H. MOTION – PARKING CHARGES IN PUBLIC INSTITUTIONS OFFERING ESSENTIAL SERVICES

(Sen. (Dr.) Abdullahi Ali, MP)

AWARE THAT, many urban areas and towns in Kenya lack designated car parking areas as a result of imbalance between parking supply and demand mainly due to ineffective land use planning and miscalculations of space requirements, thereby leading to exorbitant parking fees;

NOTING that, most essential services offered in hospitals, educational institutions and other public utilities are offered in urban centers, shopping malls and other designated areas that charge parking fees to access;

ACKNOWLEDGING, that whether they are delivered by public or private providers, essential services such as health, banking, education and other utilities are considered to be public services because they are public goods that sustain the well-being of every citizen and help in the development of the society as a whole;

CONCERNED, that access to hospitals, educational institutions and other places offering essential services might be hindered due to exorbitant parking fees levied on motorists accessing these services;

FURTHER CONCERNED, that charging entry fees amount to double taxation as the motorists who would have paid the parking fees will still pay for the services they seek;

NOW THEREFORE, the Senate urges the Cabinet Secretary for Lands, Housing and Physical Planning together with the Council of Governors to come up with a policy framework to create an enabling environment for protection of motorists accessing essential services from paying exorbitant fees for parking.

I. MOTION- INTEGRATING CLIMATE EDUCATION INTO SCHOOL CURRICULUM AT ALL LEVELS

(Sen. Abshiro Halake, MP)

THAT, AWARE THAT it is important that both the current and future generations are better equipped to address the problem of climate change and this can be accomplished by using appropriate instructional strategies such as integrating climate education into the syllabus to assist students in improving their understanding of climate change and acquiring the essential skills to reduce its effects.

ACKNOWLEDGING THAT education is crucial to promote climate action as it helps individuals understand and address the impacts of the climate crisis, empowering them with the knowledge, skills, values and attitudes needed to act as agents of change, hence protect the environment and take action by crafting community level solutions.

COGNIZANT OF THE FACT the Constitution of Kenya in Article 42 provides for the right to a clean and healthy environment for every Kenyan, which includes the right to have the environment protected for the benefit of present and future generations.

FURTHER NOTING THAT climate change is a global nightmare with consequences that are already quite visible, and should be a priority for our education curriculum, in accordance to Article 12 of the Paris Agreement which espouses the enhancement of climate change education, training, public awareness, public participation and public access to information.

NOW THEREFORE, the Senate calls upon the Council of Governors in partnership with the Ministry of Education, Science and Technology to:-

1. integrate climate education in the school curriculum in all counties to equip all school going children; and
2. equip teachers and administrators with the necessary information and training skills to teach climate education in schools.

(Sen. (Arch.) Sylvia Kasanga, MP)

THAT, WHEREAS Kenya is a multi-ethnic and multi-racial country with rich and diverse cultural resources such as traditional medicine and foods, arts, craft, music, dances, dress among others;

AWARE THAT, the Constitution, in its preamble acknowledges the cultural diversity of the Kenyan people who are determined to live in peace and unity as one indivisible sovereign nation whilst, Article 11 of the Kenyan Constitution recognizes culture as the foundation of the nation;

NOTING that, while the Department of Culture under the Ministry of Sports, Culture and Heritage has been playing some of the key roles in promotion of cultural integration, formulation of policies and standards that will guide the development of culture, little information has been available to the Kenyan public;

ACKNOWLEDGING, that culture performs a significant role in the life of a child, the cultural background in which a child is brought up affects the totality of his or her life's activities;

CONCERNED, that our children are losing their sense of identity due to the negative influences due to inadequate cultural identity catalyzed by globalization which has led to catastrophic consequences to the next generation as experienced in our country where a majority of young people are showing symptoms of feeling suicidal, anxious, feeling of hopelessness, anger, violence, feeling isolated, and paranoia;

NOW THEREFORE, the Senate urges the Cabinet Secretary, Ministry of Sports, Culture and Heritage to –

FURTHER AWARE that women who go through still birth and those that lose their children during delivery are taken to the general maternity ward where other mothers with healthy babies are recovering, causing them mental anguish and adversely impacting their mental health;

NOTING THAT integrating mental health care into primary healthcare settings requires training in psychiatric care and providing consulting support to primary care providers, considering that there are not enough mental health care providers to meet the current and growing need for mental health services;

APPRECIATING THAT the Health Act under section 6 (1) (b) provides that every person has a right to reproductive health care which includes the right of access to appropriate health care services that will enable mothers go safely through pregnancy, childbirth, and the postpartum period which should include the integration of mental health in perinatal care as recommended by the National
