expenses for the year ended 30 June, 2019. The training expenses include a payment of Kshs.1,003,380 for the provision of conference facilities for stakeholders' workshop on Ajira Implementation Roadmap in Counties, it was, however supported by a proforma invoice and a commitment letter that was not approved by the Head of Procurement and without a Local Service Order (LSO) thereby making the expenditure un authorized.

2.0 Acquisition of Assets - Financial Assets

2.1 Inappropriate Expensing of Information and Communications Technology Authority (ICTA) Assets

The acquisition of assets amount of Kshs.3,047,781,086, as reported in the statement of receipts and payments and Note 7 of the financial statements, includes an amount of Kshs.1,744,690,183 in relation to the National Optic Fibre Backbone Infrastructure (NOFBI) that has been reported under Domestic Public Non-Financial Enterprises and Kshs.712,997,115 in relation to County Connectivity Project (CCP) that has been reported under purchase of specialized plant and machinery amount of Kshs.1,127,837,099. However, even though CCP and NOFBI projects are being implemented and supervised by the Information and Communications Technology Authority (ICTA), the payments of Kshs.712,997,115 and Kshs.1,744,690,132 relating to CCP and NOFBI respectively were made by the State Department and the resultant assets have not been reflected in the accounting records of the Information and Communications Technology Authority but rather the amounts have been expensed under the State Department of ICT and Innovations accounting records as shown under Note 7 of the financial statements - acquisition of assets. Due to this, it is therefore not possible to verify the compliance or otherwise to quantify the value of assets and establish the location of the assets created out of the payments made on account of these two infrastructures.

In addition, included in the acquisition of assets of Kshs.3,047,781,086 are payments amounting to Kshs.2,457,687,298 made by financiers to two contractors in respect of CCP and NOFBI (II) Expansion.

However, the documents in relation to how the two Contractors were identified, procured and awarded the contracts were not availed for audit verification and hence the validity of the payments as a charge to public funds is not confirmed. Further, the contracts availed for audit examination did not include the annexes which presumably contained

the terms and conditions of the contract including timelines, deliverables and payment schedules. Therefore, it was not possible to verify the compliance or otherwise to the contractual obligation, and the propriety and validity of the payments made on account of these contracts so far.

2.2 Domestic Public Non-Financial Enterprise

The acquisition of assets balance of Kshs.3,047,781,086 as disclosed on Note 7 to the financial statements includes a balance of Kshs.1,744,690,183 (2017/2018 – Kshs.2,960,484,692) in respect of financial assets described as Domestic Public Non-Financial Enterprise whose nature of assets and breakdown was not provided for audit verification. The expenditure is allegedly in respect of the National Fibre Optic Backbone Infrastructure (NOFBI) whose first phase was initiated in 2010 and completed in 2012 with subsequent extensions in scope and geographical coverage being automatically granted to the Contractor without undertaking any procurement process in line with the Public Procurement and Asset Disposal Act, 2015. Some of the extensions are yet to be completed and commissioned.

The Management is therefore in breach of the law.

2.3 National Optic Fibre Backbone Infrastructure (NOFBI) and County Connectivity Project (CCP) Structure

The State Department for Information Communication Technology was undertaking two projects namely National Optic Fibre Backbone Infrastructure (NOFBI) and County Connectivity Project (CCP). The projects do not have a defined structure that allocates responsibility of ensuring delivery by the contractors. The contract is between the State Department and the contractor but the payment voucher is initiated by ICT Authority for works done, and the payments are made by The National Treasury. No documented inspection and acceptance reports have been provided to support any of the payments made amounting to Kshs.7,578,324,633 in respect of NOFBI and Kshs.1,337,832,556 paid in respect of CPP over the last three years. No evidence has been provided for audit verification to show that Use Acceptance Testing (UAT) has ever been undertaken on the project.

Further, whereas each of the two projects are expected to have a Project Manager, no appointment letters were availed for audit verification in respect of the two projects. In addition, no appointment letters for members of the Inspection and Acceptance Committee for both the National Optic Fiber Backbone Infrastructure (NOFBI) and the County Connectivity Project (CCP) were provided for audit verification.

In view of the foregoing circumstances, the value for money for the expenditure of Kshs.8,916,157,189 as at 30 June, 2019 could not be confirmed.

2.4 National Optic Fibre Infrastructure (NOFBI) – Loan Repayment

The NOFBI project that is being implemented by the State Department for Information Communication Technology in conjunction with Information and Communications

Technology Authority (ICTA) and is being funded by Export Import Bank of China for RMB 1,110,000,000 is made up of two loans. Loan one of RMB 460,000,000 signed on 08 October, 2012 and a second loan amounting to RMB 650,000,000 dated 19 May, 2016. Although ICTA has started funding the repayment of the loan through the opening and operation of the ESCROW account that is being funded through periodic disbursement from The National Treasury, the loans as well as the resultant assets acquired with the loans have not been recorded in the Authority's financial statements or accounting records.

Under the circumstances, the legality, propriety and justification of the loans totalling RMB 1,100,000,000 (Kshs.16,500,000,000) whose repayment by the ICT Authority has been funded by The National Treasury to date amounting to Kshs.727,929,220 and, in effect the Kenyan tax payers cannot be ascertained.

2.5 Non-Billing of the National Optic Fibre Backbone Infrastructure (NOFBI)

The NOFBI project network has presumably been operational since 2014 and has been used by most of the data service providers in the Country. However, although the financing agreement indicated that the Government would sell out excess capacity commercially to the public and bill them to finance the loan repayment, there has been no billing done for the last five years it has been in operation. Further, the service provision framework agreement between the NOFBI Project Managers and the Internet Service Providers has not been implemented. The Government has therefore, been funding the operations of commercial entities without recovering the cost which amounts to lack of prudent use of public resources.

In addition, no records have been provided detailing the users that have been connected to NOFBI for the last five years, their utilization levels, and the amount payable by each.

3.0 Acquisition of Assets – Non-Financial Assets

As disclosed in Note 7 to the financial statements, the statement of receipts and payments reflects an amount of Kshs.3,047,781,086 in respect of acquisition of assets which includes Kshs.1,127,837,099 in relation to purchase of specialized plant, equipment and machinery. Included in the balance of Kshs.1,127,837,099, is an amount of Kshs.218,760,630 relating to assets which were procured on behalf of and transferred to various MDAs by the State Department of Information Communication Technology, and Kshs.546,049,432 relating to IT assets funded through use of AIEs issued by the State Department for Information Communication Technology directly to the various MDAs who undertook the procurement.

However, the following observations were made:

i. Non Compliance with Presidential Directive

The State Department for Information Communication Technology undertook the function of purchasing ICT equipment and related services on behalf of MDA's in

contravention of the Presidential Directive Ref: OP/CAB.39/1A of March 2018, that required the procurement to be centralized at the Information, Communication and Technology Authority (ICTA).

ii. Delays in the Inspection of Goods and Services

Payments in respect of procurement of ICT equipment made on behalf of MDA totalling Kshs.3,578,476 indicated that the goods were ordered, delivered and acknowledgement of receipts to the suppliers made before the inspection of the equipment to confirm conformity. The inspection was done after an inordinately long period ranging from seven (7) to forty-nine (49) days.

There was no explanation from the Management for the unconditional acceptance of the equipment without undertaking inspection and in line with Public Procurement guidelines.

iii. Transfer of Shared Services Funds to MDAs as AIE

Analysis of payment details for the State Department reflects an amount totalling to Kshs.1,104,600,648 in respect of Shared Services which relate to purchasing ICT equipment by the State Department on behalf of MDAs. Included in this balance is Kshs.546,049,432 transferred to MDAs in form of AIEs contrary to the Presidential directive and Treasury Circular No.ES.1/03/'N'(2) of 19 June 2018. The directive required that all ICT procurement in the Ministries, Departments and Agencies (MDAS) including State Corporations be consolidated and centralized under the Information Communication and Technology Authority (ICTA) in order to ensure economies of scale and optimize the shared services strategy.

Although Management has explained that the AIEs were meant to pay for the running contracts that were domiciled in various MDAs before the consolidation of the ICT budget, no documentation was provided in support of the request for the AIEs. The returns provided did not indicate the existence of running contracts in the respective departments.

In the absence of satisfactory documentation and explanation, it was not possible to ascertain that the transfer of AIE to various MDAs was done in compliance with the circular issued after the Presidential Directive.

iv. Unfair and Improper Sourcing of Suppliers

Following the consolidation of procurement of ICT equipment and related services for the entire Government, the State Department for Information Communication Technology identified fifty four (54) products and fifty four (54) suppliers were awarded framework contracts to supply each of the identified products to the entire Government for a period of two years each corresponding to the products identified.

However, the framework contracting was not done in line with Section 114 of the Public Procurement and Asset Disposal Act, 2015, as only one supplier was selected instead of the mandatory minimum of seven (7). This eliminated competition necessary to ensure prices for commodities procured are comparable to the market value. This also eliminated equitability, value for money and justification and fairness in the procurement of ICT related products.

An analysis of the acquisition of assets revealed that total Purchase Orders issued by the State Department of ICT for the financial year ended 30 June, 2019 in respect of purchase of ICT equipment and related services was Kshs.383,266,408.85 out of which Kshs.350,771,66.80 relates to procurement done on behalf of other Government Ministries, Departments and Agencies. Further, analysis indicates that 76.93% of the supplies were awarded to seven (7) suppliers for a duration of two years.

Consequently, the justification on the value for money, fairness and equity in the procurement of public assets cannot be confirmed.

The audit was conducted in accordance with ISSAI 4000. The standard requires that I comply with ethical requirements and plan and perform the audit to obtain assurance about whether the activities, financial transactions and information reflected in the financial statements are in compliance, in all material respects, with the authorities that govern them. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion

REPORT ON EFFECTIVENESS OF INTERNAL CONTROLS, RISK MANAGEMENT AND GOVERNANCE.

Conclusion

As required by Section 7(1)(a) of the Public Audit Act, 2015, because of the significance of the matter discussed in the Basis for Conclusion on Effectiveness of Internal Controls, Risk Management and Governance section of my report, based on the audit procedures performed, I confirm that internal controls, risk management and overall governance were not effective..

Basis for Conclusion

Lack of Audit Committee

During the year under review, the State Department for Information Communication Technology operated without an Audit Committee as required by Section 73(5) of the Public Finance Management Act, 2012. The mandate of the Audit Committee is to provide oversight functions such as review of the systems established to ensure sound financial management and internal controls that comply with policies, rules, regulations and procedures.

Although Management has explained that the Ministry established the audit committee within the financial year 2017/2018 where appointment letters for the Chairman and Members were signed on 18 December, 2018, no document was availed to show that the State Department's Audit Committee held meetings during the year.

The audit was conducted in accordance with ISSAI 2315 and ISSAI 2330. The standards require that I plan and perform the audit to obtain assurance about whether effective processes and systems of internal control, risk management and governance were operating effectively, in all material respects. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

Responsibilities of Management and those Charged with Governance

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Public Sector Accounting Standards (Cash Basis) and for maintaining effective internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error and for its assessment of the effectiveness of internal control, risk management and governance.

In preparing the financial statements, Management is responsible for assessing the ability to continue to sustain its services, disclosing, as applicable, matters related to sustainability of services and using the applicable basis of accounting unless Management is aware of the intention to terminated the State Department or to cease operations.

Management is also responsible for the submission of the financial statements to the Auditor-General in accordance with the provisions of Section 47 of the Public Audit Act, 2015.

In addition to the responsibility for the preparation and presentation of the financial statements described above, management is also responsible for ensuring that the activities, financial transactions and information reflected in the financial statements are following the authorities which govern them, and that public resources are applied in an effective way.

Those charged with governance are responsible for overseeing the financial reporting process, reviewing the effectiveness of how the entity monitors compliance with relevant legislative and regulatory requirements, ensuring that effective processes and systems are in place to address key roles and responsibilities in relation to governance and risk management, and ensuring the adequacy and effectiveness of the control environment.

Auditor-General's Responsibilities for the Audit

The audit objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion in accordance with the

provisions of Section 48 of the Public Audit Act, 2015 and submit the audit report in compliance with Article 229(7) of the Constitution. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISSAIs will always detect a material misstatement and weakness when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

In addition to the audit of the financial statements, a compliance audit is planned and performed to express a conclusion about whether, in all material respects, the activities, financial transactions and information reflected in the financial statements are in compliance with the authorities that govern them and that public resources are applied in an effective way, in accordance with the provisions of Article 229(6) of the Constitution and submit the audit report in compliance with Article 229(7) of the Constitution.

Further, in planning and performing the audit of the financial statements and audit of compliance, I consider internal control in order to give an assurance on the effectiveness of internal controls, risk management and governance processes and systems in accordance with the provisions of Section 7(1)(a) of the Public Audit Act, 2015 and submit the audit report in compliance with Article 229(7) of the Constitution. My consideration of the internal control would not necessarily disclose all matters in the internal control that might be material weaknesses under the ISSAIs. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Because of its inherent limitations, internal control may not prevent or detect misstatements and instances of non-compliance. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

As part of an audit conducted in accordance with ISSAIs, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

- Conclude on the appropriateness of the Management's use of the applicable basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the State Department's ability to continue to sustain its services. If I conclude that a material uncertainty exists, I am required to draw attention in the auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my audit report. However, future events or conditions may cause the State Department to cease to continue as a going concern or to sustain its services.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information and business activities of the State Department to express an opinion on the financial statements.
- Perform such other procedures as I consider necessary in the circumstances.

I communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that are identified during the audit.

I also provide Management with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

Nancy Gathungu
AUDITOR-GENERAL

Nairobi

XII. SIGNIFICANT ACCOUNTING POLICIES

The principle accounting policies adopted in the preparation of these financial statements are set out below:

1. *Statement of Compliance and Basis of Preparation*

The financial statements have been prepared in accordance with Cash-basis International Public Sector Accounting Standards (IPSAS) as prescribed by the Public Sector Accounting Standards Board (PSASB) and set out in the accounting policy note below. This cash basis of accounting has been supplemented with accounting for; a) receivables that include imprests and salary advances and b) payables that include deposits and retentions.

The financial statements comply with and conform to the form of presentation prescribed by the PSASB. The accounting policies adopted have been consistently applied to all the years presented.

2. Reporting Entity

The financial statements are for the Ministry of Information, communication and Technology-State Department of ICT. The financial statements encompass the reporting entity as specified under section 81 of the PFM Act 2012 and also comprise of the following development projects implemented by the state department for ICT :-

- i) National Optic Fibre Backbone Ksh 1,744,690,183
- ii) County Connectivity Project Ksh 712,997,114.70
- iii) Konza Technopolis Development Authority Ksh 10,289,408,396

3. Reporting Currency

The financial statements are presented in Kenya Shillings (KShs), which is the functional and reporting currency of the Government and all values are rounded to the nearest Kenya Shilling.

4. Significant Accounting Policies

The accounting policies set out in this section have been consistently applied by the Entity for all the years presented.

a) Recognition of Receipts

The Entity recognises all receipts from the various sources when the event occurs and the related cash has actually been received by the Entity.

Tax Receipts

Tax receipts are recognized in the books of accounts when cash is received. Cash is considered as received when notification of tax remittance is received.

SIGNIFICANT ACCOUNTING POLICIES

Transfers from the Exchequer

Transfers from the exchequer are recognized in the books of accounts when cash is received. Cash is considered as received when payment instruction is issued to the bank and notified to the receiving entity.

External Assistance

External assistance is received through grants and loans from multilateral and bilateral development partners.

Grants and loans shall be recognized in the books of accounts when cash is received. Cash is considered as received when a payment advice is received by the recipient entity or by the beneficiary.

In case of grant/loan in kind, such grants are recorded upon receipt of the grant item and upon determination of the value. The date of the transaction is the value date indicated on the payment advice. A similar recognition criteria is applied for loans received in the form of a direct payment.

During the year ended 30th June 2019, there were no instances of non-compliance with terms and conditions which have resulted in cancellation of external assistance loans.

Other receipts

These include Appropriation-in-Aid and relates to receipts such as proceeds from disposal of assets and sale of tender documents. These are recognised in the financial statements the time associated cash is received.

b) Recognition of payments

The Entity recognises all payments when the event occurs and the related cash has actually been paid out by the Entity.

Compensation of Employees

Salaries and wages, allowances, statutory contribution for employees are recognized in the period when the compensation is paid.

Use of Goods and Services

Goods and services are recognized as payments in the period when the goods/services are paid for. Such expenses, if not paid during the period where goods/services are consumed, shall be disclosed as pending bills.

Interest on Borrowing

Borrowing costs that include interest are recognized as payment in the period in which they are paid for.

SIGNIFICANT ACCOUNTING POLICIES

Repayment of Borrowing (Principal Amount)

The repayment of principal amount of borrowing is recognized as payment in the period in which the repayment is made.

Acquisition of Fixed Assets

The payment on acquisition of property plant and equipment items is not capitalized. The cost of acquisition and proceeds from disposal of these items are treated as payments and receipts items respectively. Where an asset is acquired in a non-exchange transaction for nil or nominal consideration and the fair value of the asset can be reliably established, a contra transaction is recorded as receipt and as a payment.

A fixed asset register is maintained by each public entity and a summary provided for purposes of consolidation. This summary is disclosed as an annexure to the financial statements.

5. In-kind contributions

In-kind contributions are donations that are made to the Entity in the form of actual goods and/or services rather than in money or cash terms. These donations may include vehicles, equipment or personnel services. Where the financial value received for in-kind contributions can be reliably determined, the Entity includes such value in the statement of receipts and payments both as

receipts and as payments in equal and opposite amounts; otherwise, the contribution is not recorded.

6. Third Party Payments

Included in the receipts and payments, are payments made on its behalf to third parties in form of loans and grants. These payments do not constitute cash receipts and payments and are disclosed in the payment to third parties in the statement of receipts and payments as proceeds from foreign borrowings.

7. Cash and Cash Equivalents

Cash and cash equivalents comprise cash on hand and cash at bank, short-term deposits on call and highly liquid investments with an original maturity of three months or less, which are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value. Bank account balances include amounts held at the Central Bank of Kenya and at various commercial banks at the end of the financial year.

Restriction on Cash

Restricted cash represents amounts that are limited/restricted from being used to settle a liability for at least twelve months after the reporting period. This cash is limited for direct use as required by stipulation.

Amounts maintained in deposit bank accounts are restricted for use in refunding third party deposits. As at 30th June 2019, this amounted to Kshs 95,882,683 compared to Kshs 3,134,608 in prior period as indicated on note 10.

There were no other restrictions on cash during the year.

SIGNIFICANT ACCOUNTING POLICIES

8. Accounts Receivable

For the purposes of these financial statements, imprests and advances to authorised public officers and/or institutions which were not surrendered or accounted for at the end of the financial year are treated as receivables. This is in recognition of the government practice where the imprest payments are recognized as payments when fully accounted for by the imprest or AIE holders. This is an enhancement to the cash accounting policy. Other accounts receivables are disclosed in

the financial statements.

9. Accounts Payable

For the purposes of these financial statements, deposits and retentions held on behalf of third parties have been recognized on an accrual basis (as accounts payables). This is in recognition of the government practice of retaining a portion of contracted services and works pending fulfilment of obligations by the contractor and to hold deposits on behalf of third parties. This is an enhancement to the cash accounting policy adopted by National Government Ministries and Agencies. Other liabilities including pending bills are disclosed in the financial statements.

10. Pending Bills

Pending bills consist of unpaid liabilities at the end of the financial year arising from contracted goods or services during the year or in past years. As pending bills do not involve the payment of cash in the reporting period, they recorded as 'memorandum' or 'off-balance' items to provide a sense of the overall net cash position of the Entity at the end of the year. When the pending bills are finally settled, such payments are included in the Statement of Receipts and Payments in the year in which the payments are made.

11. Budget

The budget is developed on a comparable accounting basis (cash basis except for imprest and deposits, which are accounted for on an accrual basis), the same accounts classification basis, and for the same period as the financial statements. The original budget was approved by Parliament on June 2018 for the period 1st July 2018 to 30th June 2019 as required by Law and there were two supplementary adjustments to the original budget during the year.

A comparison of the actual performance against the comparable budget for the financial year under review has been included in the financial statements.

Government Development Projects are budgeted for under the MDAs but receive budgeted funds as transfers and account for them separately. These transfers are recognised as inter-entity transfers.

12. Comparative Figures

Where necessary, comparative figures for the previous financial year have been amended or reconfigured to conform to the required changes in presentation.

SIGNIFICANT ACCOUNTING POLICIES

13. Subsequent Events

There have been no events subsequent to the financial year end with a significant impact on the financial statements for the year ended 30th June 2019.

14. Errors

Material prior period errors shall be corrected retrospectively in the first set of financial statements authorized for issue after their discovery by: i. restating the comparative amounts for prior period(s) presented in which the error occurred; or ii. If the error occurred before the earliest prior period presented, restating the opening balances of assets, liabilities and net assets/equity for the earliest prior period presented.

During the year, errors that have been corrected are disclosed under note 26 explaining the nature and amounts.

15. Related Party Transactions

Related party relationships are a normal feature of commerce. Specific information with regards to related party transactions is included in the disclosure notes.

 Reports and Financial Statements for the year ended June 30, 2019

Reference No. on the external audit Report	Issue / Observations from Auditor	Management comments	Focal Point person to resolve the issue (Name and designation)	Status: (Resolved / Not Resolved)	Timeframe: (Put a date when you expect the issue to be resolved)
4/2018	Unexplained variance of Ksh 40,615,054 and lack of explanations on treatment of Ksh 914,878,532 under bank.	ICTA acknowledged receipt of the entire amount of Ksh 7,57,433,531. However, ksh 40,615,054 was for EARTTDFP account has since been recognised in 2018/2019 FY. The 914,878,532 was posted in the cash book based on the exchequer notification which held that the funds were credited in the ministry exchequer account on 29 th June, 2018 and related to FY 2018/2019. The reconciliations has since been corrected to reflect the correct position in the bank.	Margaret Kariuki-HAU	Not yet resolved.	31 st March, 2020
5/2018	No verification and acceptance committee for NOFBI and CCP. While expending proceeds from foreign borrowing.	The payments were being made based on certificates by a team of officers from the ministry and ICTA. However appointed ad hoc inspection and acceptance committees have since been formed for the two projects.	Abraham Ondeng-Deputy Secretary.	Not yet resolved.	31 st March, 2020

Ministry Of Information Communication and Technology: State Department of Information Communication Technology

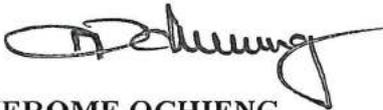

Reports and Financial Statements for the year ended June 30, 2019

Reference No. on the external audit Report	Issue / Observations from Auditor	Management comments	Focal Point person to resolve the issue (Name and designation)	Status: (Resolved / Not Resolved)	Timeframe: (Put a date when you expect the issue to be resolved)
