#### PROJECT INFORMATION AND OVERALL PERFORMANCE 1.

# 1.1 Name and registered office

Name: The project's official name is Kenya Industry & Entrepreneurship Project (KIEP)

Objective: The key objective of the project is to increase innovation and productivity in select private

sector firms

Address: The project headquarters offices are in Nairobi County, Kenya.

The address of its registered office is:

National Social Security Fund Building 23rd Floor Block A Bishops Road. Upper Hill.

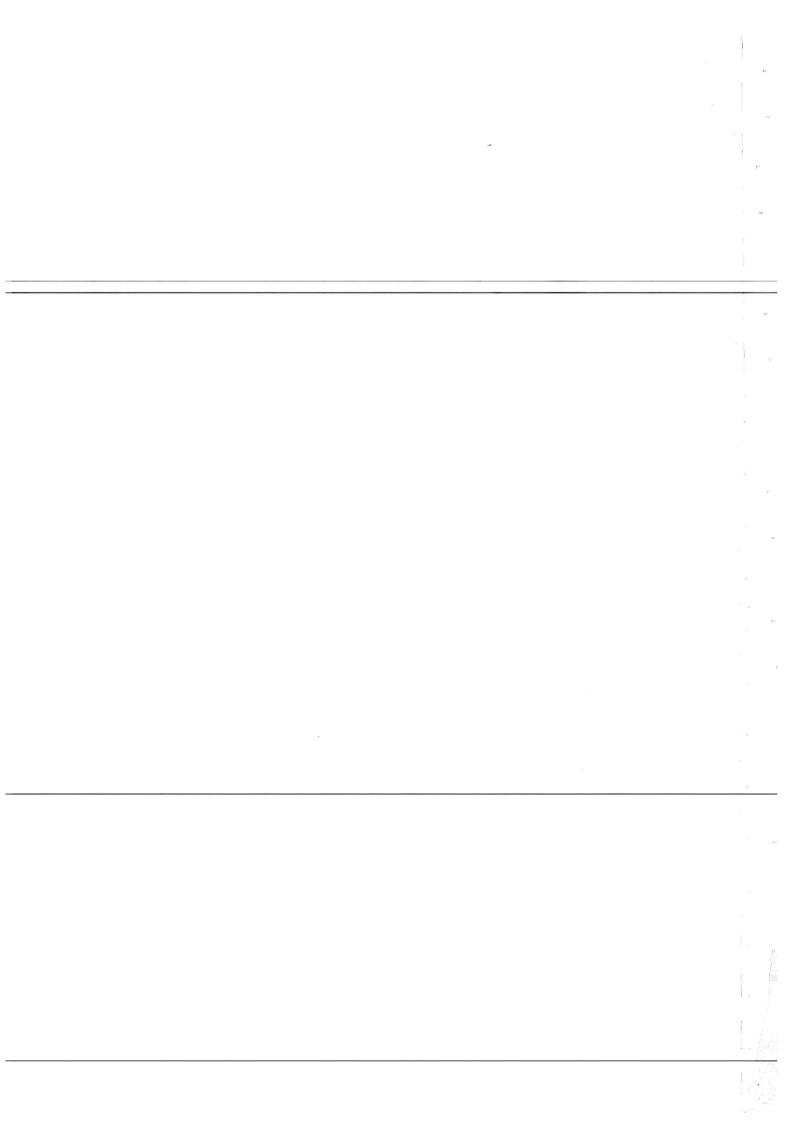

Contacts: The following are the project contacts

Telephone: (254) 2731631 E-mail: ps.moied@gmail.com

Website: www.industrialization.go.ke

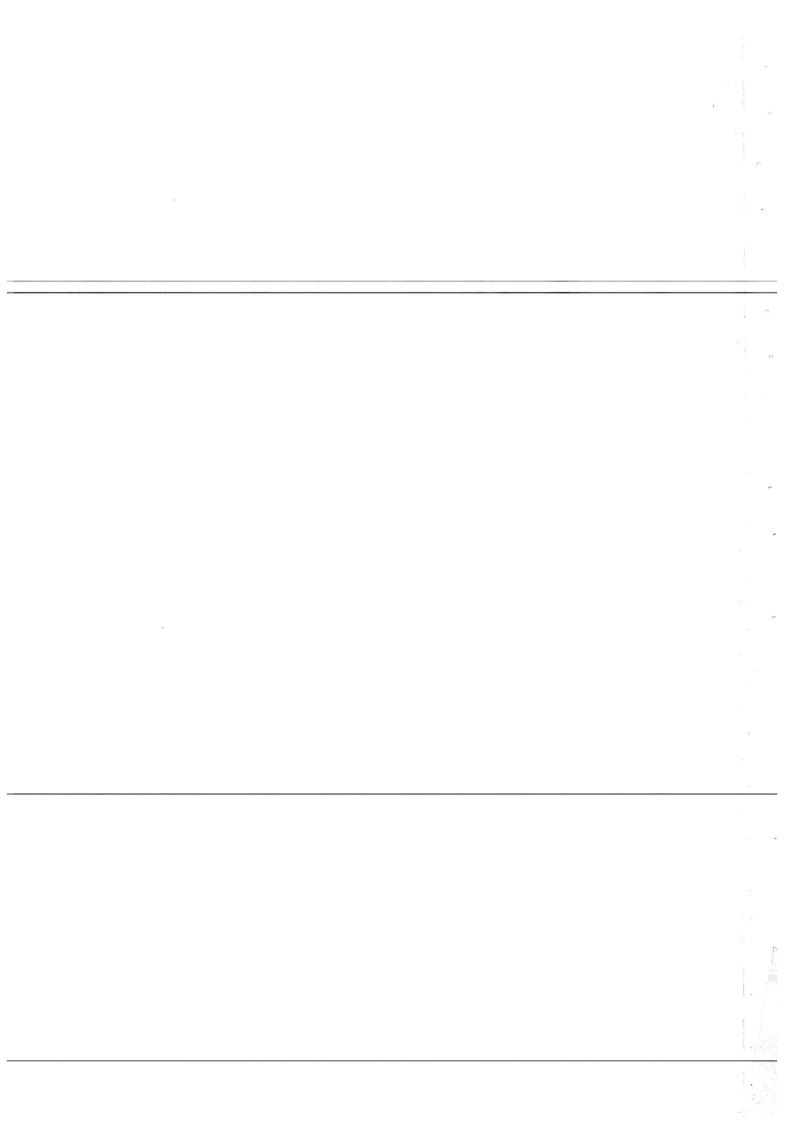

# PROJECT INFORMATION AND OVERALL PERFORMANCE (Continued) 1.2 Project Information

Project Start Date:	3 <sup>rd</sup> August 2018
Project End Date:	31st December 2024
Project Coordinator:	Mr. Stephen Odua
Project Sponsor:	World Bank (IDA)

# 1.3 Project Overview

	T
Line Ministry/State Department of the project	January and Line Prize 20 voic pinione,
Project number	Project ID. P161317
Strategic goals of the project	To increase innovation and productivity in select private sector firms
Achievement of strategic goals	The project management aims to achieve the goals through the following means:  Part 1. Strengthening the innovation and entrepreneurship Ecosystem
1	<ul> <li>i. Designing and administering diagnostic tools to assess the Intermediaries' management and operations, and the options through which each can improve and or expand their services;</li> <li>ii. Designing and managing a program for Intermediaries to implement action plans under Performance Contracts or Memoranda of Understanding;</li> <li>iii. Incorporating lessons learned to adapt and strengthen the program design, including the diagnostic tools and action plans, as needed;</li> <li>iv. Carrying out awareness raising and information dissemination activities on the program; and</li> <li>v. Collecting data at baseline and throughout implementation, to feed into the Project monitoring and evaluation system.</li> <li>(b) Connecting to international networks and to local traditional industries</li> <li>Connect the local Ecosystem to international networks and ii. bridge the gap between local industry and technology-enabled startups, and local industry and students of Tertiary Education Institutions ("TEIs"), and iii. Support coordination in the Ecosystem, through:</li> <li>(i) Development of international acceleration program that connects the local ecosystem to leading international networks and ecosystems.</li> </ul>
	(ii) establishment and management of industry-startup linkages to

- bridge the gap between local industry and technology-enabled startups; and
- (iii) Establishment and management of an industry-academia platform to connect tertiary education institutions and their students to individual companies.

# Part 2: <u>SME Linkages and Upgrading</u>

Strengthen the productivity and internal capabilities for innovation of Small and Medium Enterprises ("SMEs") through

- a. Designing and administering diagnostic tools to assess SMEs' management and operations, and the options through which each can improve their managerial and technical skills, and their use and access to technology.
- b. Designing and managing a program for SMEs to implement action plans under Performance Contracts
- c. Designing a mechanism to enhance SMEs engagement with lead firms, including business development to ensure flow of lead firms and SMEs into the program referred to in paragraph (b) above;
- d. Incorporating lessons learned to adapt and strengthen the program design, including the diagnostic tools and action plans, as needed;
- e. Carrying out awareness raising and information dissemination activities on the program; and
- f. Collecting data at baseline and throughout implementation, to feed into the Project monitoring and evaluation system

# Part 3: Project management, coordination and reporting.

# Other important background information of the project

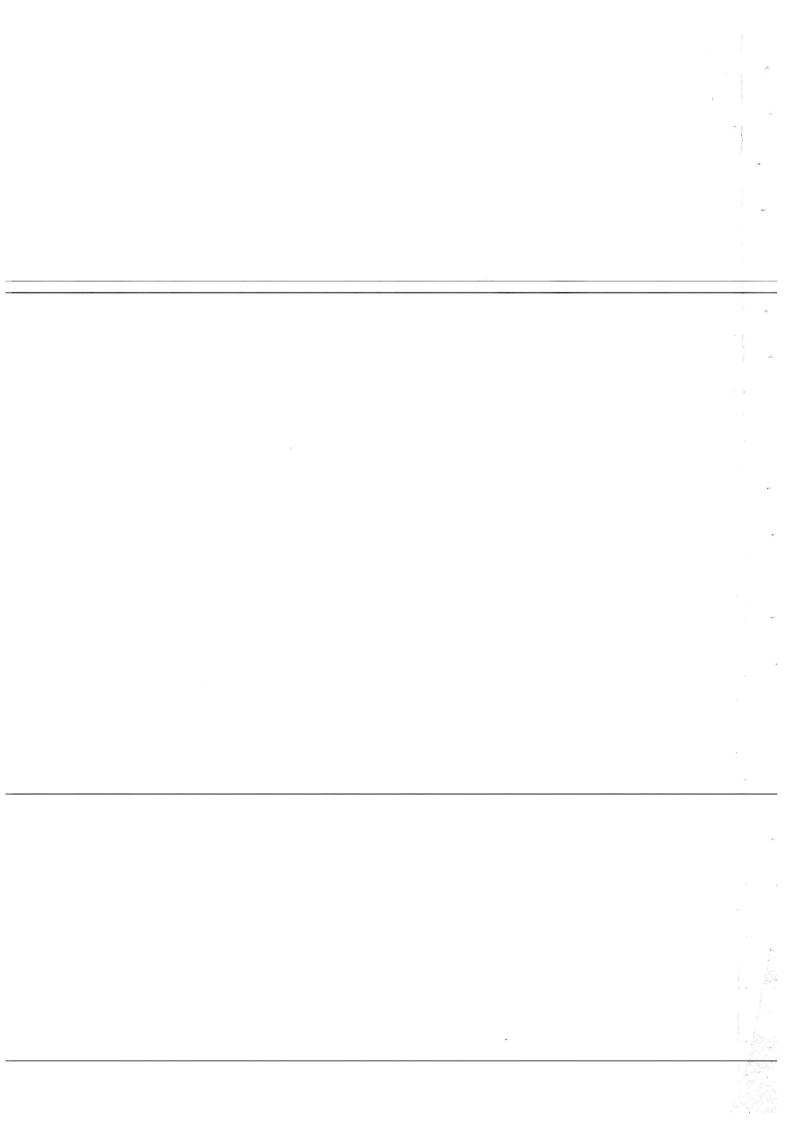

The project is funded International Development Association (IDA) World Bank. The Project total cost is US\$ 50 million (EURO 41,400,000) and is to be implemented over six years.

#### **Project Categories**

The overall Project has three components categories as per the Financing Agreement dated 3<sup>rd</sup> August 2019:

Category 1: Goods, non-consulting services, consultant's services, Training and Incremental Operating Costs

1. Component 1: Strengthening the innovation and entrepreneurship ecosystem

	<ol> <li>Strengthening the Ecosystem's support infrastructure</li> <li>Sub-component: Strengthening the Ecosystem's Support Infrastructure</li> <li>Sub-component: Industry-Startup Linkage Program</li> <li>Connecting to international networks and to local traditional industries</li> <li>Sub-component: International Acceleration Process</li> <li>Sub-component: Industry-Academia Platform</li> <li>Component 2: SME Linkages and Upgrading</li> <li>Component 3. Outreach, Monitoring and Evaluation, and Project Implementation Support</li> </ol>
Current situation that the project was formed to intervene	<ul> <li>i. Limited connections to networks of international mentors, angel investors, and venture capitalists (VCs) making it difficult for local startups to grow and compete internationally</li> <li>ii. Limited contact between traditional industry and technology-enabled startups in Kenya,</li> <li>iii. To create the next generation of globally competitive Information and Communications Technologies (ICT) leadership, technology-enabled businesses and technology talent pool that will transform Kenya.</li> <li>iv. SMEs also have difficulties in improving their productivity due to poor managerial practices and information failures around how to upgrade. Firm-level data in Kenya reveals most firms have low productivity due to a skills deficit both at the managerial and technical levels</li> <li>v. By strengthening the innovation and entrepreneurship ecosystem and increasing firm-level innovation and productivity, will deliver Kenya's Vision 2030, which recognizes the challenges of slow structural transformation and low productivity in sectors that employ the majority of Kenyans.</li> </ul>
Project duration	Six years. Project Effectiveness: 22 <sup>nd</sup> November 2018 and Project Closure: 31 <sup>st</sup> December 2024

# 1.4 Bankers

The following are the bankers for the current year:

- (i) Designated Account (Credit) Central Bank of Kenya Account Number- 1000395923
- (ii) Project Account (Credit) Central Bank of Kenya- Account Number- 1000397144

# 1.5 Auditors

The project is audited by the Auditor General, Office of the Auditor general. (P.O Box 30084 University Way, Nairobi.) Under the Article 229(4) of the Constitution of Kenya.

# 1.6 Roles and Responsibilities

The following are the officers who were responsible for the project

Names	Title designation	Key Qualification	Responsibilities

# 1.8 Summary of Overall Project Performance:

#### a) SME Upgrading

The Management Consultant firm (NIRAS OY) was on boarded, Inception report and 1st Cohort report approved. KIEP 250+ subcomponent launched, Longlisting and Shortlisting of the first Cohort of SMEs completed. Forty Four (44) SMEs were selected and approved for inclusion in KIEP 250+ cohort 1; Selection Committee (SC) Appointed; Business Advisors recruited and trained; Business Diagnostics methodology Finalized; Performance Improvement plan (PIP) templates designed; Due Diligence built into SmartME; Grievance Redress Mechanism designed; Grant disbursement workflow developed; KIEP 250+ website rebuilt; Strategic partners engagements conducted and Cohort two preparations ignited.

# b) International Acceleration Process.

The Management Consultant firm (GrowthAfrica) was on boarded, Inception report, Communication and Stakeholders Mobilization report, Startup Savanna launched, Quarter 1, 2 and 3 reports approved by CIT. The Startup Savanna team put in place systems and implementing activities geared at building a brand and momentum towards connecting Kenyan ecosystem to international experts, investment and support infrastructure, contributing to job creation, GDP growth, digital transformation and sustainability. Cohort 1 of the Startup Savannah has been launched where 89 Entrepreneurs have since been registered, 16 local and foreign Enterprise Support Organizations (ESOs) registered. 66 entrepreneurs have been linked to Ignite platform, an Indian based, 9-week virtual training program under Cohort 1 with an additional 52 registered for Cohort 2 that starts in July 2021. GrowthAfrica has partnered with Oracle to provide startups with free oracle products as well as trainings to enable beneficiaries digitize and use the accruing benefits.4 Registered beneficiaries have been linked to IMFact for potential working capital financing.

# c) Industry Academia

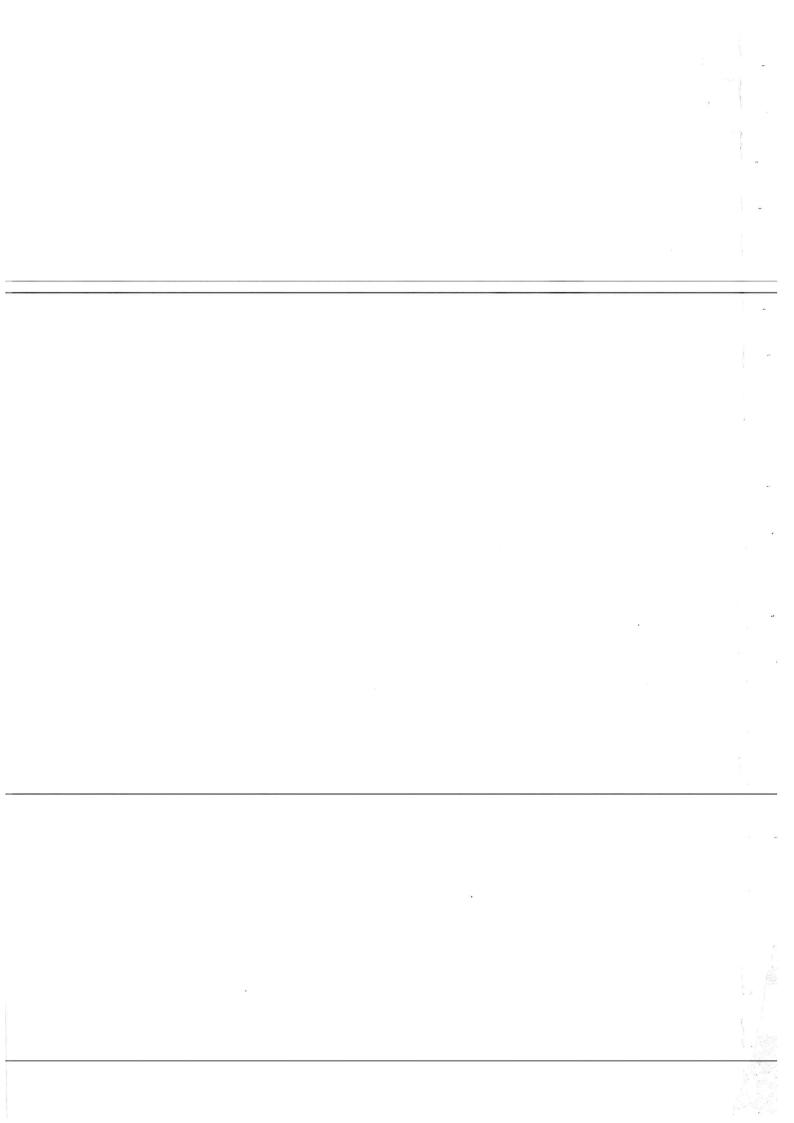

The Management Consultant firm (Maastricht School of Management) was on boarded, Inception report, IAP Stakeholders mapping report, IAP International benchmarking report, IAP Options Assessment report, Quarter 1 & 2 reports approved, IAP Strategic business plan (Road map) developed in consultation with key private sector actors and key partners; Agreements with key partners for 5 innovation challenges (including Demola) developed. Project launch preparation that includes launching the logo (iTATU) and website initiated.

d) Others: The Communication firm, Apex Porter Novelli and M&E firm The Management Consultant firm for Monitoring and Evaluation (Spantrack Ltd & Finnish Consulting Group), The Management Consultant firm for KIEP communication (Apex Porter Novelli), SME Manager, Innovation Ecosystem Manager and Environment Social Safeguards Specialist were on boarded during the period.

Five out of the seven management firms are on boarded, with a total contract value of US\$11.5 million (23 percent of the project), and the remaining two contracts, worth US\$8.7 million (17.5 percent of the project size), are due to be signed early next quarter. The 'Industry-Startup Linkage Program and the Administration of Intermediaries' are the two key contracts that have been delayed (Intermediaries). The following are the causes of the delays:

- The ISLP contract was delayed due to a protracted due diligence process that developed from a
  difference between the consultancy's brand name in the technical proposal and its legally registered
  name.
- Intermediaries contract faced delays due to lengthy negotiations which necessitated the PIU to
  proceed to the second bidder. The contract with the second bidder is now finalized and expected to
  be signed next before end of August 2021.

Constraints and challenges in budget implementation and how they will be addressed

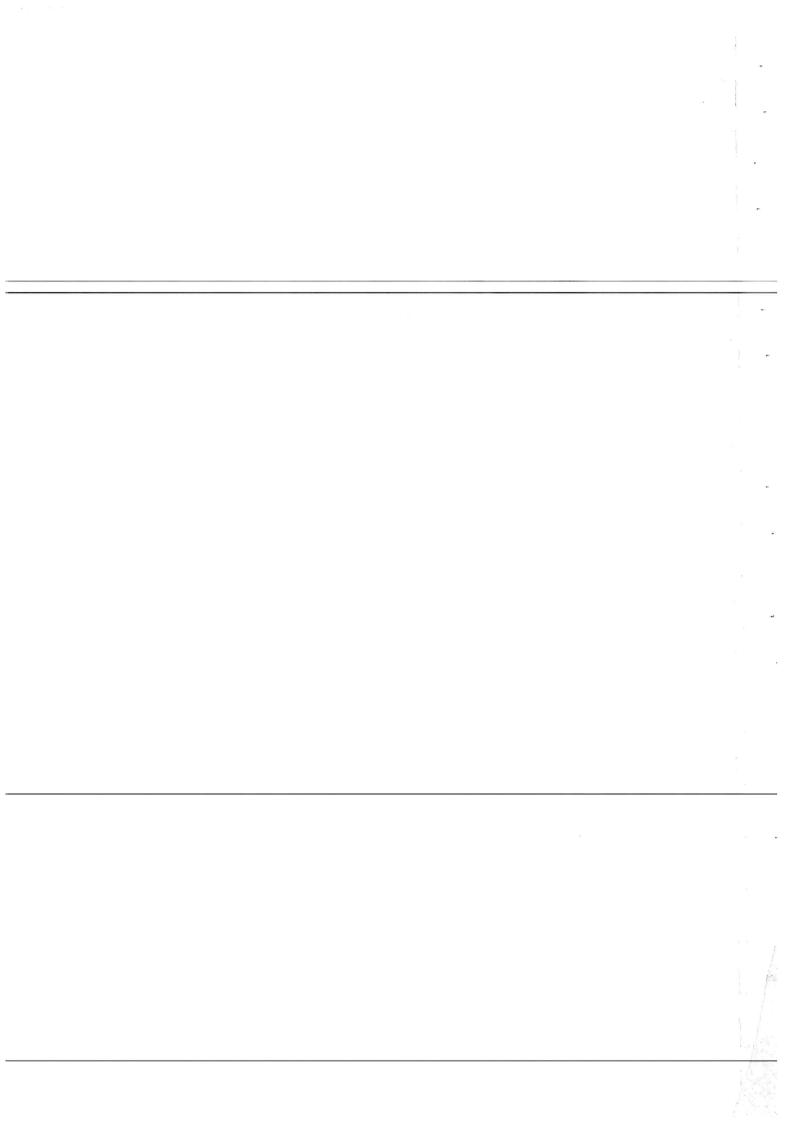

- (i) Project Design: The design envisaged implementation of the project through Management Consultants. The procurement of the consultants delayed having come on board in August 2021 hence the project is lagging behind on implementation. This has been mitigated by closely planning and monitoring deliverables with PIU.
- (ii) World Bank Procedures vis-à-vis GOK Procedures: Though generally the procedures are similar, the interpretation of the GOK requirements in some cases caused delay in procurement as we had to seek procurement opinion from the Public Procurement Regulatory Authority and the State Law office.
- (iii) Direct payments to beneficiaries: The design had envisaged that payments will be made by the Management consultants directly to the beneficiaries. The National Treasury opposed this arrangement, as the Government will still be accountable for the same. This has delayed payments to the beneficiaries.
- (iv) Covid-19 Pandemic: The 1<sup>st</sup> wave of Covid-19 started in Mach 2020 as this meant that some of the shortlisted firms could not come and negotiate the contracts. This has caused delays including the diagnosis process for the beneficiaries.
- (v) Mid-term review Process: The project implementation has slowed down awaiting the decision to undertake a comprehensive mid-term review. This has led to the postponement of launch for Cohort 2 under KIEP 250+, Industry-Academia Program and the Startup Savannah subcomponents.
- (vi) Demand driven Approach: The project design is based on a demand driven approach and with the slowness in momentum to attract the beneficiaries will affect the project upstream.
- (vii) Reduced allocation of Counterpart Funds: The project envisaged the Counterpart component of the project to support the national outreach of the project. This has been on the decline and last financial year, the National treasury provided authority to use the 2<sup>nd</sup> half allocation in the 1<sup>st</sup> half and later reduced the allocation during the supplementary budget leading to negative expenditures.
- (viii) Delays in disbursement: Though the MOUs have been signed for the 4 State Corporations and ASSEK, not all funds have been disbursed except to Kenya Industrial Estates.

# 1.9 Summary of Project Compliance:

So far, there have been no significant cases of non-compliance with applicable laws and regulations, and essential external financing agreements/covenants KIEP project. This can be attribute to

- Periodic Project Implementation Unit (PIU) and Contract Implementation Team weekly meetings
- Frequent adhoc weekly meeting by PIU and the World Bank to address challenges before they are out of proportion.
- Close work plan and budget monitoring from start of the project.
- Regular obtaining 'No Objection' from World Bank team for designated activities.

# 2. STATEMENT OF PERFORMANCE AGAINST PROJECT'S PRE-DETERMINED OBJECTIVES

#### Introduction

Section 81 (2) (f) of the Public Finance Management Act, 2012 requires that, at the end of each financial year, the Accounting officer when preparing financial statements of each National Government entity in accordance with the standards and formats prescribed by the Public Sector Accounting Standards Board includes a statement of the national government entity's performance against predetermined objectives.

The Project Development Objective (PDO) is "to increase innovation and productivity in select private sector firms."

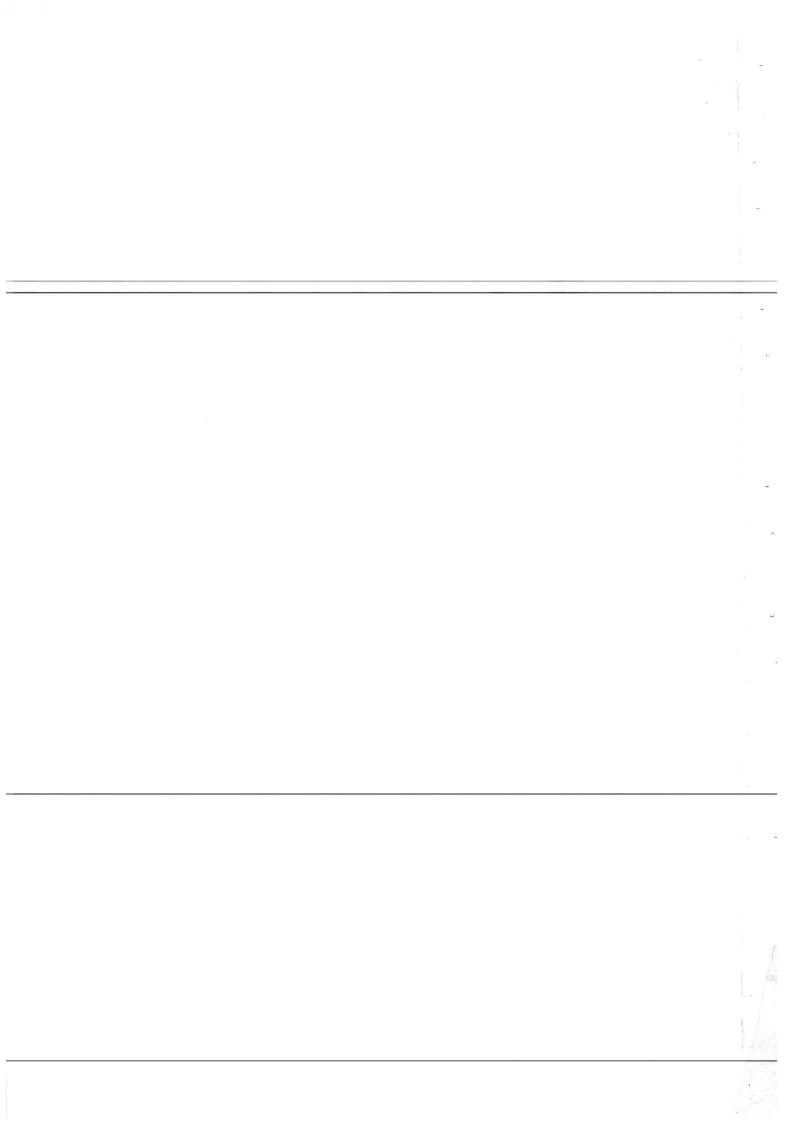

The key development objectives of the project's 2018-2022 plans are to:

- a) To strengthening the innovation and entrepreneurship ecosystem (Component 1)
- b) To Strengthen the ecosystem's support infrastructure Subcomponent 1a
- c) To Connect to international networks and local traditional industries -Subcomponent 1b
- d) To strengthen the productivity and internal capabilities for innovation of select SMEs (Component
   2)
- e) To provide resources for: (a) communication to facilitate diffusion and replication of promising innovations, (b) monitoring and evaluation (M&E) analyses to ensure the implementation and sustainability of the Project's activities, and (c) Project implementation support. (Component 3)

# Progress on attainment of Strategic development objectives

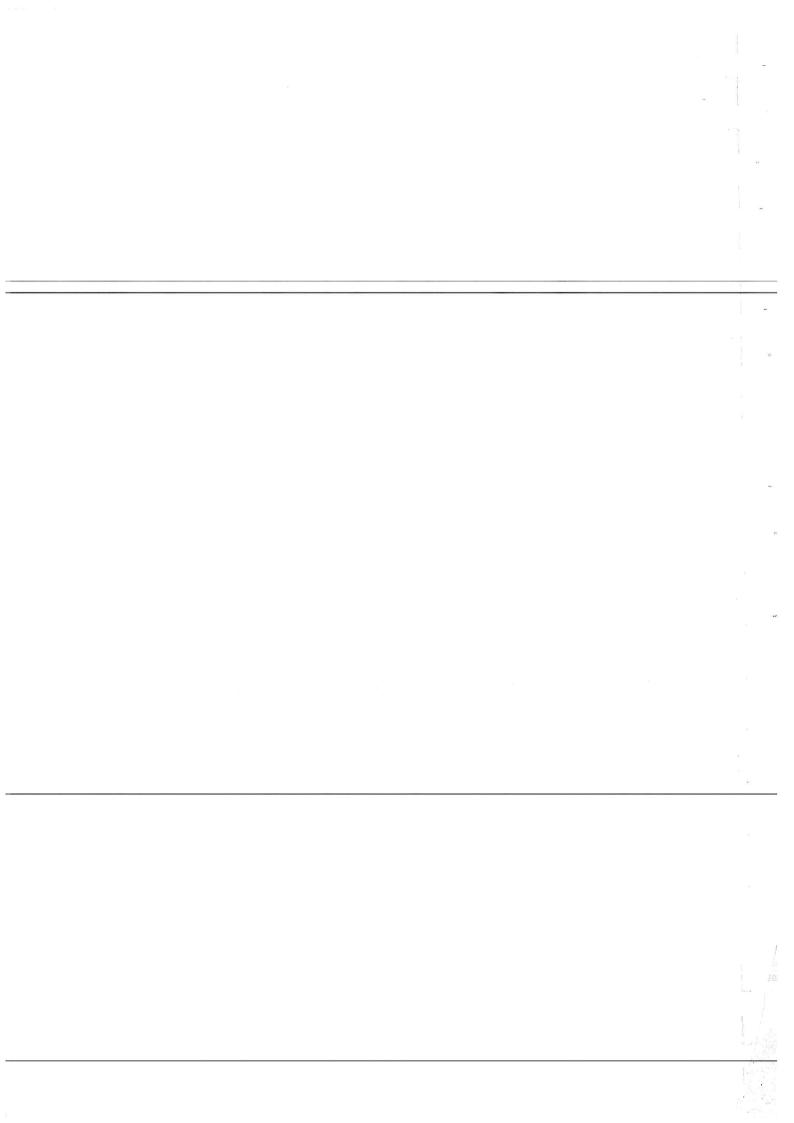

For purposes of implementing and cascading the above development objectives to specific sectors, all the development objectives were made specific, measurable, achievable, realistic and time-bund (SMART) and converted into development outcomes. Attendant indicators were identified for reasons of tracking progress and performance measurement: Below we provide the progress on attaining the stated objectives:

Project	Objective	Outcome	Indicator	Measure	End	Performance
					targe

# 3. CORPORATE SOCIAL RESPONSIBILITY STATEMENT/SUSTAINABILITY REPORTING

KIEP exists to transform lives by changing the business mind-set, and entrepreneurial culture through strengthening the innovation and entrepreneurship ecosystem, linking industry with academia, linking startups with industry, opening access to local and international partnerships through International acceleration process, upgrading SMEs, increasing innovation and productivity of select private firms. This is our purpose; the driving force behind everything we do. The compass that guides us to deliver our strategy.

Below is a brief highlight of our activities that drive towards sustainability.

# 1. Sustainability strategy and profile

In summary the implementation of KIEP project is aligned with the Kenya vision 2030, Medium Term Plan (MTP III, 2018-2022), National Industrialization Policy (2012-2030), Kenya Industrialization and Transformation Policy 2015, Medium & Small Enterprises (MSE) Act 2020 and big four Agenda. KIEP addresses challenges of low innovation and technology transfer by the SMEs, Weak linkages Academia/industry and Firm level support.

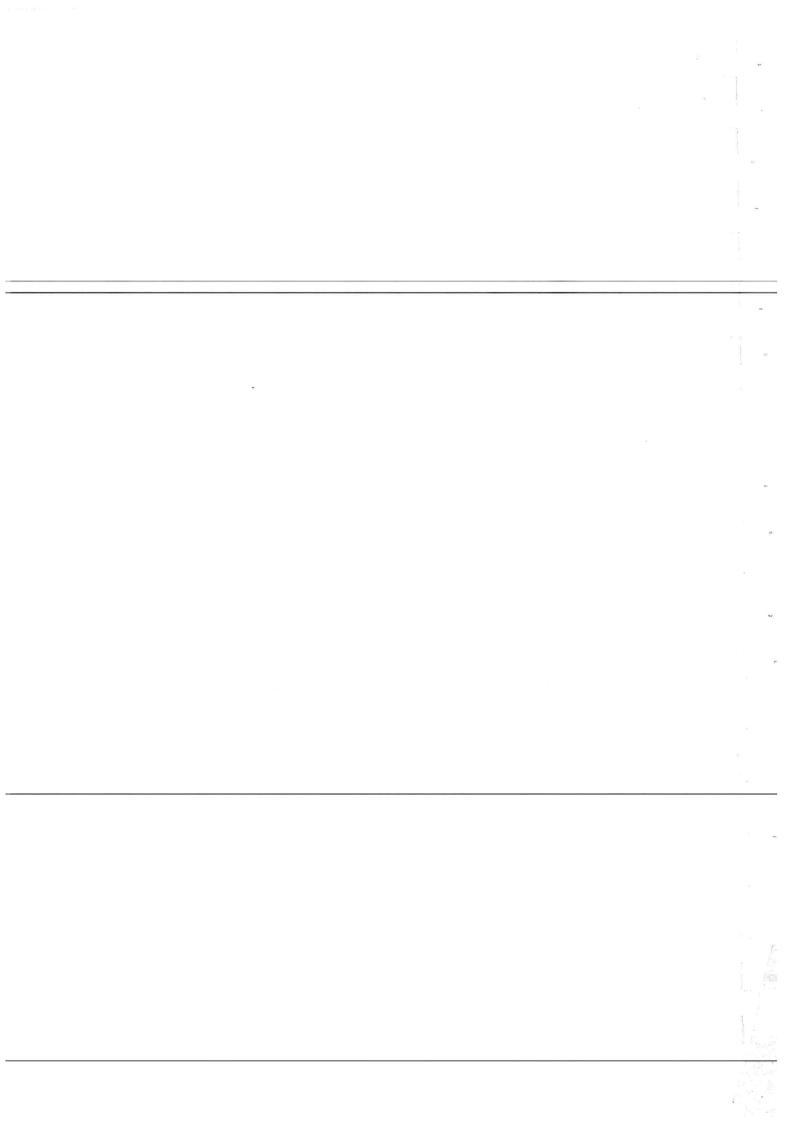

Some of KIEP sustainability measures include;

Delivery & Contracting Mechanisms-The Project Steering Committee (PSC) comprises of (KEPSA, KAM, ASSEK, MOITED, TNT, MOE, KNCCI) among others. The involvement of business associations in design and implementation as appellate Project Steering Committee to offer top-notch intervention advisory and ensure documented programs lessons learnt are replicated and cascaded beyond project shelf life.

Participation Incubators, Accelerators, Boot camps, Universities, SMEs - The innovation ecosystem players were involvement in design and implementation of the project. These players are direct beneficiaries with establishments that are going concerns. The Stakeholders prudently agreed upon the beneficiary's selection criteria based on market competitiveness.

KIEP Management & Organization- KIEP project implementation unit composed of Ministry staff as project Implementation unit (PIU) who ensures quality delivery and replicability of lessons learnt in their day-to-day running of the directorates. The PIU will also receive targeted training including Country Industry Development Officers (CIDO).

Creation of database for local business advisors/ boot-camp providers to train and mentor SMEs/ startups- The registration of business advisors will create a vetted database for any planning, selection and identification of business providers and provide a databank for future use.

Financial, economic & Social The project will benefit SMEs, Students, Research Institutions, Innovators through Financial Disbursements, Training and mentoring, Products developed and commercialized, Partnerships and linkages and Joint ventures.

**SME Technology Upgrading**—The project will support the SMEs to acquire /install appropriate production technologies; Support incubators (KEBS, KIE, KIRDI) acquire modern equipment for training & common manufacturing facilities; Provide support to boot-camp for training on highly intensive technical skills to startups;

**Social, Gender and Culture-** KIEP Target 30% of project beneficiaries to be women owned & led startups/SMEs. Inclusion of women owned & led startups/SMEs in implementation and benefitting from the project is one of the key approaches of the project. Project beneficiaries will not perpetuate exploitation of the vulnerable and poor women and young girls

Political & Economic Factors- KIEP project objective are anchored in the Government development policies, plans & manifestos.

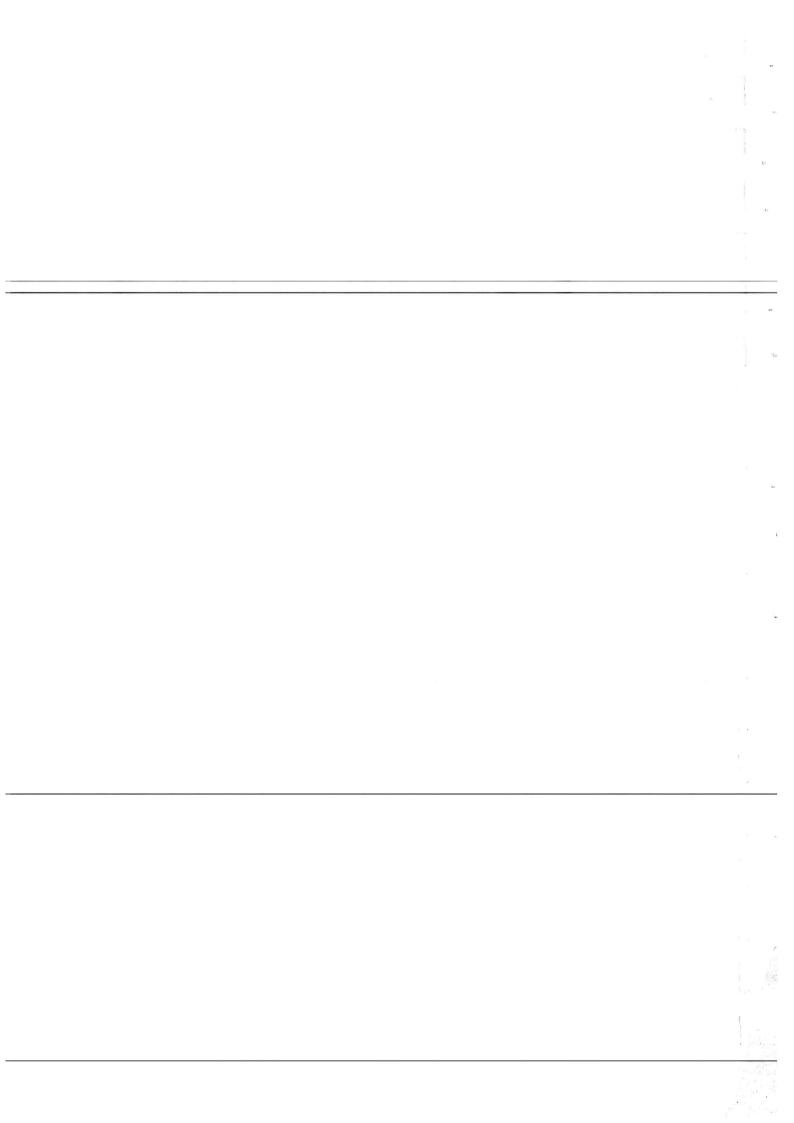

# 2. Environmental performance

KIEP developed the Environmental Social Safeguard plan that provides guidance to project beneficiaries in the selection, preparation and implementation of activities in order to avoid or minimize environmental and social risks and negative impacts and enhance the environmental and social benefits and performance under the project.

The Project Implementation Team reviewed and appraised contract templates of potential beneficiary firms and ecosystem intermediaries and guided in environment and social safeguard requirements. Clauses on environment and social safeguard requirements were captured in the MOUs of KIRDI, KIPI, KIE, KEBS and ASSEK. PIU and selected beneficiaries were trained on Environmental Social Safeguards skills. This included ensuring beneficiaries firm use the Environmental and Social Screening Form (ESSF), develop requisite supplementary environmental safeguard instruments; Environment and Social Impact Assessment (ESIA), Environment and Social Management Plan (ESMP) and Grievance Redress Mechanism (GRM) for participating institutions / organisations/ beneficiaries which included: KIRDI, KIPI, KIE, KEBS, ASSEK, Growth Africa, MSM and NIRAS.

All Grievance Redress Mechanism (GRM) for KIEP and sub components is online, 24/7 and a respective GRM team have been appointed to oversee seamless GRM implementation.

All ESMPs were prepared, guided by requirements and applicable national laws, legislations and regulations, the World Bank environment and social safeguard policies, WBG EHS

guidelines and GBV Directives and, Prevention of Sexual Exploitation and Abuse (PSEA) including Child Labour and Employment act.

# 3. Employee Welfare

The hiring of the consultant firms and Individual consultant followed the Kenya Public Procurement and Asset Disposal Act, 2015 and the World Bank's Procurement Framework, which promotes tailored procurement approaches that emphasize choice, quality, and value for public spending. The frameworks determine the best value for money to ensure quality outcomes and sustainability by focusing on market research, needs analysis, and project-specific risks, including environmental and social issues.

# Market place practices-

KIEP ensures that fair and competitive marketplace practices are upheld all the time using the below efforts:

# a) Responsible competition practice.

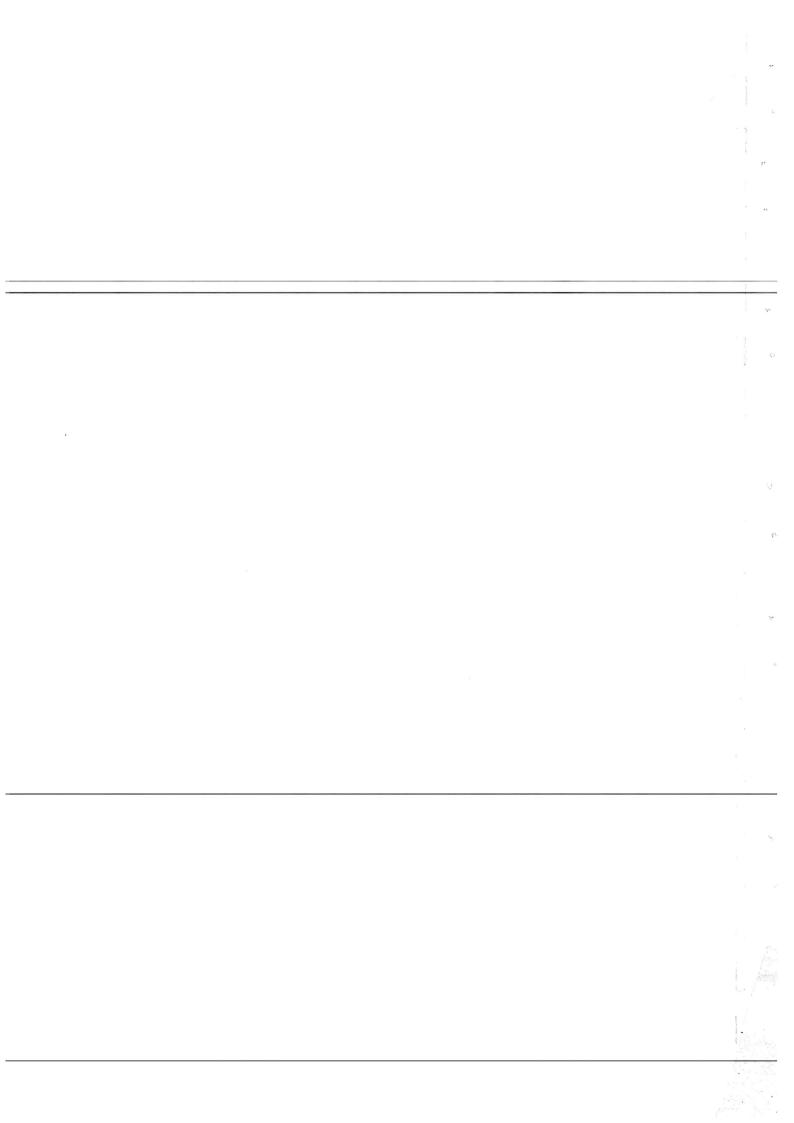

All the KIEP procurement activities were advertised in local dailies and United Nations Development Business (UNDB) website for global procurement market that facilitate successful bidding on international development projects and ensured fair competition and respect for competitors that includes ethical marketing practices.

## b) Responsible Supply chain and supplier relations-

The project has signed five contracts with management consultant firms. The contracts are binding for the project period. So far, all milestones planned for the year were achieved; Contract Implementation team reviewed and approved the respective milestone and completion certificates prepared. The ministry is working on timely payments to consultant firms

#### 4. Community Engagements

Stakeholders mapping for all subcomponents was conducted which informed on KIEP programming and targeting. So far more than 101 mobilization and information sessions were conducted to create project awareness, desire, knowledge, ability and inform the public on the sub component specific selection criteria for selection, selection process journey especially for SMEs that will receive Technical Assistance to improve their business productivity and innovation.

## 4. STATEMENT OF PROJECT MANAGEMENT RESPONSIBILITIES

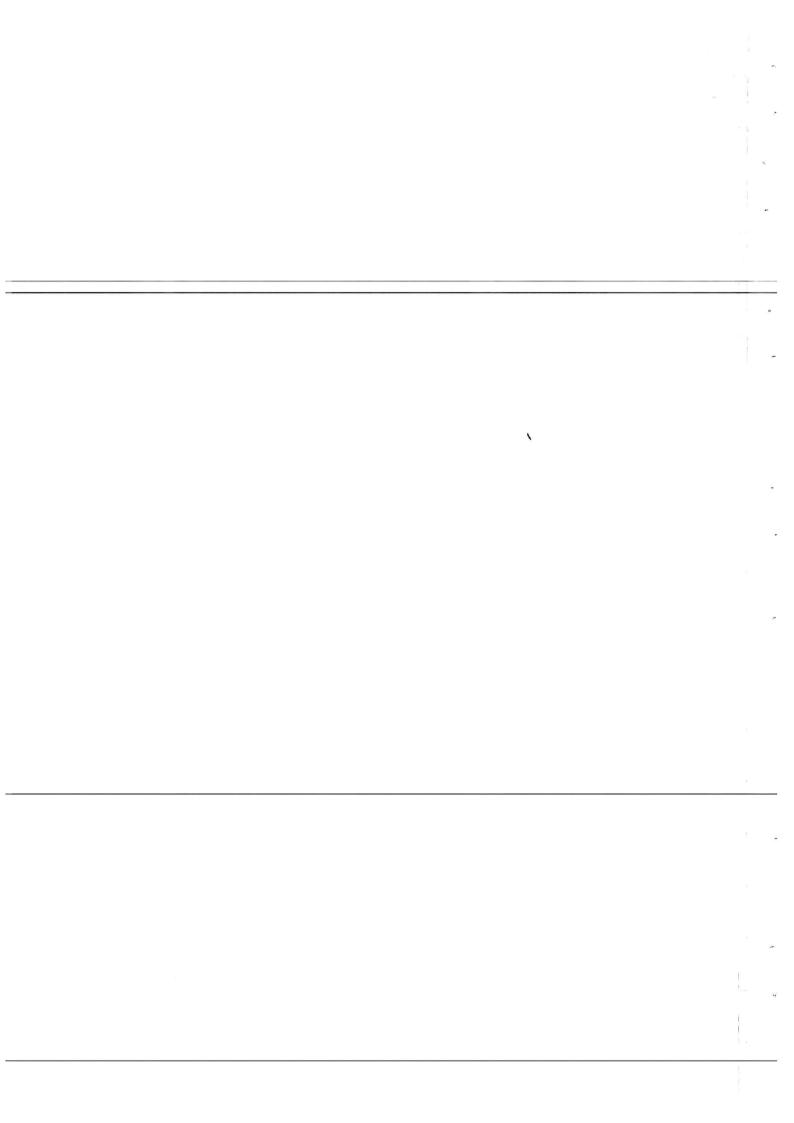

The *Principal Secretary* for Industrialization, Ministry of Industrialization, Trade and Enterprise Development and the *Project Coordinator* for *Kenya Industry and Entrepreneurship Project (KIEP)* are responsible for the preparation and presentation of the Project's financial statements, which give a true and fair view of the state of affairs of the Project for and as at the end of the financial year (period) ended on June 30, 2021.

This responsibility includes (i) Maintaining adequate financial management arrangement and ensuring that these continue to be effective throughout the reporting period; (ii)Maintaining proper accounting records, which disclose with reasonable accuracy at any time the financial position of the project; (iii)Designing, implementing and maintaining internal controls relevant to the preparation and fair presentation of the financial statement, and ensuring that they are free from material misstatements, whether due to error or fraud;(iv) safeguarding the assets of the project; (v)Selecting and applying appropriate accounting policies; and (v)Making accounting estimates that are reasonable in the circumstances.

The *Principal Secretary*, State department for Industrialization and the *Project Coordinator* for *Kenya Industry and Entrepreneurship Project (KIEP* accept responsibility for the Project's financial statements, which have been prepared on the Cash Basis Method of Financial Reporting, using appropriate accounting policies in accordance with International Public Sector Accounting Standards.

The Principal Secretary, State Department for Industrialization and the Project Coordinator for Kenya Industry and Entrepreneurship Project (KIEP), are of the opinion that the Project's financial statements give a true and fair view of the state of Project's transactions during the financial year/period ended June 30, 2021, and of the Project's financial position as at that date. The Principal Secretary, State Department for Industrialization and the Project Coordinator for Kenya Industry and Entrepreneurship Project (KIEP), further confirm the completeness of the accounting records maintained for the Project, which have been relied upon in the preparation of the Project financial statements as well as the adequacy of the systems of internal financial control.

The *Principal Secretary* for Industrialization and the *Project Coordinator* for *Kenya Industry* and *Entrepreneurship Project (KIEP)*, confirm that the Project has complied fully with applicable Government Regulations and the terms of external financing covenants, and that Project funds received during the financial year/period under audit were used for the eligible purposes for which they were intended and were properly accounted for.

NAIROBI

REPORT OF THE AUDITOR-GENERAL ON KENYA INDUSTRY AND ENTREPRENUERSHIP PROJECT (CREDIT NO. IDA 6268-KE) FOR THE YEAR ENDED 30 JUNE, 2021 – STATE DEPARTMENT FOR INDUSTRIALIZATION

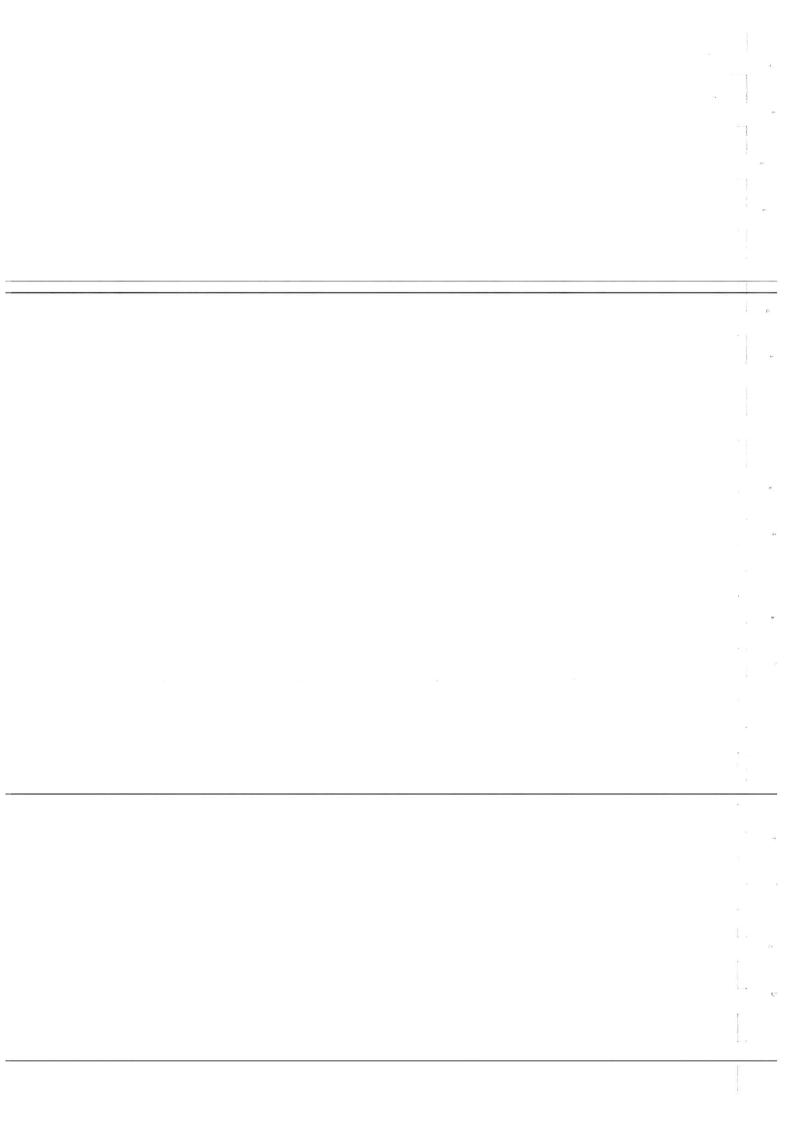

#### **PREAMBLE**

I draw your attention to the contents of my report which is in three parts:

- A. Report on the Financial Statements which considers whether the financial statements are fairly presented in accordance with the applicable financial reporting framework, accounting standards and the relevant laws and regulations which have a direct effect on the financial statements.
- B. Report on Lawfulness and Effectiveness in Use of Public Resources which considers compliance with applicable laws, regulations, policies, gazette notices, circulars, guidelines and manuals and whether public resources are applied in a prudent, efficient, economic, transparent and accountable manner, to ensure government achieves value for money and that such funds are applied for intended purpose.
- C. Report on Effectiveness of Internal Controls, Risk Management and Governance which considers how the entity has instituted checks and balances to guide internal operations. This responds to the effectiveness of the governance structure, the risk management environment, and the internal controls developed and implemented by those charged with governance for orderly, efficient and effective operations of the entity.

An unmodified opinion does not necessarily mean that an entity has complied with all relevant laws and regulations, and that its internal control, risk management and governance systems are properly designed and were working effectively in the financial year under review.

The three parts of the report are aimed at addressing the statutory roles and responsibilities of the Auditor-General as provided by Article 229 of the Constitution, the Public Finance Management Act, 2012 and the Public Audit Act, 2015. The three parts of the report, when read together constitute the report of the Auditor-General.

#### REPORT ON THE FINANCIAL STATEMENTS

# **Opinion**

I have audited the accompanying financial statements of Kenya Industry and Entrepreneurship Project (Credit No. IDA 6268-KE) set out on pages 1 to 22, which comprise the statement of financial assets as at 30 June, 2021, and statement of receipts and payments, statement of cash flows and statement of comparative budget and actual amounts for the year then ended, and a summary of significant accounting policies and other explanatory information in accordance with the provisions of Article 229 of the Constitution of Kenya, 2010 and Section 35 of the Public Audit Act, 2015. I have obtained all the information and explanations which, to the best of my knowledge and belief, were necessary for the purpose of the audit.

In my opinion, the financial statements present fairly, in all material respects, the financial position of Kenya Industry and Entrepreneurship Project as at 30 June, 2021, and of its financial performance and its cash flows for the year then ended, in accordance with International Public Sector Accounting Standards (Cash Basis) and complies with the Public Finance Management Act, 2012 and the Financing Agreement Credit No.6268-KE between the International Development Association (IDA) and the Republic of Kenya dated 3 August, 2018.

In addition, the special account statement presents fairly the special account transactions and the closing balance has been reconciled with the books of account.

# **Basis for Opinion**

The audit was conducted in accordance with International Standards of Supreme Audit Institutions (ISSAIs). I am independent of the Kenya Industry and Entrepreneurship Project in accordance with ISSAI 130 on Code of Ethics. I have fulfilled other ethical responsibilities in accordance with the ISSAI and in accordance with other ethical requirements applicable to performing audits of financial statements in Kenya. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

# **Key Audit Matters**

Key audit matters are those matters which, in my professional judgment, are of most significance in the audit of the financial statements. There are no other key audit matters to report in the year under review.

## **Other Matter**

# **Budgetary Control and Performance**

The statement of comparative budget and actual amounts reflects actual receipts of Kshs.122,157,715 against budgeted receipts of Kshs.514,436,061, resulting in a shortfall of Kshs.392,278,346 or 76% of total budget. The shortfall arose under the IDA Loan

where actual receipts amounted to Kshs.102,500,265 against the budgeted receipts of Kshs.498,267,183, resulting in a shortfall of Kshs.395,766,918 or 79% of the total budgeted receipts. In addition, actual receipts under transfer from government entities were Kshs.19,657,450 against budgeted receipts of Kshs.16,168,878, resulting to excess receipts of Kshs.3,488,572 or 18% of the total budgeted receipts. These excess receipts, combined with the shortfall under the IDA Loan resulted to the combined shortfall in receipts of Kshs.392,278,351 or 76% of total budget.

Further, the statement of comparative budget and actual amounts reflects budgeted payments of Kshs.514,436,061 against actual payments of Kshs.158,310,681, resulting to under expenditure of Kshs.356,125,380 or 69% of total budget.

The Management has attributed the under expenditure to slow procurement of consultants due to COVID-19 challenges, which resulted in delayed signing of contracts for the consultants and approval of inception reports.

In view of the above, the Project Management have not have implemented all the planned and approved programmes, resulting to delayed provision of services to the citizens.

#### Other Information

The Management is responsible for the other information, which comprises Project information and overall performance, statement of performance against Project's predetermined objectives, corporate social responsibility statement/sustainability reporting and statement of project management responsibilities. The other information does not include the financial statements and my auditor's report thereon.

My opinion on the project financial statements does not cover the other information and I do not express any form of assurance or conclusion thereon.

REPORT ON LAWFULNESS AND EFFECTIVENESS IN USE OF PUBLIC RESOURCES

#### Conclusion

As required by Article 229(6) of the Constitution, based on the audit procedures performed, except for the matters described in the Basis for Conclusion on Lawfulness and Effectiveness in Use of Public Resources section of my report, I confirm that, nothing else has come to my attention to cause me to believe that public resources have not been applied lawfully and in an effective way.

#### **Basis for Conclusion**

# 1. Unsupported Payments - Hire of Conference Facilities

The statement of receipts and payments for the year ended 30 June, 2021 reflects Kshs.108, 960,681, in respect to purchase of goods and services as disclosed in Note 4 to the financial statements, which includes Kshs.2,584,410 for hospitality supplies and

services which includes an amount of Kshs.2,292,500 and which was paid to various suppliers on account of hire of conference facility. However, the expenditure was not supported with relevant documents including evidence of letters of appointment of opening and evaluation committee members, their reports and the professional opinion of the head of procurement function and the Local Service Orders (LSOs). This is contrary to the requirements of Regulation 91(2) of Public Procurement and Asset Disposal Regulations, 2020 which states that "The accounting officer or such other person delegated in writing by that accounting officer shall, and for the purposes of the procurement process, appoint (a) an ad hoc opening committee in accordance with Section 78 of the Act; and (b) the ad hoc evaluation committee in accordance with Section 46 of the Act and regulation 39 of these Regulations. (3) The ad hoc evaluation committee shall carry out the evaluation in accordance with the Act and these Regulations. Further Subsection (4) requires that before any decision to award a procurement under a request for quotation is made, the head of procurement function shall by way of professional opinion make a recommendation based on a market survey.

Consequently, the Management was in breach of the Law.

### 2. Irregular Allowances on Office Partitioning

Statements of receipts and payments for the year ended 30 June, 2021 reflects Kshs.108,960,681, in respect to purchase of goods and services as disclosed in Note 4 to the financial statements, which includes Kshs.1,005,000 under other operating payments, which amount of Kshs.960,000 was paid as allowances to officers who were involved in partitioning of Project offices. However, review of the expenditure revealed that although a contractor was engaged for the work, the Management made payments for meal allowance to staff for partitioning of the Project offices.

This is contrary to Section C.17(3) of H.R Policies & Procedures Manual for Public Service 2016 which states that, Meal allowance shall not be paid as a compensation for officers who are required to work beyond the official working hours.

In the circumstances, the propriety of the allowances of Kshs.960,000 for partitioning of offices as at 30 June, 2021 could not be confirmed the Management is in breach of the law.

### 3.0 Irregular Award of Contract for Works and Consultancy Services

# 3.1 Consultancy Services for Administration and Management of Industry Academia Platform

The statement of receipts and payments for the year ended 30 June, 2021 reflects Kshs.108,960,681 in respect of purchase of Goods and Services, as disclosed in Note 4 to the financial statements. This includes Kshs.79,148,797 for consultancy services out of which Kshs.8,429,679 was spent on consultancy for Administration and Management of an Industry Academia Platform. However, review of the procurement of the consultancy services revealed that the firm which worn the tender was in partnership with another firm which submitted a proposal for expression of interest for the same contract. This is

contrary to the requirements of the Bank under Section 3.20 of World Bank Procurement Regulations, 2018 which prohibit consultants from submitting multiple proposals on any one consultancy.

Consequently, the Project Management is in breach of the Bank Procurement Regulation.

### 3.2 Consultancy Services for International Acceleration Process

The statement of receipts and payments for the year ended 30 June, 2021 reflects Kshs.108,960,681 in respect to purchase of Goods and Services, as disclosed in Note 4 to the financial statements, which includes Kshs.79,148,797 for consultancy services out of which Kshs.26,687,554 was spent on consultancy for International Acceleration Process services.

However, review of the procurement documents for the above contract revealed existence of two (2) evaluation reports on the expression of interest for the above consultancy services. According to the first report dated 25 January, 2019 the above successful tender was not responsive based on the fact that, the firm did not demonstrate adequate experience in carrying out similar assignments and a strong understanding of the operating and business environment in Kenya. Further, the firm did not demonstrate ability to work collaboratively with government counterparts. The firm also lacked sufficient existing network and experience in working with start-ups and entrepreneurs who had been engaged in the then previous five years.

According to the second report dated 11 July, 2019, the winning firm and another firm which were unresponsive according to the first evaluation report, were reported to be responsive. Further, two firms which were evaluated as responsive as per the first report, were reported to be unresponsive as per the second evaluation report.

It was not clear the circumstances under which the evaluation results in the two reports changed such that the winning firm was declared the successful bid, considering that there were no changes in the evaluation criteria or the composition of the evaluation committee.

Under the circumstances, it was not possible to confirm that the above consultancy services were procured in compliance with proper procurement procedures.

### 3.3 Contract for Routine Maintenance - Office Partition

The statement of receipts and payments for the year ended 30 June, 2021 reflects Kshs.108,960,681 in respect to purchase of Goods and Services, as disclosed in Note 4 to the financial statements. Included in this figure is Kshs.2,529,084 which was paid for Routine Maintenance - Office partition.

However, review of related procurement documents revealed that the tender was closed on 27 March, 2020 and the evaluation was completed on 26 May, 2020, which was beyond the prescribed evaluation period of 30 days.

Further, the notification of award of tender was issued on 16 June, 2020, after the tender validity period of 60 days had lapsed on 27 May, 2020. There was no approval for extension of the tender validity period.

In view of the above anomalies, it was not possible to confirm that the above partitioning works were procured in compliance with proper procurement procedures.

The audit was conducted in accordance with ISSAI 4000. The standard requires that I comply with ethical requirements and plan and perform the audit to obtain assurance about whether the activities, financial transactions and information reflected in the financial statements are in compliance, in all material respects, with the authorities which govern them. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

REPORT ON EFFECTIVENESS OF INTERNAL CONTROLS, RISK MANAGEMENT AND GOVERNANCE

### Conclusion

As required by Section 7(1)(a) of the Public Audit Act, 2015, based on the audit procedures performed, I confirm that, nothing has come to my attention to cause me to believe that internal controls, risk management and governance were not effective.

### **Basis for Conclusion**

The audit was conducted in accordance with ISSAI 2315 and ISSAI 2330. The standards require that I plan and perform the audit to obtain assurance about whether effective processes and systems of internal control, risk management and overall governance were operating effectively, in all material respects. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

### Responsibilities of Management and those Charged with Governance

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Public Sector Accounting Standards (Cash Basis) and for maintaining effective internal control as Management determines is necessary to enable the preparation of financial statements which are free from material misstatement, whether due to fraud or error and for its assessment of the effectiveness of internal control, risk management and overall governance.

In preparing the financial statements, Management is responsible for assessing the Project's ability to continue sustaining its services, disclosing, as applicable, matters related to sustainability of services and using the applicable basis of accounting unless Management is aware of the intention to terminate the Project or cease operations.

Management is also responsible for the submission of the financial statements to the Auditor-General in accordance with the provisions of Section 47 of the Public Audit Act, 2015.

In addition to the responsibility for the preparation and presentation of the financial statements described above, Management is also responsible for ensuring that the activities, financial transactions and information reflected in the financial statements are in compliance with the authorities which govern them, and that public resources are applied in an effective way.

Those charged with governance are responsible for overseeing the Project financial reporting process, reviewing the effectiveness of how the Project monitors compliance with relevant legislative and regulatory requirements, ensuring that effective processes and systems are in place to address key roles and responsibilities in relation to governance and risk management, and ensuring the adequacy and effectiveness of the control environment.

### Auditor-General's Responsibilities for the Audit

The audit objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report which includes my opinion in accordance with the provisions of Section 48 of the Public Audit Act, 2015 and submit the audit report in compliance with Article 229(7) of the Constitution. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISSAls will always detect a material misstatement and weakness when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

In addition to the audit of the financial statements, a compliance audit is planned and performed to express a conclusion about whether, in all material respects, the activities, financial transactions and information reflected in the financial statements are in compliance with the authorities which govern them in accordance with the provisions of Article 229(6) of the Constitution and submit the audit report in compliance with Article 229(7) of the Constitution.

Further, in planning and performing the audit of the financial statements and audit of compliance, I consider internal control in order to give an assurance on the effectiveness of internal controls, risk management and governance processes and systems in accordance with the provisions of Section 7(1)(a) of the Public Audit Act, 2015 and submit the audit report in compliance with Article 229(7) of the Constitution. My consideration of the internal control would not necessarily disclose all matters in the internal control which might be material weaknesses under the ISSAIs. A material weakness is a condition in which, the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatement caused by error or fraud in amounts that would be material in relation to the financial statements being audited, may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Because of its inherent limitations, internal control may not prevent or detect misstatements and instances of non-compliance. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with policies and procedures may deteriorate.

As part of an audit conducted in accordance with ISSAIs, I exercise professional judgement and maintain professional skepticism throughout the audit. I also;

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions which may cast significant doubt on the Project's ability to sustain its services. If I conclude that a material uncertainty exists, I am required to draw attention in the auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my audit report. However, future events or conditions may cause the Project to cease sustaining its services.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner which achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information and business activities of the Project to express an opinion on the financial statements.
- Perform such other procedures as I consider necessary in the circumstances.

I communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control which are identified during the audit.

I also provide Management with a statement that I have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters which may reasonably be thought to bear on my independence, and where applicable, related safeguards.

CPA Nancy Gathengu, CBS AUDITOR-GENERAL

Nairobi

### 10. SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of these financial statements are set out below:

### 10.1 Basis of Preparation

### 10.2 Statement of compliance and basis of preparation

The financial statements have been prepared in accordance with Cash-basis IPSAS financial reporting under the cash basis of accounting, as prescribed by the PSASB and set out in the accounting policy note below. This cash basis of accounting has been supplemented with accounting for; a) receivables that include imprests and salary advances and b) payables that include deposits and retentions. The financial statements comply with and conform to the form of presentation prescribed by the PSASB.

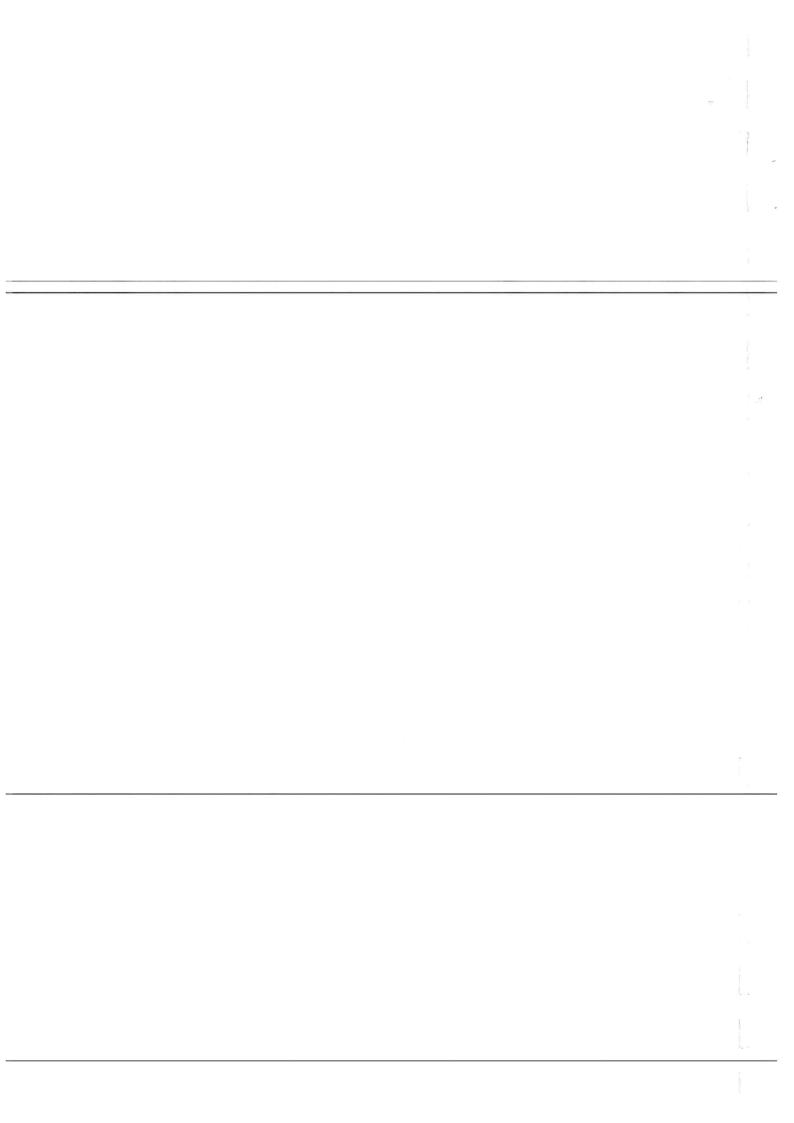

The accounting policies adopted have been consistently applied to all the years presented.

### 10.3 Reporting entity

The financial statements are for the KIEP Project under National Government of Kenya. The financial statements encompass the reporting entity as specified in the relevant legislation PFM Act 2012.

### 10.3.1 Reporting currency

The financial statements are presented in Kenya Shillings (KShs), which is the functional and reporting currency of the Project and all values are rounded to the nearest Kenya Shilling.

### 10.4 Significant Accounting Policies

### a) Recognition of receipts

The Project recognises all receipts from the various sources when the event occurs, and the Government has actually received the related cash.

### i) Transfers from the Exchequer

Transfer from Exchequer is be recognized in the books of accounts when cash is received. Cash is considered as received when payment instruction is issued to the bank and notified to the receiving entity.

### ii) External Assistance

External assistance is received through grants and loans from multilateral and bilateral development partners.

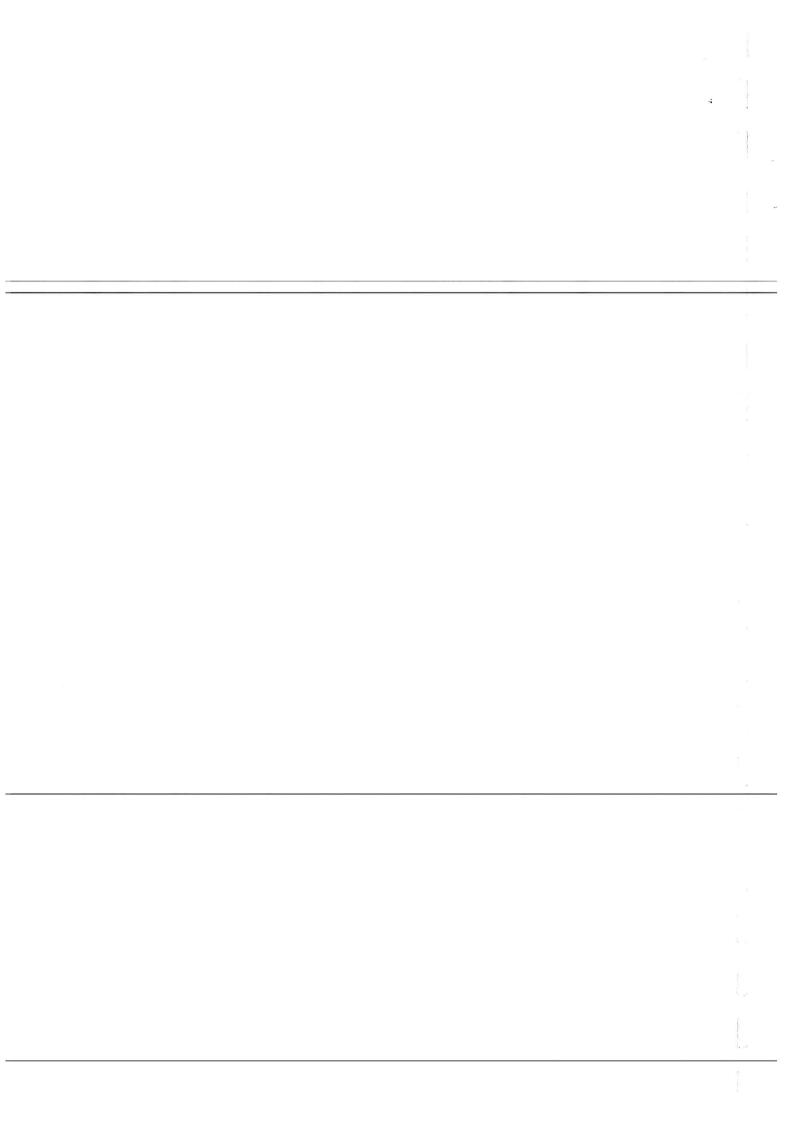

### iii) Other receipts

These include Appropriation-in-Aid and relates to receipts such as proceeds from disposal of assets and sale of tender documents. These are recognized in the financial statements the time associated cash is received.

### b) Donations and grants

Grants and donations shall be recognized in the books of accounts when cash is received. Cash is considered as received when a payment advice is received by the recipient entity or by the beneficiary. In case of grant/donation in kind, such grants are recorded upon receipt of the grant item and upon determination of the value. The date of the transaction is the value date indicated on the payment advice.

6

### Significant Accounting Policies (Continued)

### c) Proceeds from borrowing

Borrowing includes Treasury bill, treasury bonds, corporate bonds, sovereign bonds and external loans acquired by the Project or any other debt the Project may take on will be treated on cash basis and recognized as a receipt during the year they were received.

### d) Undrawn external assistance

These are loans and grants at reporting date as specified in a binding agreement and relate to funding for the Project currently under development where conditions have been satisfied or their ongoing satisfaction is highly likely and the project is anticipated to continue to completion. An analysis of the Project's undrawn external assistance is shown in the funding summary

### e) Recognition of payments

The Project recognises all payments when the event occurs, and the related cash has actually been paid out by the Project.

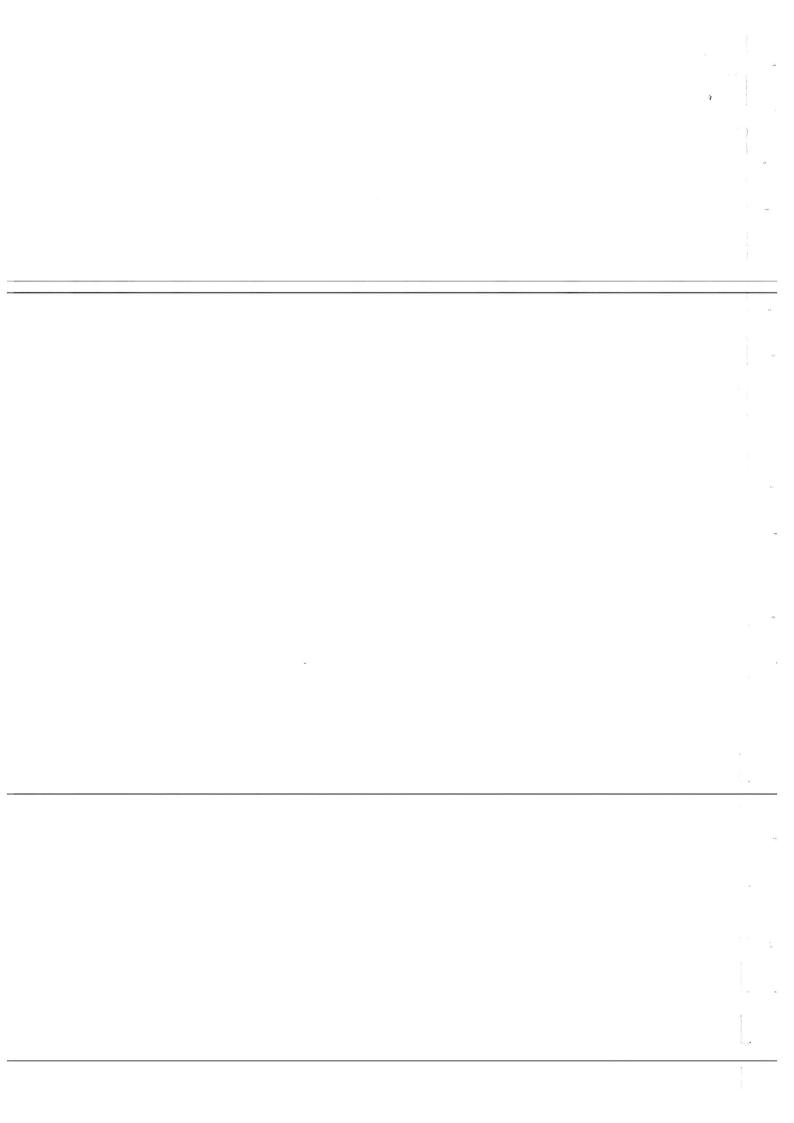

### i) Compensation of employees

Salaries and Wages, Allowances, Statutory Contribution for employees are recognized in the period when the compensation is paid.

### ii) Use of goods and services

Goods and services are recognized as payments in the period when the goods/services are consumed and paid for. If not paid for during the period where goods/services are consumed, they shall be disclosed as pending bills.

7

### Significant Accounting Policies (Continued)

### iii) Interest on borrowing

Borrowing costs that include interest are recognized as payment in the period in which they incurred and paid for.

### iv) Repayment of borrowing (principal amount)

The repayment of principal amount of borrowing is recognized as payment in the period in which the repayment is made. The stock of debt is disclosed as an annexure to the consolidated financial statements.

### v) Acquisition of fixed assets

The payment on acquisition of property plant and equipment items is not capitalized. The cost of acquisition and proceeds from disposal of these items are treated as payments and receipts items respectively. Where an asset is acquired in a non-exchange transaction for nil or nominal consideration and the fair value of the asset can be reliably established, a contra transaction is recorded as receipt and as a payment.

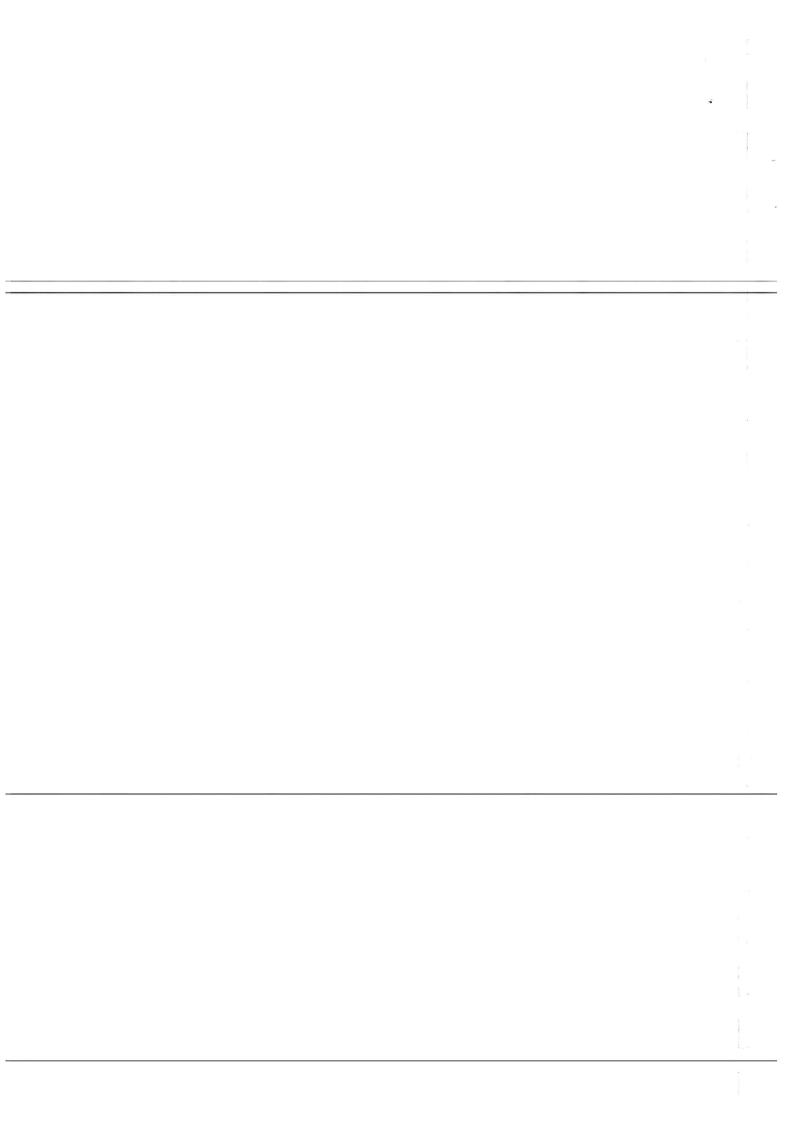

A fixed asset register is maintained by each public entity and a summary provided for purposes of consolidation. This summary is disclosed as an annexure to the consolidated financial statements.

### f) In-kind donations

In-kind contributions are donations that are made to the Project in the form of actual goods and/or services rather than in money or cash terms. These donations may include vehicles, equipment or personnel services. Where the financial value received for in-kind contributions can be reliably determined, the Project includes such value in the statement of receipts and payments both as receipts and as payments in equal and opposite amounts; otherwise, the contribution is not recorded.

### g) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and cash at bank, short-term deposits on call and highly liquid investments with an original maturity of three months or less, which are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value. Bank

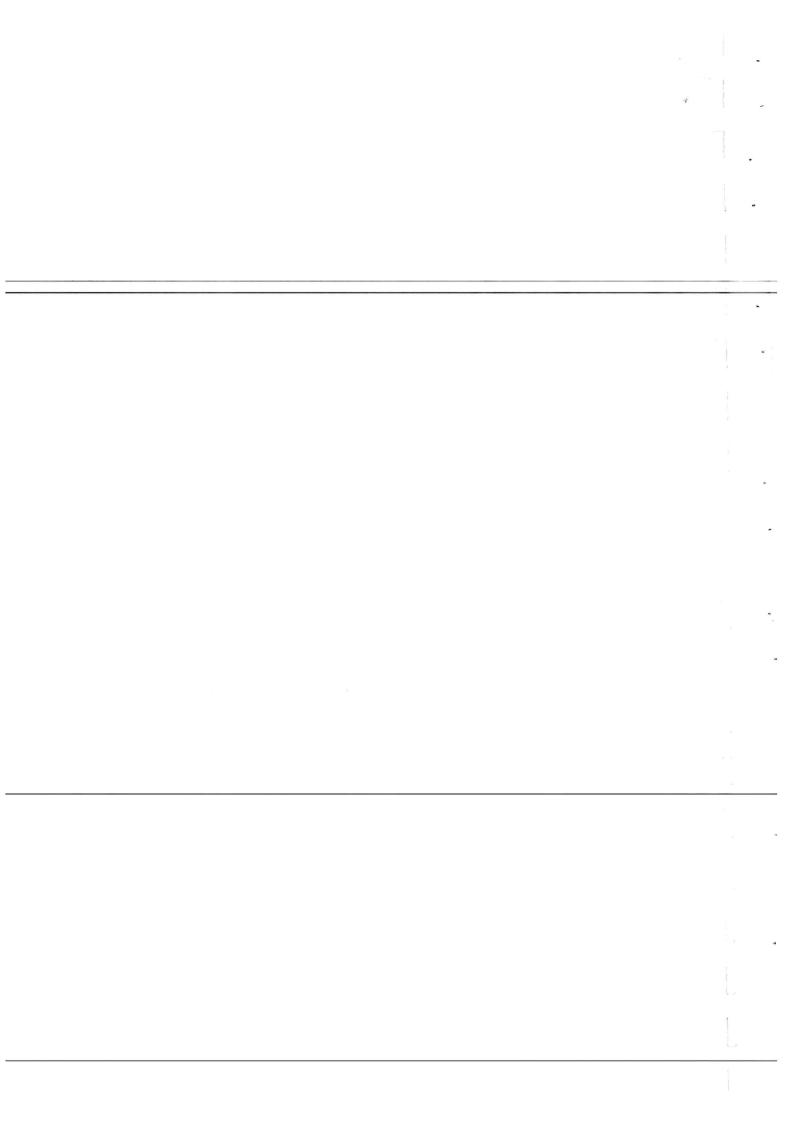

account balances include amounts held at the Central Bank of Kenya and at various commercial banks at the end of the financial year. For the purposes of these financial statements, cash and cash equivalents also include short term cash imprests and advances to authorised public officers and/or institutions which were not surrendered or accounted for at the end of the financial year.

### Restriction on cash

Restricted cash represents amounts that are limited/restricted from being used to settle a liability for at least twelve months after the reporting period. This cash is limited for direct use as required by stipulation. Amounts maintained in deposit bank accounts are restricted for use in refunding third part deposits.

### h) Accounts receivable

For the purposes of these financial statements, imprests and advances to authorised public officers and/or institutions which were not surrendered or accounted for at the end of the financial year is treated as receivables. This is in recognition of the government practice where the imprest payments are recognized as payments when fully accounted for by the imprest or AIE holders. This is an enhancement to the cash accounting policy. Other accounts receivables are disclosed in the financial statements.

### q) Errors

Material prior period errors shall be corrected retrospectively in the first set of financial statements authorized for issue after their discovery by: i. Restating the comparative amounts for prior period(s) presented in which the error occurred; or ii. If the error occurred before the earliest prior period presented, restating the opening balances of assets, liabilities and net assets/equity for the earliest prior period presented.

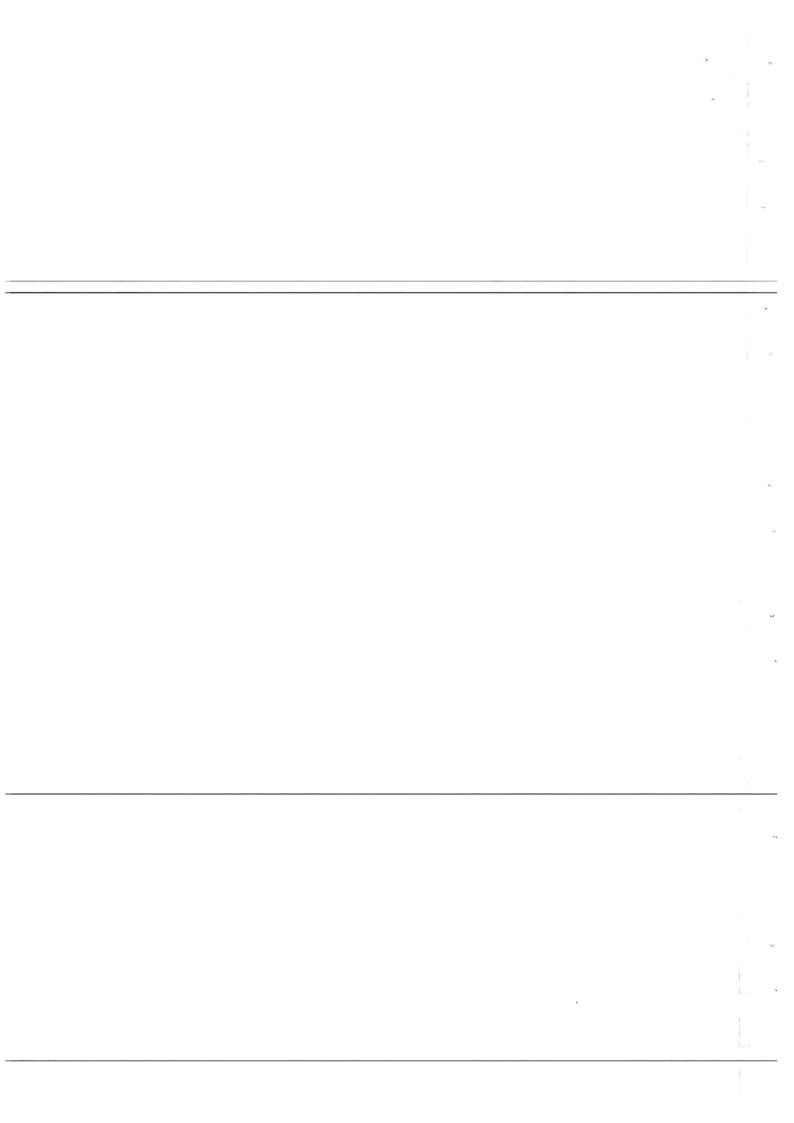

### 11. NOTES TO THE FINANCIAL STATEMENTS

### 1. RECEIPTS FROM GOVERNMENT OF KENYA

These represent counterpart funding and other receipts from government as follows:

	2020/2021	2019/20	Cumulative
A CONTRACTOR OF THE PARTY OF TH	KShs	KShs	to-date(from inception)
Counterpart funding through The National Treasury			
Counterpart funds Quarter 1	9,930,000		9,930,000
Counterpart funds Quarter 2	5,628,300	7,856,054	13,484,354
Counterpart funds Quarter 3	4,099,150	5,883,136	9,982,286
Counterpart funds Quarter 4	-	36,260,810	61,260,810
Total	19,657,450	50,000,000	94,657,450

This is the counterpart funding which is the government's share of contribution towards the implementation of the project as mandated by the Project Agreement.

# 2. LOAN FROM EXTERNAL DEVELOPMENT PARTNERS

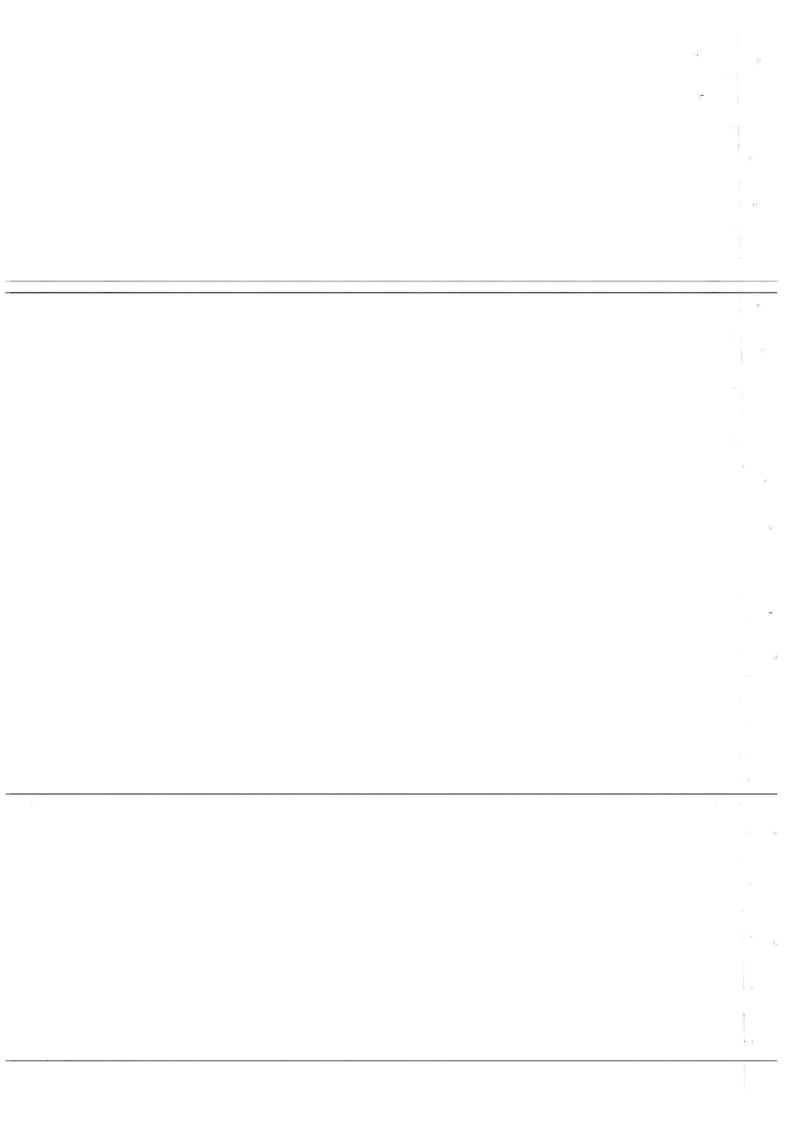

During the 12 months to 30 June 2021, we received funding from development partners in form of loans negotiated by the National Treasury donors as detailed in the table below:

Name of Donor	Date received	Amount in loan currency		Total amount in KShs	
		EURO	KShs	2020/2021	2019/20
International Development Association(IDA)	26th March,2021	790,848.9	102,500,265	102,500,265	177,492,639
Total		700 710			
		790,849	102,500,265	102,500,265	177,492,639

## 3. COMPENSATION OF EMPLOYEES

A CONTRACTOR OF THE PARTY OF TH		2020/21		2019/20	Cumulative to-date
	Payments made by the Entity in Cash	Payments made by third parties	Total Payments		
C.L.:	KShs	KShs	KShs	KShs	KShs
Salaries to Consultants	17,750,000		17,750,000	11,160,000	35,550,000
Total					
	17.750.000		17,750,000	11,160,000	35,550,000

Salaries is for the three employees of the project who are directly involved in the daily running of the project i.e. project manager, ecosystem manager and SME Manager.

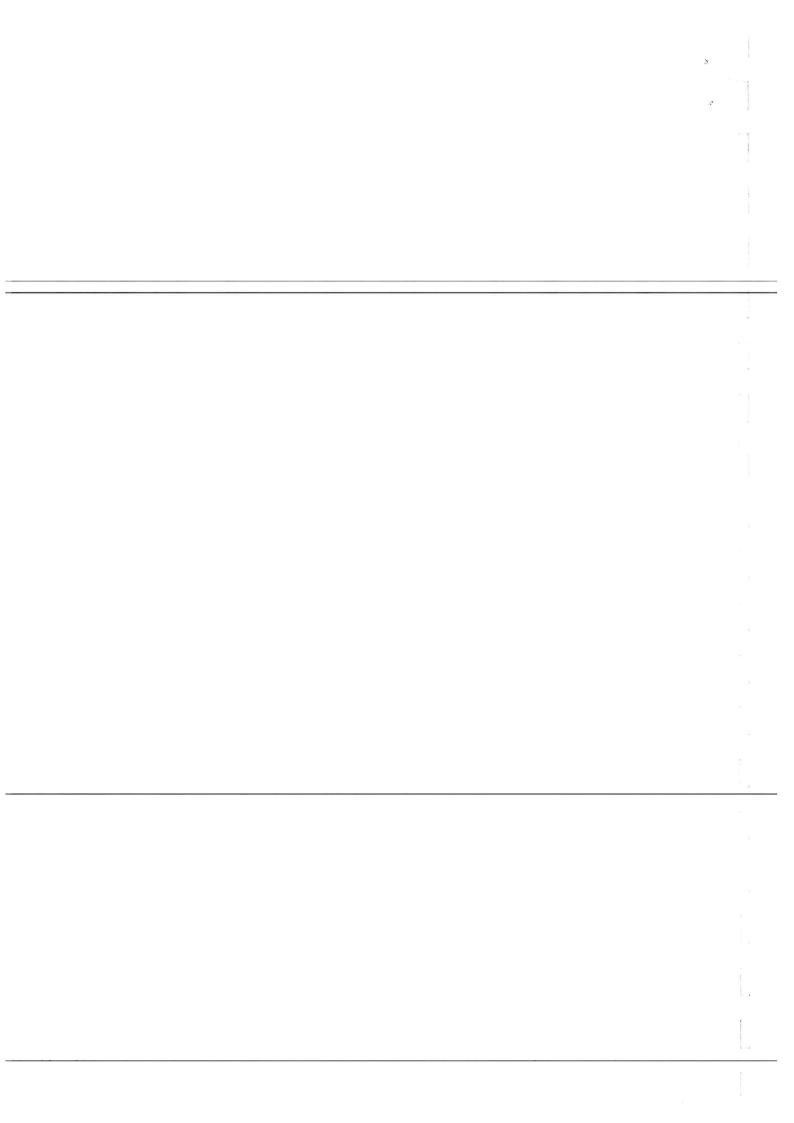

### 4. PURCHASE OF GOODS AND SERVICES

	1	3020/21	2019/20	Cumulative to- date
