1. KEY ENTITY INFORMATION AND MANAGEMENT

(a) Background Information

The National Treasury was established via the Executive Order No. 2 of May 2013. The basis for establishment of the National Treasury is found in Article 225 (i) of the Constitution of Kenya which states that an Act of Parliament shall provide for the establishment, functions and responsibilities of the National Treasury. This has been actualized in Section 11 and 12 of the Public Finance Management (PFM) Act 2012.

At Cabinet level, the National Treasury is represented by the Cabinet Secretary for National Treasury and Planning, who is responsible for the general policy and strategic direction of the Ministry with the assistance of the Chief Administrative Secretary.

Vision

"Excellence in economic and public financial management, and development planning".

Mission

"To provide leadership in economic and public financial management, for shared growth through formulation, implementation and monitoring of economic and financial policies".

Core Values

The National Treasury is guided by the following core values: Customer Focus, Results Oriented, Stakeholder Participation, Professionalism, Accountability, Integrity and Transparency and Teamwork all geared towards excellence in service delivery.

Mandate of the National Treasury

The National Treasury derives its mandate from Article 225 of the Constitution, Public Finance Management Act 2012 and the Executive Orders No.2/2013 and No.1/2018. The National Treasury will be executing its mandate in consistency with any other legislation as may be developed or reviewed by Parliament from time to time.

The core functions of the National Treasury as derived from the above legal provisions include;

- Formulate, implement and monitor macro-economic policies involving expenditure and revenue;
- Manage the level and composition of national public debt, national guarantees and other financial obligations of national government;
- Formulate, evaluate and promote economic and financial policies that facilitate social and economic development in conjunction with other national government entities;
- Mobilize domestic and external resources for financing national and county government budgetary requirements;

Reports and Financial Statements For the year ended June 30th, 2021

- Design and prescribe an efficient financial management system for the national and county governments to ensure transparent financial management and standard financial reporting.
- In consultation with the Accounting Standards Board, ensure that uniform accounting standards are applied by the national government and its entities;
- Develop policy for the establishment, management, operation and winding up of public funds;
- Prepare the annual Division of Revenue Bill and the County Allocation of Revenue Bill;
- Strengthen financial and fiscal relations between the national government and county governments and encourage support for county governments;
- Assist county governments to develop their capacity for efficient, effective and transparent financial management;
- To prepare the National Budget, execute/implement and control approved budgetary resources to MDAs and other Government agencies/entities; and
- Coordination and integration of public ports, railway and pipeline services.

Role of the National Treasury in the Devolved System of Government

The National Treasury is mandated by law to:

- Strengthen financial and fiscal relations between the National Government and County Governments and support for county governments in performing their functions;
- Issue guidelines on the preparation of county development planning;
- Prepare the annual legislative proposals on intergovernmental fiscal transfers;
- Provide logistical support to intergovernmental institutions overseeing intergovernmental fiscal relations;
- Coordinate the development and implementation of financial recovery plans for County Governments that are in financial distress;
- Build capacity of County Governments on public finance management matters for efficient, effective and transparent financial management as well as planning, monitoring and evaluation and;
- Administer the Equalization Fund.

(b) Key Management

The National Treasury day-to-day management is under the following key offices;

Office of the Principal Secretary

The Office of the Principal Secretary is responsible for the day to day administration of the National Treasury operations and is the Accounting officer. In addition, the Principal Secretary is charged with the responsibility of providing advice to the Cabinet Secretary in order to enhance efficiency and collective responsibility.

Reports and Financial Statements For the year ended June 30th, 2021

Organizational structure of the National Treasury

The National Treasury is organized into five (5) technical Directorates headed by Directors General and (1) Administrative and Support Services Directorate headed by a Principal Administrative Secretary. Each Director General is responsible for a Directorate comprising a cluster of Departments responsible for related policy functions. In addition, the Treasury has two independent departments namely Public Procurement and Internal Auditor General both of which are headed by Directors. The Directorates and Departments are as follows:

Directorate of Budget, Fiscal and Economic Affairs

The Directorate is headed by a Director General, reporting to the Principal Secretary, National Treasury. It is organized into the following five (5) Technical Departments each headed by a Director:

- Budget Department;
- Macro and Fiscal Affairs Department
- Financial and Sectoral Affairs Department;
- Inter-Governmental Fiscal Relations Department

Directorate of Accounting Services and Quality Assurance

The Directorate is headed by a Director General reporting to the Principal Secretary, National Treasury. It is organized into the following four (4) Technical Departments each headed by a Director:

- Government Accounting Services;
- Financial Management Information Systems (FMIS)
- National Sub-County Treasuries.
- Government Digital Payments Unit.

Directorate of Public Investment and Portfolio Management

The Directorate is headed by a Director General, reporting to the Principal Secretary. It is organized into the following four (4) Technical Departments each headed by a Director:

- Government Investment and Public Enterprises;
- National Assets and Liabilities Management;
- Pensions Department.
- Public Investment Management Unit

Directorate of Public Debt Management Office

The Directorate is headed by a Director General, reporting to the Principal Secretary. It is organized into the following three (3) Technical Departments each headed by a Director:

- Resource Mobilization (Front Office);
- Debt Policy, Strategy and Risk Management (Middle Office);
- Debt Recording and Settlement (Back Office).

THE NATIONAL TREASURY & PLANNING Reports and Financial Statements

For the year ended June 30th, 2021

Directorate of Public Private Partnership Unit

The Directorate is headed by a Director General, reporting to the Principal Secretary on matters relating to Public Private Partnership.

Directorate of Administrative and Support Services (Common Shared Services)

The Directorate is headed by a Principal Administrative Secretary, reporting to the Principal Secretary. It is organized into twelve (12) specialized functions offering common shared services. The common shared services of the National Treasury consist of functions that are not core to the National Treasury but offer critical support services to the National Treasury. The functions include:

- · Accounting,
- Finance,
- Human Resource Management and Development,
- Central Planning and Project Monitoring,
- Supply Chain Management,
- Legal,
- Public Communications,
- General Administration,
- Records Management;
- Internal Audit;
- ICT
- Government Clearing Agency

(c) Fiduciary Management

The key management personnel who held office during the financial year ended 30th June 2021 and who had direct fiduciary responsibility were:

Reports and Financial Statements For the year ended June 30th, 2021

(d) Fiduciary Oversight Arrangements

To manage the fiduciary risk, the National Treasury has put in place fiduciary oversight arrangements including setting up committees. The key oversight arrangements include:

Internal Audit Unit

The National Treasury has an internal Audit Unit charged with the responsibility of identifying risks in the management and day to day operations of the Ministry through the risk-based audits. The Unit reports directly to the Accounting Officer on a regular basis.

Audit Committees

In line with the Public Finance Management Act, the National Treasury has established a Ministerial Audit Committee comprising five members, three of whom are independent. The Committee provides overall oversight and quality assurance including follow up on the effectiveness of implementation of audit recommendations.

Further, the National Treasury established an audit committee comprising officers from all departments of the Ministry, under the chairmanship of the Senior Chief Finance Officer. The Committee reviews and analyses all audit queries and makes recommendations on how to reduce fiduciary risks. In addition, the committee prepares responses to all audit queries for presentation to the relevant committees of parliament.

Project Implementation Committee

To monitor the implementation of the Government's Infrastructure Projects, the National Treasury has established a Project Steering Committee Comprising Principal Secretaries from implementing Ministries and appointed a technical committee comprising officers from the technical departments of the Ministry. The Committees review and analyse the progress made by ministries in the implementation of domestically and externally funded projects and advises accordingly.

Parliamentary Activities

In order to effectively manage the parliamentary activities relating to the Ministry, the National Treasury has established a committee and designated a liaison officer to coordinate the activities under the Office of the Cabinet Secretary in consultation with the Office of the Chief Administrative Secretary.

Development Partner Oversight

To effectively manage Official Development Assistance to the Government, the National Treasury has under the Public Debt Management a department responsible for all matters relating to

Development Partners. The Department has various Units that coordinate different development partner activities in the Country.

Reports and Financial Statements For the year ended June 30th, 2021

Other fiduciary oversight arrangements include the following committees with specific objectives;

Top Management Committee and Other Committees

To monitor the implementation of the Ministry's programmes and performance, the National Treasury has appointed Top Management Committee comprising of Directors General. The Committee receives reports from departments, build consensus on National Treasury responses to emerging issues, challenges and risks and ensures that the decisions made are implemented in a timely manner. Additionally, the Treasury constituted Adhoc Committees to handle specific assignments in the Financial Year 2020/21.

Public Financial Management Sector Working Group

To facilitate the implementation of financial management reforms, the National Treasury has appointed senior officers to the Public Financial Management Sector Working Group. The Committee plays an oversight role in the implementation of financial reforms in the public service in collaboration with the development partners.

Budget Implementation Steering Committee

In order to effectively monitor the implementation of the National Government budget implementation, The National Treasury has established a steering Committee chaired by the Cabinet Secretary, National Treasury and Planning. The Principal Secretaries for the National Treasury and State Department of Planning provide general oversight in the Budget implementation.

Budget Implementation Technical Committee

The Committee is chaired by the Principal Administrative Secretary and comprises the Directors General and various Heads of Department. The Committee is responsible for monitoring the actual implementation of the identified measures and programmes and reporting detailed progress on the same regularly.

Budget Implementation Ministerial Committee

To monitor the implementation of the Ministry's budget, programmes and activities, the National Treasury has appointed a committee comprising of officers from all the Departments of the Ministry. The Committee reviews and analyses the progress made by Departments in the implementation of budget and the planned programmes and activities and advises the management accordingly.

Monitoring and Evaluation

The Ministry undertakes monitoring and evaluation exercises to establish progress made in the implementation of various programmes and projects including those that are funded by the development partners.

2. FORWARD BY THE CABINET SECRETARY

In accordance with Section 12 of the Public Finance Management Act, 2012, the National Treasury is responsible for coordinating the country's economic and financial management. Overall, the National Treasury has continued to maintain a policy environment that is conducive to economic growth and development of the country.

Economic growth in the first three quarters of 2020 contracted by an average of 0.4% compared to a growth of 3.6 percent in the corresponding period of 2019. In 2020, the Kenyan economy was adversely affected by the outbreak of Covid-19 Pandemic and the swift containment measures, which disrupted and scaled down economic activities within the country and in most of the country's major trading partners. Additionally, Kenya faced two other shocks: the invasion of swarms of desert locusts that damaged crops and occurrence of floods following receipt of more than normal rainfall in May 2020. As a result, growth in 2020 is estimated to have contracted by 0.6 percent from a growth of 5.4 percent in 2019 (figure 1).

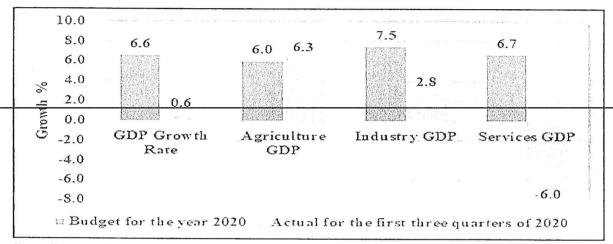

Figure 1: Annual Real GDP Growth rates (Percent)

The agriculture sector recorded an improved average growth of 6.4 percent in the first three quarters of 2020 compared to a growth of 3.6 percent in the corresponding period of 2019. The non-agriculture (service and industry) sectors were adversely affected by the Covid-19 pandemic. As a result, the sectors contracted by an average of 2.1 percent in the first three quarters of 2020 down from an average growth of 6.1 percent in a similar period in 2019. (Figure 2).

Reports and Financial Statements For the year ended June 30th, 2021

Figure 2: Annual Percentage Economic Growth Rates in 2020/21

Data Source: Quarterly Economic and Budgetary Review (QEBR), MTP III

Additionally, the economic slowdown in fourth quarter was aggravated by contraction in Accommodation and Food Service activities to negative 6 per cent from 6.7 per cent on account of Corona Virus containment measures instituted in our major tourist source markets.

Despite the difficult circumstances faced last year, the country was able to preserve macroeconomic stability with inflation, interest rates and exchange rates remaining largely stable. Leading economic indicators for the fourth quarter of 2020 and the first quarter of 2021 point to strong recovery from the adverse impact of the COVID-19 pandemic.

Budget performance

In terms of budget performance, the National Treasury expenditure stood at Kshs.107.6 Billion against an approved budget of Kshs.114.5 Billion translating to an overall absorption rate of 94% as demonstrated in that pie chart below:

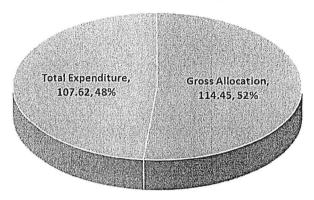

THE NATIONAL TREASURY & PLANNING Reports and Financial Statements

For the year ended June 30th, 2021

Figure 3: Total Allocation against Total Expenditure (Kshs. Billion)

Gross Allocation # Total Expenditure

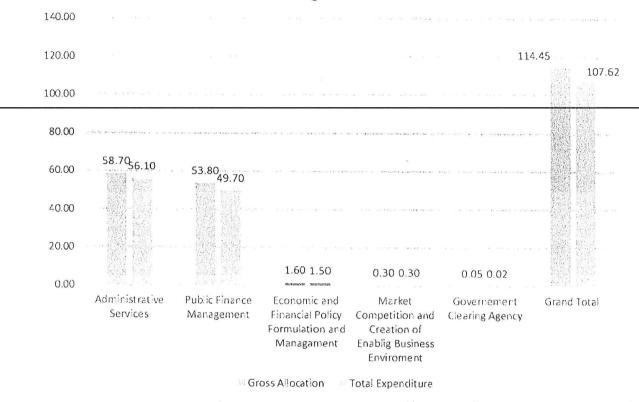

The National Treasury implemented the 2020/21 budget within five economic classifications/programmes. These were General Administration, Planning and Support Services, Public Financial Management, Economic and Financial Policy Formulation and Management, Market Competition and Creation of an Enabling Business Environment, and Government Clearing Agency. As demonstrated in the bar chart below, the Market Competition Programme had the highest absorption at 100% followed by General Administration 96%, Economic and Financial Policy Formulation and Management 94%, and Public Financial Management Programme at 82% while Government Clearing Agency at 30%.

Figure 3: Budget Execution (KSh. Billions) and proportion (%) by Programmes
The 100% absorption rate in Market Competition and Creation of an Enabling Business Environment
programme is attributed to transfers to Semi Automonous Government Agencies (SAGAs) under the
National Treasury which implemented this programme.

THE NATIONAL TREASURY & PLANNING Reports and Financial Statements For the year ended June 30th, 2021

Budget Execution (KSh. Billions) and proportion (%) by Programmes

The Public Service Superannuation Scheme commenced on 1st January 2021, with the Board of Trustees having been constituted in line with the provisions of the Act that established the scheme. The scheme covers all employees below the age of 45 years of the Public Service Commission, the Teachers Service Commission and the National Police Service. This will be the largest pension fund in the country and will generate growth of capital markets and bring growth in unlocking value in real estate.

The Performance Contract Evaluation report for all Ministries, State Corporations and Tertiary Institutions released in May 2021 ranked the National Treasury and Planning as the best performing Ministry for Fiscal year 2029/2020.

Other key achievements during the period under review are as follows;

- i. Mobilization of external resources amounting to Kshs.622 billion for projects and Kshs.423 billion for budget support to meet the budget deficit equivalent to 40.3% of the fiscal gap;
- ii. Facilitated the National Police Service by leasing 3,400 vehicles towards enhancing security;
- iii. Developed two Public Private Partnership (PPP) Projects Standardized Transactional Templates.

THE NATIONAL TREASURY

Reports and Financial Statements

For the year ended June 30, 2021

- iv. Developed Government Investment Management Information System (GIMIS);
- v. Conducted 245 value for money (VfM) audits;
- vi. Trained 1,273 Public Finance Management (PFM) users on financial reporting on IFMIS system;

Emerging Issues

The emerging issues that have impacted the operations of the National Treasury include;

- Covid-19 Pandemic and the containment measures led to depressed business environment hence pushing many enterprises and business to scale down operations. This negatively impacted revenue performance, thus execerbating the pressure for resource at the Ministry level, the containment measures included but not limited to work shift plans and restriction of movements. These constrained the implementation of planned activities for the National Treasury.
- Re-allocation of resources to finance Covid-19 related expenditures thus affecting implementation of some programmes and projects.
- Leveraging on ICT innovations in the delivery of services to the citizenry.
- Change in Government Policies that led to adjustment in the implementation of planned programmes and projects.

Challenges

Some of the challenges the National Treasury faced while implementing the 2020/21 budget include:-

- Resource Constraint
- The rationalization of the budget, occasioned by underperformance of revenue collection and emerging government priorities affected the implementation of programmes on training, hospitality, transfer of conditional grants to County Governments and to semi-autonomous Agencies (SAGAs). The underperformance in revenue also caused delays in disbursement of funds by the National Treasury to MDAs. The underperformance of county governments own source revenue led to overreliance on transfers from the National Government occasioning more pressure on the exchequer.
- Shortage of Key Technical Staff
- The National Treasury experienced staff shortage across all cadres. This is attributed to natural attrition and departure of staff to the county governments and other constitutional bodies. The planned recruitment and promotion of staff by the appointing authorities has been slow hence affecting service delivery and succession management initiatives.
- Shortage of office space especially for key technical staff.
- Lack of a Project Implementation, Monitoring and Evaluation framework.

To armount the above challenges and ensure successful implementation of the National Treasury goals and objectives, the Ministry undertook the following: -

• Continued to implement borrowing policy that provides for domestic borrowing to plug the financing gap created by non-performing revenue,

THE NATIONAL TREASURY

Reports and Financial Statements

For the year ended June 30, 2021

- Undertook expenditure reduction strategies such as austerity measures and relevant reprioritization of projects funding to those with greatest impact.
- Continued to implement succession planning towards progressively filling in staff shortage, continued training and timely promotions.
- Engaged other developments partners for concessional loans and grants as well as pursued strategies to finance government projects.

Recommendations

- Increasing allocation to the sub-Sector to facilitate effective mobilization of resources to finance public expenditure particularly towards facilitation and implementation of post COVID-19 recovery programmes and strategies
- Reforms in Public Financial Management shall be sustained to enable the National Treasury to mobilize adequate financial resources and enhance absorption capacity;
- Sustained implementation of succession planning, especially with respect to recruitment of key technical staff;
- Strengthening Monitoring and Evaluation Framework and capacity.
- Leveraging on the use of ICT in the face of COVID 19 containment measures to ensure timely delivery of targets and through acquisition of modern communication equipment and systems.
- Enhancing working environment and refurbishment of offices to provide accommodation of staff.
- · Prioritization of ongoing projects and fast tracking to ensure timely completion

Going forward, the National Treasury will implement a risk management strategy that will identify, monitor and control risks associated to its activities. This will include government investments and cash flows, its banking, money markets and capital market transactions as well as borrowing.

REPORT OF THE AUDITOR-GENERAL ON GOVERNMENT INVESTMENTS AND PUBLIC ENTERPRISES - REVENUE STATEMENTS FOR THE YEAR ENDED 30 JUNE, 2021 -THE NATIONAL TREASURY

PREAMBLE

I draw your attention to the contents of my report which is in three parts:

- A. Report on the Revenue Statements that considers whether the revenue statements are fairly presented in accordance with the applicable financial reporting framework, accounting standards and the relevant laws and regulations that have a direct effect on the revenue statements.
- B. Report on Lawfulness and Effectiveness in Use of Public Resources which considers compliance with applicable laws, regulations, policies, gazette notices, circulars, guidelines and manuals and whether public resources are applied in a prudent, efficient, economic, transparent and accountable manner to ensure Government achieves value for money and that such funds are applied for intended purpose.
- C. Report on Effectiveness of Internal Controls, Risk Management and Governance which considers how the entity has instituted checks and balances to guide internal operations. This responds to the effectiveness of the governance structure, the risk management environment, and the internal controls developed and implemented by those charged with governance for orderly, efficient and effective operations of the entity.

An unmodified opinion does not necessarily mean that an entity has complied with all relevant laws and regulations, and that its internal controls, risk management and governance systems are properly designed and were working effectively in the financial year under review.

The three parts of the report are aimed at addressing the statutory roles and responsibilities of the Auditor-General as provided by Article 229 of the Constitution, the Public Finance Management Act, 2012 and the Public Audit Act, 2015. The three parts of the report, when read together constitute the report of the Auditor-General.

REPORT ON THE REVENUE STATEMENT

Adverse Opinion

I have audited the accompanying revenue statements of Government Investments and Public Enterprises - Revenue Statements set out on pages 18 to 22, which comprise the

statement of arrears of receipts as at 30 June, 2021, statement of receipts and transfers, statement of comparison of budget and actual amounts for the year then ended, and a summary of significant accounting policies and other explanatory information, and the summary schedule of outstanding loans in accordance with the provisions of Article 229 of the Constitution of Kenya and Section 35 of the Public Audit Act, 2015. I have obtained all the information and explanations which, to the best of my knowledge and belief, were necessary for the purpose of the audit.

In my opinion, because of the significance of the matters discussed in the Basis for Adverse Opinion section of my report, the revenue statements do not present fairly, the revenue performance of Government Investments and Public Enterprises - Revenue Statement as at 30 June, 2021 in accordance with International Public Sector Accounting Standards (Cash Basis) and do not comply with the Public Finance Management Act, 2012.

Basis for Adverse Opinion

1. Failure to Prepare Revenue Statements in Accordance with the Public Sector Accounting Standards Board's Template

Review of the Government Investments and Public Enterprises – Revenue Statement for the year ended 30 June, 2021 revealed that Management did not prepare the statement of financial assets and liabilities as prescribed by the Public Sector Accounting Standards Board (PSASB) as communicated through The National Treasury Circular Ref. No. AG.4/16/2 Vol.3(72) of 30 June, 2021: The National Treasury provided revised reporting templates for the annual and quarterly statements as prescribed by PSASB to enable entities comply with statutory requirements for end of year and in-year reporting in accordance with the Public Finance Management Act, 2012.

Consequently, and in the absence of the statement of financial assets and liabilities, it was not possible to ascertain the status of the outstanding loans as at 30 June, 2021.

2. Unreconciled Outstanding Loans Balances

As previously reported, included in the Government Investments and Public Enterprises (GIPE) revenue statement for the year ended 30 June, 2021 is an analysis of the outstanding loans as at 30 June, 2021, which reflects an outstanding loans balance of Kshs.921,930,325,958. However, entities with a total loan balances amounting to Kshs.801,382,820,943 reflected in the statement differed with the loan balance of Kshs.468,063,607,436 independently confirmed from the entities resulting to an unexplained variances as summarized below.

| | Institution | Balance as Per the Revenue Statements | Balance Confirmed After Circularisation | Variance |
|---|---|---|---|--------------|
| | | Kshs. | Kshs. | Kshs. |
| 1 | Agricultural Settlement Fund and Central Land Board | 75,778,732 | 1,997,085 | 73,781,647 |
| 2 | Agro-Chemical and Food Company Limited | 2,846,884,000 | 2,941,884,000 | (95,000,000) |

| | | Balance as Per the Revenue | Balance Confirmed After | |
|----|---|----------------------------|----------------------------|------------------|
| | Institution | Statements | Circularisation | Variance |

Under the circumstances, the validity, accuracy and completeness of the reported outstanding loans balance of Kshs.921,930,325,958 as at 30 June, 2021 could not be confirmed.

The audit was conducted in accordance with the International Standards of Supreme Audit Institutions (ISSAIs). I am independent of The National Treasury - Government Investments and Public Enterprises Management in accordance with ISSAI 130 on Code of Ethics. I have fulfilled other ethical responsibilities in accordance with ISSAI and in accordance with other ethical requirements applicable to performing audits of revenue statements in Kenya. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my adverse opinion.

Key Audit Matters

Key audit matters are those matters that, in my professional judgement, are of most significance in the audit of the revenue statements. There were no key audit matters to report in the year under review.

Other Matter

Dormant Loans

As previously reported, included in the total loan portfolio of Kshs.921,930,325,958 as at 30 June, 2021 were seventeen (17) loans amounting to Kshs.218,811,487,711 representing 24% of the total loan portfolio that had no movement during the year and have remained unpaid over a significant period. Further, the Management did not provide the aging analysis of the dormant loans tabulated below:

REPORT ON LAWFULNESS AND EFFECTIVENESS IN USE OF PUBLIC RESOURCES

Conclusion

As required by Article 229(6) of the Constitution, because of the significance of the matters discussed in the Basis for Adverse Opinion section of my report, based on the audit procedures performed, I confirm that public resources have not been applied lawfully and in an effective way.

Basis for Conclusion

The audit was conducted in accordance with ISSAI 4000. The standard requires that I comply with ethical requirements and plan and perform the audit to obtain assurance about whether the activities, financial transactions and information reflected in the

revenue statements are in compliance, in all material respects, with the authorities that govern them. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

REPORT ON EFFECTIVENESS OF INTERNAL CONTROLS, RISK MANAGEMENT AND GOVERNANCE

Conclusion

As required by Section 7(1)(a) of the Public Audit Act, 2015, because of the significance of the matters discussed in the Basis for Adverse Opinion section of my report, based on the audit procedures performed, I confirm that internal controls, risk management and governance were not effective.

Basis for Conclusion

The audit was conducted in accordance with ISSAI 2315 and ISSAI 2330. The standards require that I plan and perform the audit to obtain assurance about whether effective processes and systems of internal control, risk management and overall governance were operating effectively, in all material respects. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

Responsibilities of Management and those Charged with Governance

Management is responsible for the preparation and fair presentation of these revenue statements in accordance with International Public Sector Accounting Standards (Cash Basis) and for maintaining effective internal control as Management determines is necessary to enable the preparation of revenue statements that are free from material misstatement, whether due to fraud or error and for its assessment of the effectiveness of internal control, risk management and overall governance.

In preparing the revenue statement, Management is responsible for assessing The National Treasury - Government Investments and Public Enterprises' ability to continue to sustain its services, disclosing, as applicable, matters related to sustainability of services and using the applicable basis of accounting unless Management is aware of intention to terminate the Government Investments and Public Enterprises or to cease operations.

Management is also responsible for the submission of the revenue statements to the Auditor-General in accordance with the provisions of Section 47 of the Public Audit Act, 2015.

In addition to the responsibility for the preparation and presentation of the revenue statements described above, Management is also responsible for ensuring that the activities, financial transactions and information reflected in the revenue statements are in compliance with the authorities which govern them, and that public money is applied in an effective way.

Those charged with governance are responsible for overseeing The National Treasury - Government Investments and Public Enterprises' financial reporting process, reviewing the effectiveness of how Management monitors compliance with relevant legislative and regulatory requirements, ensuring that effective processes and systems are in place to

address key roles and responsibilities in relation to overall governance and risk management, and ensuring the adequacy and effectiveness of the control environment.

Auditor-General's Responsibilities for the Audit

The audit objectives are to obtain reasonable assurance about whether the revenue statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion in accordance with the provisions of Section 48 of the Public Audit Act, 2015 and submit the audit report in compliance with Article 229(7) of the Constitution. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISSAIs will always detect a material misstatement and weakness when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these revenue statements.

In addition to the audit of the revenue statements, a compliance audit is planned and performed to express a conclusion about whether, in all material respects, the activities, financial transactions and information reflected in the revenue statements are in compliance with the authorities that govern them, and that public resources are applied in an effective way, in accordance with the provisions of Article 229(6) of the Constitution and submit the audit report in compliance with Article 229(7) of the Constitution.

Further, in planning and performing the audit of the revenue statements and audit of compliance, I consider internal control in order to give an assurance on the effectiveness of internal controls, risk management and overall governance processes and systems in accordance with the provisions of Section 7(1)(a) of the Public Audit Act, 2015 and submit the audit report in compliance with Article 229(7) of the Constitution. My consideration of the internal control would not necessarily disclose all matters in the internal control that might be material weaknesses under the ISSAIs. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the revenue statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Because of its inherent limitations, internal control may not prevent or detect misstatements and instances of non-compliance. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

As part of an audit conducted in accordance with ISSAIs, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

 Identify and assess the risks of material misstatement of the revenue statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of the Management's use of the applicable basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on The National Treasury Government Investments and Public Enterprises' ability to continue to sustain its services. If I conclude that a material uncertainty exists, I am required to draw attention in the auditor's report to the related disclosures in the revenue statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my audit report. However, future events or conditions may cause The National Treasury Government Investments and Public Enterprises to cease to continue to sustain its services.
- Evaluate the overall presentation, structure and content of the revenue statements, including the disclosures, and whether the revenue statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information and business activities of The National Treasury - Government Investments and Public Enterprises to express an opinion on the revenue statements.
- Perform such other procedures as I consider necessary in the circumstances.

I communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that are identified during the audit.

I also provide Management with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

CPA Nancy Gathungu, CBS AUDITOR-GENERAL

Nairobi

20 April, 2022

Reports and Financial Statements For the year ended June 30th, 2021

Commentary on Arrears of Receipts

The arrears of revenue with respect to principal loan and accrued interest relates to previous years accumulated revenue due and outstanding of KSh. 74.01 billion as at 30th June 2021, indicating an increase of KSh. 19.91 billion during the year. The growth is occasioned by the Loan due from Kenya Railway Company which became due in the year, (Kshs. 12 billion). Water sector also contributed to the growth where loan due constitute about 42% of loan in arrears is facing financial challenges due to the reforms and changes of law governing the Water Sector where water is a devolved function and Sugar Sector where entities have been earmarked for leasing and are awaiting the outcome of the process and direction on all outstanding loan principal and accrued interest. However, the National Treasury & Planning continues to demand for the amount in arrears.

VII. NOTES TO THE ACCOUNTS

1. (a) 4510201: Loan Redemption

Revised estimates of Kshs. 1.76 billion against actual receipts of Kshs. 6.26 billion, shows an over collection of Kshs. 4.47 billion. This was mainly caused by revision of loan redemption amount done based on moratorium that had been given and financial challenges that were reported by the State Corporations. However, KENGEN paid the whole amount of Kshs.5.7 billion being the moratorium that had been given in the 2020/21 FY.

1. (b) 1410101: Loan Interest

Revised estimates of Kshs. 1.89 billion against actual receipts of KSh. 2.1 billion shows an over collection of Kshs. 0.28 billion mainly due to repayment of interest on loans where the revision had been done based on moratorium request that had been received at The National Treasury and financial challenges that were reported by the State Corporations. KENGEN paid their interest equivalent to the moratorium that they had been given in the 2020/21 FY.

2.(a) 1410202: Dividends from Central Bank of Kenya (CBK)

The budgeted dividend from CBK in FY 2020/2021 revised estimates of Kshs 7.50 billion against actual receipts of KSh. 7.5 billion shows there was no variance.

2.(b) 1410202: Other Profits & Dividends

The budgeted dividend in the revised estimates of Kshs 32.6 billion against actual receipts of KSh. 37.61 billion shows an over collection of Kshs. 5.01 billion. The increase is mainly attributable to Kenya Ports Authority (KPA), Kenya Pipeline company (KPC) and Kenya Electricity Generating Company Ltd (KENGEN) where majority paid a special dividend to the National Treasury. This was

Reports and Financial Statements For the year ended June 30th, 2021

an accrued amount that was supposed to be paid in 2019/20 FY after the review and rationalization of State Corporations budget for 2019/2020 FY, where some Entities were found with resources that were not required for immediate use and the funds were identified to be remitted to the National Exchequer.

2. (c) 1410203: Surplus Funds

Revised estimates Kshs 24.4 billion against actual receipts of KSh.2.8 billion shows an under collection of Kshs 21.6 billion. The decrease is mainly due to some State Corporation (Regulatory) who were expected to remit the surplus to National Treasury but they paid directly to Kenya Revenue Authority.

3. Transfer to the Exchequer

The total receipts of Kshs. 56,238,304,456.35 was received and transferred to the exchequer during the financial year ended June 30th, 2021

SIGNIFICANT ACCOUNTING POLICIES

The principle accounting policies adopted in the preparation of these financial statements are set out below:

1. Statement of Compliance and Basis of Preparation

The financial statements have been prepared in accordance with Cash-basis International Public Sector Accounting Standards (IPSAS) as prescribed by the Public Sector Accounting Standards Board (PSASB) and set out in the accounting policy note below. The financial statements comply with and conform to the form of presentation prescribed by the PSASB. The accounting policies adopted have been consistently applied to all the years presented.

2. Reporting Currency

The financial statements are presented in Kenya Shillings (KSh), which is the functional and reporting currency of the Government and all values are rounded to the nearest Kenya Shilling.

3. Significant Accounting Policies

The accounting policies set out in this section have been consistently applied by The National Treasury for all the years presented.

a) Recognition of Receipts

The receipts from the various sources when the cash has actually been received by The National Treasury. Total revenue receipts of KSh. 56,238,304,456.35 was received as at June 30th, 2021.

4. Transfer to the Exchequer

The total receipts of Kshs. 56,238,304,456.35 was received and transferred to the exchequer during the financial year ended June 30th, 2021

5. Interest on Loan

THE NATIONAL TREASURY & PLANNING Reports and Financial Statements For the year ended June 30th, 2021

Interest on Loan are recognized as receipt in the period in which they are received.

6. Loan Repayment (Principal Amount)

The repayment of principal amount received is recognized in the period in which the repayment is made.

7. Budget

The budget is developed on a comparable accounting basis (cash basis except for imprest and deposits, which are accounted for on an accrual basis), the same accounts classification basis, and for the same period as the financial statements. The original budget was approved by Parliament as required by Law and there were supplementary adjustments to the original budget during the year.

A comparison of the actual performance against the comparable budget for the financial year under review has been included in the financial statements.
