IV. CHAIRMAN'S STATEMENT

The National Museums of Kenya (NMK) is one of the leading tourist attractions in Kenya. Unfortunately, its activities have been adversely affected heavily by the Covid-19 pandemic. During this period, both the Board and Management continued to play a significant role in nurturing and cultivating the spirit of Heritage research and preservation through curation of our tangible and intangible heritage. As the Chairman of NMK Board, I will continue to guide the team to make NMK an excellent place where *'Heritage lives on'* for Kenyans and the world.

Through focused fundraising efforts, NMK has secured funding from the Sports, Arts and Social Development Fund to a tune of Kshs. 208, 064,692 for restoration works and operations as shown below:

- i. The Kshs. 117,027,100 for backfilling of Fort Jesus Sea Wall, Mombasa County.
- ii. The Kshs. 37,000,000 for construction and installation of cages at Institute of Primate Research, Nairobi County.
- iii. The Kshs. 44,521,292 to cater for operations and maintenance
- iv. The Kshs. 9,516,300 to cater for Coastal land survey.
- v. The Kshs. 64,133,600 for restoration of Vasco Da Gama Pillar, Malindi, Kilifi County

This funding will greatly enable us restore our monuments and mausoleums that are of great historical significance in Kenya and upgrade the cages at the Institute of Primate Research. The Vasco Da Gama Pillar base had undergone extreme deterioration and could lead to the collapse of the pillar to the Ocean. I take this opportunity on behalf of my Board, to thank the Board and Management of the Sports Fund for the support they gave us, without which we would not have been able to achieve much.

It is a fact that our sites and monuments continue to tell the Kenya story to the world, serve as a source of civic pride, and act as a focal point for our communities. The

NATIONAL MUSEUMS OF KENYA
Annual Reports and Financial Statements
For the Year Ended June 30, 2021

aesthetic enjoyment gained from our statues is priceless and this is why a legacy of pristine management of our national heritage is close to my heart.

During this period, My Board prioritized and encouraged safe working practices amongst my researchers and scientists at NMK. In this regard, an initiative of replacing the Natural Science block asbestos roofing was a priority and was completed during the year under review. With the availability of funding, it is now a reality as the poisonous asbestos roofing were removed and replaced with modern roofing solutions.

In addition, the Government of Kenya identified and designated the Institute of Primate Research (IPR) a Directorate under NMK as a testing and research hub for SARS Corona-19 Virus. The Directorate was able to establish a Covid-19 Centre that helped to carry out the tests to support the Ministry of Health in Covid-19 efforts, through molecular detection, testing and generation of data.

Finally, on behalf of the NMK Board of Directors, I commend the NMK management and staff for their commitment and dedication to the ideals of NMK which has no doubt enabled the institution to continue carrying out its mandate, despite the huge challenges posed by the COVID19 pandemic. May the Almighty God continue to guide us as we serve our beloved country.

Hon. David Musila, MGH

Chairman Board of Directors

NATIONAL MUSEUMS OF KENYA
Annual Reports and Financial Statements
For the Year Ended June 30, 2021

V. DIRECTOR GENERAL'S STATEMENT

The National Museums of Kenya (NMK) is a public corporation that is composed of 28 museums and 340 monuments distributed in all the 47 Counties. Its Heritage resources are a major attraction in Kenya for both Domestic tourists and International travelers particularly those that are Heritage, Science and Art enthusiasts. Unfortunately, because of the onset of COVID 19 pandemic made us to close all doors to all our Museums and Monuments occasioning a huge financial deficit that we are struggling to plug. This period has been a season for reflection for the Board of Directors, Management and Staff on how to manage our institution and serve the public adequately post Covid-19 pandemic. We have since then reopened our Museums, Sites and Monuments for our visitors with strict adherence to Ministry of Health COVID- 19 pandemic safety guidelines. The number of visitors so far is quite low

Before the pandemic as an institution, we have had a busy year at NMK albeit the obvious challenges facing Museums around the World. This statement comes in the midst of major crisis never before witnessed in over 100 years of National Museums of Kenya existence. The onset of Covid-19 pandemic has severely affected the operations to a point where our services are grounding to a halt. National Museums of Kenya over the years has been funding its internal operations and maintenance expenses through internally generated revenue. This amount has averaged between Kshs. 250 to 300 million annually.

As a result of the effect of Covid-19 pandemic which has included cessation of international travel, closing of the schools, closing of Museums galleries, sites and monuments, our revenues have drastically declined to Kshs. 101 million compared to the approved budget estimate of Kshs. 300 million. It is for this reason that the National Museums of Kenya Board of Directors and Management are making a plea to The National Treasury for a bailout package of Kshs.609 million that include payment of Contracted services such as security, cleaning services, garbage collection among others;

NATIONAL MUSEUMS OF KENYA
Annual Reports and Financial Statements
For the Year Ended June 30, 2021

and to cater for conservation of the World Heritage collections held at the National Museums of Kenya, and restoration of sites and monuments. If this package does not come through, the Collective Memory of the Nation will be lost which will not only be a tragedy for Kenya but the whole World.

In the coming year, the National Museums of Kenya may not be able to collect and realize its internal revenue targets due to the mutating pandemic that is now in its 4th variant and indeed several countries have banned international travel to Kenya.

I am delighted to report that we received some support from Sport, Arts and Social Development Fund for development and managed to complete the Kshs.64 Million Vasco Da Gama Pillar Sea wall project. This project was aimed at protecting the Vasco Da Gama Pillar from effects of climate change occasioning rise of sea levels. The pillar is now secure from the strong waves of the Indian Ocean that had caused the cliff from which Vasco Da Gama Pillar stands on to erode over the years threatening it to collapse into the ocean.

NMK is also exploring ways to put all our Research and Heritage Assets on line to take advantage of the evolving frontier of virtual access tourism. It requires a bit of investment and it is for that reason we are partnering with players such as Google, Amazon, Digital Divide and others to deliver this new service to all our audience and visitors.

In addition, in order to remain relevant and to continue to be an active player in government business, NMK has revised its Strategic Plan and aligned it to the Big 4 and Vision 2030 National Agenda. The 2020-2022 Strategic Plan continues to underscore that the greatest resource to the success of this great Research Institution are my staff. The selfless dedication of the NMK board, Management and Staff towards NMK achieving and maintaining our world-class status as a Museum is greatly appreciated.

Stanvas Ongalo

Ag. Director General
Date: 9th May 2022

VI. NATIONAL MUSEUMS OF KENYA ORGANIZATIONAL ENTITY 'S PERFORMANCE FOR FY 2020/2021

National Museums of Kenya has 3 strategic pillars and 8 objectives within its Strategic Plan for the FY 2020/2021-2022/2023. These strategic pillars are as follows:

- i. Pillar 1: Sustainable Heritage Development and Management
- ii. Pillar 2: Innovative Research
- iii. Pillar 3: Sharing of Knowledge

NMK develops its annual work plans based on the above 3 pillars. Assessment of the Board's performance against its annual work plan is done on a quarterly basis. NMK achieved its performance targets set for the FY 2020/2021 period for its 3 strategic pillars, as indicated in the table below:

NMK's Strategic Pillars and Objectives

Strategic Pillar	Objectives	Key Performance Indicators	Key Activities	Achievements
Pillar 1: Sustainable Heritage Development and Management	Enhancing innovative and sustainable research, development, preservation, conservation, modernization and access to antiquities, sites and monuments for the benefit of the country humanity.	101 Sites identified in 47 Counties	Identify two key sites/monuments in each of the 47 counties to empower communities to economically benefit from the sites	Identification of the key sites/monuments had been done in the previous FY
		101 sites interpreted and information materials developed	Research and document historical significance of each of the 101 site/monument, including 7 World Heritage Sites and gazette any of the site/monuments that have not been gazette.	Research and documentation of the sites' historical significance had been done
		1 coffee table book published, and 47 sites integrated into tourism circuits	Develop a coffee table book and tourism circuits for 101 Sites and monuments	This activity has not been done

ANNUAL REPORTS AND FINANCIAL STATEMENTS
 For the Year Ended June 30, 2021

Strategic Pillar	Objectives	Key Performance Indicators	Key Activities	Achievements
		<p>100% digitization of museums, sites and monuments</p>	<p>Develop a digital programme for digitization of museums, sites and monuments</p>	<p>Digitization of collections at Jumba and Mnarani was planned to take place. However, this target is yet to be achieved as the Principal Investigator responsible for the project was not able to travel from South Africa as planned, due to the Covid 19 pandemic. The process of digitization will commence as soon as the identified digitizing team is able to travel from South Africa, beyond the FY 2020/21.</p>
		<p>50 NMK staff and identified 7 local communities trained</p>	<p>Train 50 NMK staff and 7 communities in digital heritage monitoring</p>	<p>Training of staff and communities in digital heritage monitoring was dependent on the digitizing team which is yet to travel from South Africa as a result of the Covid 19 travel restrictions.</p>
		<p>3 underutilized sites and monument developed and opefor economic potential</p>	<p>Mapping out the economic potential of 3 underutilized sites & monuments</p>	<p>Mapping out the economic potential of 4 underutilized sites: Shimoni slave caves, Siyu Fort, Jumba ruins and Kongo mosque was done</p>
		<p>100% art works mounted on the NMK boundary wall and signage within NMK campus improved</p>	<p>Design, develop and mount art works on the NMK boundary wall and improve signage within NMK campus for branding improving image of NMK</p>	<p>4 art works developed and mounted on the NMK wall boundary. The target was 4 and was well achieved. This was part of the programme that saw wall arts mounted on different walls across the country</p>

AL I E U I F K A
 Annual Reports and Financial Statements
 For the Year Ended June 30, 2021

Strategic Pillar	Objectives	Key Performance Indicators	Key Activities	Achievements
		Complete identification of institutions and individuals holding Kenya's artefact unlawfully	Identify international institutions and individuals holding Kenya's artefact unlawfully as well as identify the artefacts/collections	Target was well achieved. The identification of museums in Europe holding Kenya's artifacts was done and a data base of the artifacts developed. An exhibition to create awareness on this also took place.
		100% completion of backfilling and restoration of phase II of Fort Jesus Sea wall	Develop designs, BQs and undertake backfilling and restoration of Phase II of Fort Jesus Sea Wall	As at 11 th June 2021, the overall status of work was 65% complete against an elapsed contract period of 102%. The contractor has prepared a revised works completion programme to speed up progress and has committed to have the work completed by July, 2021.
		100% rehabilitation of 12 Sites and mausoleums linked to national heroes	Repair, interpret and develop programs around 12 sites and mausoleums linked to national heroes	8 sites and mausoleums linked to national heroes rehabilitated.
		25 temporary exhibitions, 2 permanent exhibitions, 30 educational and public programmes and 2 cultural festivals	Conceptualize and actualize 25 temporary exhibitions, 2 permanent exhibitions, 30 educational and public programmes and 2 cultural festivals	Only one festival was held, the Rusinga cultural festival in December 2020. Malindi and Nairobi cultural festivals were planned but failed to kick off because of the Covid 19 pandemic. 18 temporary exhibitions and 50 interactive public programmes done

NATIONAL MUSEUMS OF KENYA
Annual Reports and Financial Statements
For the Year Ended June 30, 2021

Strategic Pillar	Objectives	Key Performance Indicators	Key Activities	Achievements
		100% development of STEM Curriculum, Lab and 3 festivals	Develop STEM curriculum as well as establish 1 STEM laboratory and 3 STEM Festivals at NMK for promotion of innovation in STEM	STEM curriculum was developed. The laboratory was not established due to lack of funds. The festivals too did not take place successfully due to Covid 19. One was organized for June 2021 but got poor response forcing the team to move it to July 2021.
		A concept paper and designs for the National Art Gallery of Kenya approved 50% of identified stakeholders engaged	Conceptualize, prepare design and engage stakeholders to develop a National Art Gallery of Kenya (NAGOK) to empower and promote the creative industry	The concept paper was prepared and submitted to the Ministry in 2020. NMK is still awaiting feedback
		A feasibility study and business plan completed	Undertake feasibility and business studies for NAGOK	Not done, awaiting feedback from the Ministry
		1 Mashujaa travelling exhibition and 1 outreach programme	Develop 2 Mashujaa travelling exhibition and 1 outreach programme to celebrate Kenya's heroes and target new audiences	3 digital exhibitions developed within the FY ('Utamaduni wetu exhibition'; Abasuba pictorial exhibition; Shujaa stories: 21 superheroes of Kenya)
		KHTI actualized and training initiated	Actualize KHTI through registration, development of curriculum and agreements with relevant stakeholders	Activities well achieved. Registration and curriculum development were done in 2019/2020
		KHTI and Swahili Pot enhanced with 3 digital programmes in heritage management for youth	Develop 3 digital programmes with the youth at KHTI and Swahili Pot for heritage management and promotion	Not achieved due to Covid 19

For the Year Ended June 30, 2021

NMK monitors the progress towards achievement the Strategic Plan (2020-2022) through:

- i. Preparation of annual implementation plans for the period 2020-2021 by all offices and directorates
- ii. Translation of the annual implementation plans into annual performance contracts and annual monitoring plan
- iii. Development and issuance of progress reports at all levels

In addition, NMK will undertake a rigorous and independent evaluation of completed and/or on-going activities to determine the relevance and fulfilment of strategic objectives, development efficiency, effectiveness, impact and sustainability. The evaluation of the strategic plan shall be undertaken at the end of the month of June in each financial year.

VII. CORPORATE GOVERNANCE STATEMENT

Corporate governance is the process by which institutions are directed, controlled and held to account.

BOARD OF DIRECTORS

National Museums of Kenya Board of Directors is responsible for overall management and is accountable to the Minister in charge of the Ministry of Sports, Culture and the Arts for ensuring that the institution complies with the law and the highest standards of best practice in corporate governance and ethics. The Directors are committed to the need to conduct the operations of the institution with integrity, in accordance with generally accepted corporate practice, and endorse the internationally developed principles of corporate governance. All the Board members are non-executive including the Chairman of the Board except the Director General who is the chief executive officer. The Cabinet Secretary in charge of Sports, Culture and the Arts appoints the Directors for a period of three years in accordance with the constitution.

BOARD MEETINGS

The Board meets at least four times a year. The Directors are given appropriate and timely information so that they can maintain full and effective control over strategic, financial, operational and compliance issues. The Board has delegated the day-to-day operations to the Director General who is the Chief executive officer. The Board nonetheless retains responsibility for establishing and maintaining the institutions internal controls in financial, operational and compliance issues as well as implementing strategies for the long-term success of the institution.

BOARD COMMITTEES

The Board has three standing committees, which meet regularly under the terms of reference set by the Board. In addition, there are two ad hoc committees; one for conducting interviews of senior staff and the other on Rules and Regulations of the Heritage Act. These committees are as follows:

NATIONAL MUSEUMS OF KENYA
Annual Reports and Financial Statements
For the Year Ended June 30, 2021

The Audit Committee

The Audit & Risk Management Committee forms a key element in the governance process by providing an independent expert assessment of the activities of top management, the quality of risk management, financial reporting, financial management and internal audit, to the board of directors.

The Finance and Establishment committee

The Committee is the prime mechanism through which the Board of Directors of National Museums of Kenya (NMK) ensures that the institution's decisions, policies and practice in relation to Finance, HR, procurement, infrastructural development and all processes are in full compliance with relevant policies, and statutory requirements, regulations, Mwongozo Code of Governance as well as the Board Charter.

Research Committee

The Research Committee of the Board generally deliberates all matters pertaining to research policy and management.

Ad hoc committee (as and when formed)

Ad hoc committees may be formed for different tasks as determined by the Board for example conducting of interviews for senior staff.

All board committees make recommendations to the full Board of Directors for consideration.

INTERNAL CONTROLS

These are processes for assuring achievement of the organization's objectives in operational effectiveness and efficiency, reliable financial reporting, and compliance with laws, regulations and policies. This involves everything that controls the risks of the organization and relates to authorization and approval of transactions, segregation of

NATIONAL MUSEUMS OF KENYA
Annual Reports and Financial Statements
For the Year Ended June 30, 2021

duties, supervision and monitoring of the activities, proper record keeping, ICT controls, valuation, custody and physical safeguards of the assets of the organization. It is the means by which the organization's resources are directed, monitored, and measured. It plays an important role in detecting and preventing fraud and protecting the organization's resources, both physical (e.g., machinery and property) and intangible (e.g., reputation or intellectual property such as trademarks).

At the organizational level, internal control objectives relate to the reliability of financial reporting, timely feedback on the achievement of operational or strategic goals, compliance with laws and regulations. At the specific transaction level, internal control refers to the actions taken to achieve a specific objective (e.g. how to ensure the organization's payments to third parties are for valid services rendered). Internal control procedures reduce process variation, leading to more outcomes that are predictable. The effectiveness of the internal controls depends on:

The Management

The responsibility of ensuring that the internal controls are in place and are duly adhered to rests with the management. The Chief Executive Officer (the top manager) has the overall responsibility of designing and implementing an effective internal control system and setting the "tone at the top" that affects integrity and ethics and other factors of a positive control environment. He fulfills this duty by providing leadership and direction to senior managers and reviews the way they are controlling the resources of the organization. Senior managers, in turn, assign responsibilities for establishment of more specific internal control policies and procedures to personnel responsible for the various departmental functions.

Board of Directors

Management is accountable to the Board of Directors, who provides governance, guidance and oversight. Effective Board members are objective, capable and inquisitive. They also have knowledge of the entity's activities and environment and commit the

NATIONAL MUSEUMS OF KENYA
Annual Reports and Financial Statements
For the Year Ended June 30, 2021

time necessary to fulfil their Board responsibilities. Management cannot at any one point in time override controls and ignore or stifle communications from subordinates, enabling a dishonest management, which intentionally misrepresents results to cover its tracks. Existence of a strong active Board particularly when coupled with effective upward communications channels and capable financial, legal and internal audit functions is often best able to identify and correct such a problem.

CUSTOMER SERVICE CHARTER

The Service Charter puts in place service standards that guide the National Museums of Kenya management and staff in provision of high services to its clients. This is keeping in line with existing laws, rules, regulations, norms, professional ethics and most important-customer expectations. The service Charter thus identifies areas in which the NMK operates, defines the responsibilities of the management and staff, describes the rights of clients and identifies key quality control indicators that will enable delivery of high quality services by NMK to all stakeholders/clients and the general public at large.

DIRECTORS' ALLOWANCES AND LOANS

The aggregate amount paid to Directors allowances for services rendered during 2020/2021 financial year are disclosed in the notes to the financial statements. There were no Directors loans at any time during the year.

VI. MANAGEMENT DISCUSSION AND ANALYSIS

The Entity's Operational and Financial Performance

The National Museums of Kenya internally generated revenue for twelve months stood at Kshs. 102,277,855 Government of Kenya recurrent and development grants at Kshs 996,210,000 and Kshs 15,300,000 respectively. In addition, the National Museums of Kenya secured funding from the Sports, Arts and Social Development Fund of Kshs. 54,037,592 and Kshs. 154,027,100 for recurrent and development respectively. The Management noted that the organization heavily relies on revenue from non-exchange transactions, which caters for its personnel emoluments as indicated in the chart below.

Sources of Revenue for the Year 2020/2021

TRENDS IN REVENUE GENERATION

Demand for efficient revenue collection

NMK has witnessed a decrease in all revenue collection points during the financial year as a result of closure of its revenue streams due to government directive given the global pandemic situation. However, NMK has put in place a few mechanisms which improved efficient revenue collection and still explores on how to install and operationalize the Enterprise Resource Planning System.

NATIONAL MUSEUMS OF KENYA
Annual Reports and Financial Statements
For the Year Ended June 30, 2021

Electronic Fund Transfer

As the world has become a small village with ICT and our country Kenya embracing it, NMK has no choice but to cope up. NMK has also embraced EFT's and mobile money as a mode of settlement of payment.

CHALLENGES AND OPPORTUNITIES

Physical infrastructure and Equipment

The physical infrastructure is old and dilapidated and available resources by the organization are not sufficient for repair and maintenance. The availability and functionality of laboratory equipment and infrastructure is critical in research. It is important that funds be allocated to replace the equipment and improve the infrastructure to avoid disruptions in service delivery.

Title Deeds

NMK is responsible of Heritage management in the country. In the process, the various governments have continued to allocate NMK parcel of land for preservation of historic sites. The acquisition of title deed for these allotments has been a great challenge to the organisation. Hence, the ownership and value of its assets in the financial statements does not reflect true state of affairs.

Automation of an Enterprise Resource Planning System

The National Museums of Kenya having several revenue stations across the country still operates manually. This makes it difficult to ascertain the total receipts and expenditure at any given period. This may lead to loss of revenues through pilferages at the various collection points hence posing a challenge for management to put or improve on their internal controls timely.

Marketing

The year 2020/2021 has seen the National Museums of Kenya develop online digital content, improve our website, produce brochures and form partnerships in the execution of our mandate.

Partnerships

GA&C: Google set up an Arts and Culture platform where Museums around the world are showcasing their galleries as well as their collections. The various museums are telling different stories on Heritage. NMK through this partnership has digitized 10,234 collections and created 51 online exhibitions geared towards pushing traffic to the NMK. This in return will improve revenue generation to the NMK. The cost of this project was met by Google firm

Export Promotion Council: NMK through this partnership is participating in Shanghai 2019 Expo and also we have submitted 4 projects to be exhibited in Dubai 2020. The NMK is benefiting through creation of awareness and promotion of Kenya Heritage both within and outside the country. The successful Expo is Kazakhstan Astana Expo, where NMK received more citizens.

KeNHA: Worked with KeNHA in putting up information on our sites on the general signs i.e. Road Signage's and Gantry Signs at strategic locations. successful locations are; Thimlich Ohinga, Rabai Museum and Karen Blixen which now has visible signage on the main roads leading to the Museum and on site. This is evidence in revenue growth from those Museums.

Kenya Tour Driver Guides: The tourism sector is a major player in the National Museums and more so that Tour Guides. We have engaged them and offered lectures that enlighten them on the benefit of bringing tourists to our sites. We also worked with the Tour Operator Companies to develop products that they can sell to their clients. Development of Coastal and Nairobi Circuits is a good strategy that the department is using to drive visitations to NMK Sites and Museums.

NATIONAL MUSEUMS OF KENYA
Annual Reports and Financial Statements
For the Year Ended June 30, 2021

Branding

Through the marketing team, we have improved NMK brand image through social media presence, website improvement and conducting customer satisfaction surveys. With this, it has made it easy for customers for visitors to conduct repeat visits, customer loyalty and improved customer satisfaction levels.

VII. ENVIRONMENTAL AND SUSTAINABILITY REPORTING

i) Sustainability strategy and profile

The National Museums of Kenya will require a projected total budget of about Kshs 17.55 billion over the next three years to implement the planned development programmes and activities in this Strategic Plan (2020-2022). These resources are anticipated that 50%, (Kshs 8.8 billion), 30% (Kshs.5.3billion) and 20% (Kshs.3.5 billion) will come from external sources, internally generated and the exchequer respectively. Mobilizing external resources will require appropriate collaboration and linkages with industry players. The resource mobilization will be enhanced through the following key strategies:

- a) Ensuring that seventy percent (70%) of the total income is generated from internal and external sources, with exchequer providing 30%.
- b) Operationalizing Cost Centres within the directorates of NMK
- c) Establish a Museum Entrepreneurship Development and Marketing Centre for coordinating product development, commercialization and marketing in collaboration with industry players.
- d) Develop a legal framework for establishing and operationalising the Endowment Fund for enhancing resource mobilization.
- e) Bid for ring fencing of resource for its conservation and heritage management with The National Treasury.

Globally, natural and cultural heritage are increasingly threatened with destruction not only by the traditional causes of decay, but also by changing social and economic conditions which aggravate the situation with even more formidable phenomena of damage or destruction. African nations face the challenge to develop and implement strategies that effectively address the need for balancing heritage conservation and other development needs. Convention parties to UNESCO therefore seek to effectively manage existing properties by recognising, documenting and formalising traditional management systems and fully incorporating them into existing management mechanisms. The challenges for Sub-Saharan Africa to build on its limited archaeological heritage and

realize economic benefit from sustainable development of these important assets is largely due to lack of expertise and available experience.

ii) Environmental performance

The NMK is committed to protection and enhancement of the local and global environment, health and safety in natural and cultural heritage research and collection management. NMK as an institution, its institutes, centers, staff and stakeholders are expected to consciously think about their role in managing Environmental health and safety (EHS) issues and act in ways consistent with:

- i. Reduction of negative social and environmental risks
- ii. Conservation and prudent utilization of resources
- iii. Respect for biodiversity and natural systems.

Here is an outline of some of the many successes achieved:

- i. **EHS committee:** NMK has established EHS committee, which has promoted environment, health and safety inspections and undertaken awareness and education. Such as raising awareness about benefits of using protective materials in the laboratories where chemicals and reagents are used in research, collections and exhibitions.
- ii. **Energy efficiency:** Ensuring energy efficiency and conservation throughout our operations is important, as it impacts both our greenhouse gas (GHG) footprint and our cost structure. NMK has appropriately replaced incandescent bulbs with energy saving bulbs.
- iii. **Water conservation:** Our operations are not relatively water intensive but as national/ global water consumption has increased at a fast pace we work to use water carefully and responsibly in our operations. Primary water uses include mainly sanitation and employee consumption. NMK is constantly investing in water conservation by having timed taps, checking water leakages as routine measures to minimize water wastage.
- iv. **Tree planting:** NMK has endeavored to invest to support seedling production at the Nairobi Botanic Garden and through funded projects at community sites.

NATIONAL MUSEUMS OF KENYA
Annual Reports and Financial Statements
For the Year Ended June 30, 2021

Additionally, NMK has participated in tree planting exercises involving staff and management.

- v. **Biodiversity conservation:** NMK has a long track record of supporting biodiversity research projects. Additionally, NMK has been a key and relevant led agency in multi-agency committees for Environmental matters in accordance with the Environmental management and coordination Act, EMCA 1999 championing for biodiversity conservation.
- vi. **Climate strategy:** NMK incorporate climate change considerations into all aspects of our business strategy. Among the climate change considerations are events can threaten business continuity. We are continually refining our disaster response plans and we recently constructed the sea wall to protect the Fort Jesus Museum.
- vii. **Environmental audits:** Environmental audits are undertaken as per the regulatory standards and sound environmental practice.
- viii. **Stakeholder engagement:** NMK has a systematic approach to stakeholder engagement. Every two years, NMK runs open days/scientific conferences to share the research activities and findings with key stakeholders which range from research partners, NGOs, community groups, government agencies, research institutions and scientific academies. This engagement has been essential in aiding NMK stay abreast of current trends, perspectives and policy matters that affect our service, customers and collaborators.
- ix. **Physical structures:** NMK has provided for adequate signage and visitor information within the Museum compound.
- x. **Dust management:** NMK has provided for well paved roads and car parks limiting dust emission from vehicles within the compound.

Outline shortcomings:

Financial constraints to meet some of the targets such as production of seedlings and to carry out environmental audit in the regional museums.

Efforts to manage biodiversity:

NATIONAL MUSEUMS OF KENYA
Annual Reports and Financial Statements
For the Year Ended June 30, 2021

NMK takes cognizance of biodiversity and environmental impacts when making decisions relating to planning, landscaping, facilities management and construction. NMK is running diverse projects on biodiversity conservation and monitoring as part of its mandate. Additionally, NMK partners with diverse institutions in monitoring species and their habitats for enhancing their survival.

Waste management policy:

Solid waste management policy at NMK focuses on adoption of waste separation, investing in waste disposal infrastructure and investing in sensitization of cleaning service providers. Electronic waste material (e-waste) such as old or broken computers, printers, copiers, and other hazardous waste is an area of significant environmental concern to us that is a fast-growing waste segment. To prevent these hazardous waste from entering the country's dump sites or landfills. NMK's e-waste policy was developed and is keenly implemented.

iii) Employee welfare

The policies guiding the hiring process are borrowed from the Public Service Commission- Human Resource Policies and Procedures Manual for the Public Service, May, 2016 and the NMK Terms and Conditions of Service and Procedures Manual.

Recruitment is undertaken on the basis of fair competition and merit; representation of Kenya's diverse communities; adequate and equal opportunities to all gender, youth, members of all ethnic groups, persons with disabilities and minorities.

All vacant positions are filled in competitively through advertisements, followed by interviews conducted by relevant committees.

Policies are reviewed after every five (5) years.

Efforts made in:

NATIONAL MUSEUMS OF KENYA
Annual Reports and Financial Statements
For the Year Ended June 30, 2021

- a) Improving skills and managing careers; mentoring, training and development of staff, job rotation, staff attend seminars and workshops relevant to their areas of specialization.
- b) Appraisal- done annually
- c) Reward systems-award of salary bonus

It is the policy of the National Museums of Kenya to enforce appropriate measures to control and monitor health and safety procedures to ensure a safe and healthy working environment for all employees, and those who may be affected by our undertakings. The Health Safety and Environment (HSE) Committee has the ultimate responsibility for health and safety in the organization, and the protection of its environment.

The National Museums of Kenya is committed to protection and enhancement of the local and global environment, health and safety in in natural and cultural heritage research and collection management, National Museums of Kenya as an organization, its institutes and centres, staff and stakeholders are expected to consciously THINK about their role in managing EHS issues and ACT in ways consistent with the following fundamental principles:

- a) (Reduction) Commitment to reduction of negative social and environmental risks,
- b) Conservation and prudent utilization of resources and
- c) Respect for biodiversity and natural systems.

iv) Market place practices: -

a) Responsible competition practice:

The National Museums of Kenya is believing in inclusivity and stakeholder engagement. For this reason, the National Museums of Kenya engages regularly with stakeholders in Education as well as those in the Tourism sector as they represent the largest client groups visiting the Museums.

All Museum gate fees are gazette, and are very competitive in the market. They ensure that majority of Kenyans can afford to visit a Museum that is near them. Other prices, like Venue hire, are currently being revisited because of the Covid-19 restrictions on permissible numbers, and spacing at the select venues.

In a bid to embrace safety during the pandemic, we are now accepting mobile money and card payment only at our sites. This has greatly increased accountability at our various ticketing offices around the country.

b) Responsible Supply Chain and Supplier relations:

The National Museums of Kenya ensures that the Finance Team, the Procurement Team and the Accounting Officer are working together. All procurement must be approved by the Accounting Officer – who is the Director General. The Director General will only approve procurement of items he is sure NMK can afford to pay for.

c) Responsible marketing and advertisement:

One of the largest consumer groups at the National Museums of Kenya are schools. NMK therefore has to be extremely careful in the language used in the adverts, and the placement of the adverts. We are also careful on the type of sponsors we seek for events targeting children. We are careful to not to target the children directly, but to go through their guardians; teachers and parents. Our advertising is sensitive to the diverse nature of Kenya's population.

d) Product stewardship:

NMK is in constant communication with target group leads like Schools, and Tour Operators who bring feedback from their clients; the student, teachers and tourists. This has allowed us to ensure that all visitor feedback is taken seriously and addressed with urgency. There are also Visitor Books whose content is analysed by the Public Relations Department, and an internal committee assesses the feedback.

VIII. REPORT OF THE DIRECTORS

The Directors submit their report together with the audited financial statements for the year ended June 30, 2021, which show the state of the Organizations affairs.

Results

The results of the Organizations for the year ended June 30, 2021 are set out on page 60 to 63

Board of Directors

The members of the Board of Directors who served during the year are as shown on page 7 to 11

Surplus remission

In accordance with Regulation 219(2) of the Public Financial Management (National Government) Regulations, regulatory entities shall remit into consolidated fund, ninety per centum of its surplus funds reported in the audited financial statements after the end of each Financial Year. Or the entity remitted Kshs, Nil (FY 2020 Kshs. Nil), The entity did not make any surplus during the year (FY 2020 Kshs. Nil) and hence no remittance to the Consolidated Fund, (Entities to edit accordingly)

Auditors

The Auditor General is responsible for the statutory audit of the organization in accordance with Article 229 of the Constitution of Kenya and the Public Audit Act 2015, which empowers the Auditor General to nominate other auditors to carry out the audit on his behalf.

By Order of the Board

Corporate Secretary/Secretary to the Board

IX. STATEMENT OF DIRECTORS' RESPONSIBILITIES

Section 81 of the Public Finance Management Act, 2012 and section 23 of the National Museums and Heritage Act of 2006, requires the Directors to prepare financial statements. The financial statements should give a true and fair view of the state of affairs of the National Museums of Kenya at the end of the financial year/period and the operating results of the Organization for that year/period. The Directors are also required to ensure that the Organization keeps proper accounting records, which disclose with reasonable accuracy the financial position of the organization. The Directors are also responsible for safeguarding the assets of the National Museums of Kenya.

The Directors are responsible for the preparation and presentation of the organization's financial statements, which give a true and fair view of the state of affairs of the organization for and as at the end of the financial year ended on June 30, 2021.

This responsibility includes:

- i. Maintaining adequate financial management arrangements and ensuring that these continue to be effective throughout the reporting period;
- ii. Maintaining proper accounting records, which disclose with reasonable accuracy at any time the financial position of the entity;
- iii. Designing, implementing and maintaining internal controls relevant to the preparation and fair presentation of the financial statements, and ensuring that they are free from material misstatements, whether due to error or fraud;
- iv. Safeguarding the assets of the organization;
- v. Selecting and applying appropriate accounting policies; and
- vi. Making accounting estimates that are reasonable in the circumstances.

The Directors accept responsibility for the organizations financial statements, which have been prepared using appropriate accounting policies supported by reasonable and prudent judgements and estimates, in conformity with International Public Sector Accounting Standards (IPSAS), and in the manner required by the PFM Act and the State Corporations

NATIONAL MUSEUMS OF KENYA
Annual Reports and Financial Statements
For the Year Ended June 30, 2021

Act. The Directors are of the opinion that the organization's financial statements give a true and fair view of the state of organization's transactions during the financial year ended June 30, 2021 and of the organization's financial position as at that date. The Directors further confirm the completeness of the accounting records maintained for the organization, that have been relied upon in the preparation of the organization financial statements as well as the adequacy of the systems of internal financial control.

Nothing has come to the attention of the Directors to indicate that the organization will not remain a going concern for at least the next twelve months from the date of this statement.

APPROVAL OF THE FINANCIAL STATEMENTS

The Organization's financial statements approved by the Board on 30th September 2021 and signed on its behalf by:

Ag. Director General

REPUBLIC OF KENYA

Telephone: +254-(20) 3214000
E-mail: info@oagkenya.go.ke
Website: www.oagkenya.go.ke

NAIROBI

REPORT OF THE AUDITOR-GENERAL ON NATIONAL MUSEUMS OF KENYA FOR THE YEAR ENDED 30 JUNE, 2021

PREAMBLE

I draw your attention to the contents of my report which is in three parts:

- A. Report on the Financial Statements that considers whether the financial statements are fairly presented in accordance with the applicable financial reporting framework, accounting standards and the relevant laws and regulations that have a direct effect on the financial statements.
- B. Report on Lawfulness and Effectiveness in Use of Public Resources which considers compliance with applicable laws, regulations, policies, gazette notices, circulars, guidelines and manuals and whether public resources are applied in a prudent, efficient, economic, transparent and accountable manner to ensure Government achieves value for money and that such funds are applied for intended purpose.
- C. Report on Effectiveness of Internal Controls, Risk Management and Governance which considers how the entity has instituted checks and balances to guide internal operations. This responds to the effectiveness of the governance structure, the risk management environment, and the internal controls developed and implemented by those charged with governance for orderly, efficient and effective operations of the entity.

An unmodified opinion does not necessarily mean that an entity has complied with all relevant laws and regulations, and that its internal controls, risk management and governance systems are properly designed and were working effectively in the financial year under review.

The three parts of the report are aimed at addressing the statutory roles and responsibilities of the Auditor-General as provided by Article 229 of the Constitution, the Public Finance Management Act, 2012 and the Public Audit Act, 2015. The three parts of the report, when read together constitute the report of the Auditor-General.

REPORT ON THE FINANCIAL STATEMENTS

Qualified Opinion

I have audited the accompanying financial statements of National Museums of Kenya set out on pages 60 to 97, which comprise the statement of financial position as at

30 June, 2021, the statement of financial performance, statement of changes in net assets, statement of cash flows, statement of comparison of budget and actual amounts, and a summary of significant accounting policies and other explanatory information in accordance with the provisions of Article 229 of the Constitution of Kenya and Section 35 of the Public Audit Act, 2015. I have obtained all the information and explanations, which, to the best of my knowledge and belief, were necessary for the purpose of the audit.

In my opinion, except for the effect of the matters described in the Basis for Qualified Opinion section of my report, the financial statements present fairly, in all material respects, the financial position of the National Museums of Kenya as at 30 June, 2021, and of its financial performance and its cash flows for the year then ended, in accordance with International Public Sector Accounting Standards (Accrual Basis) and comply with the National Museums and Heritage Act, 2006 and the Public Finance Management Act, 2012.

Basis for Qualified Opinion

1. Understated Property Plant and Equipment

The Statement of financial position reflects Kshs.3,685,937,571 in respect of property, plant and equipment which, as disclosed in Note 14 to the financial statements, includes land with a book value of Kshs.1,575,127,445 which has not been valued since 1990. As previously reported, the National Museum of Kenya has one hundred and fifty (150) parcels of land spread across the country, out of which only forty-three (43) parcels had title deeds and the remaining 107 parcels have no ownership documents.

Further, the property, plant and equipment net book value of Kshs.3,685,937,571 includes heritage assets whose value could not be verified due to lack of a fixed assets register. The National Museums has not disclosed the heritage assets that have future economic benefits or service potential other than their current heritage value, and those heritage assets whose future economic benefit or service potential is limited to their heritage characteristics.

In addition, no disclosure has been made on other heritage assets such as the measurement basis, method used, gross carrying amount and accumulated depreciation at the end of the year.

In the circumstances, the accuracy and completeness of Property, Plant and Equipment of Kshs.3,685,937,571 as at 30 June, 2021 could not be confirmed.

2. Long outstanding Trade and Other Payables

The Statement of financial position reflects trade and other payables from exchange transactions totalling to Kshs.276,849,681 as disclosed in Note 15 to the financial statements. Review of the documents and schedules provided for audit reflected an amount of Kshs.61,639,784 in respect to outstanding bills, some dating as far back as the financial year 2006/2007. No explanation was given as to why the bills were not cleared during the year under review despite the corporation reporting a cash and cash equivalent of Kshs.88,507,231, as at 30 June, 2021.

In the circumstances, the existence of the trade payables balance of Kshs.61,639,784 and the Management's obligation on the liabilities could not be ascertained.

3. Uncertainty Related to Sustainability of Services

The statement of financial position reflects current liabilities of Kshs.276,849,681 against current assets of Kshs.137,675,568 resulting to a negative working capital of Kshs.139,174,113. Further, the Corporation recorded a deficit of Kshs.434,664,345 which depleted revenue reserves from 12,940,522 to negative 421,723,823 as reflected in the statement of changes in net assets. This precarious financial position has not been disclosed in the financial statements.

The Corporation is therefore not in a position to meet its current financial obligations as they fall due and largely depends on creditors and Governments grants to meet its day to day operations.

The audit was conducted in accordance with International Standards of Supreme Audit Institutions (ISSAIs). I am independent of the National Museums of Kenya Management in accordance with ISSAI 130 on Code of Ethics. I have fulfilled other ethical responsibilities in accordance with the ISSAI and in accordance with other ethical requirements applicable to performing audits of financial statements in Kenya. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my qualified opinion.

Key Audit Matters

Key audit matters are those matters that, in my professional judgment, are of most significance in the audit of the financial statements. There were no key audit matters to report in the year under review.

Other Matter

Budgetary Control and Performance

The statement of comparison of budget and actual amounts reflects final budget and actual on comparable basis of Kshs.1,336,810,000 and Kshs.1,884,173,816 respectively, resulting to an over expenditure of Kshs.547,363,816 or 41% of the budget.

The National Treasury/Board approval was not provided to justify the over-expenditure.

Prior Year Audit Matters

In the audit report of the previous year, a number of issues were raised under the report on financial statements. However, Management has not resolved the issues nor disclosed all the prior year matters as required by the reporting templates.

REPORT ON LAWFULNESS AND EFFECTIVENESS IN USE OF PUBLIC RESOURCES

Conclusion

As required by Article 229(6) of the Constitution, based on the audit procedures performed, except for the matter described in the Basis for Conclusion on Lawfulness and Effectiveness in Use of Public Resources, I confirm that, nothing else has come to my attention to cause me to believe that public resources have not been applied lawfully and in an effective way.

Basis for Conclusion

1. Stalled Fort Jesus UNESCO World Heritage Site, Mombasa County

The contract was awarded to a local Company at a contract sum of Kshs.226,022,710. The project commenced on 3 September, 2020 with a completion date of 3 March, 2021 which was then revised twice to 3 June, 2021 (39 weeks) 15 September, 2021 (53 weeks). It was noted that both of these periods had already elapsed, and still the works are yet to be completed. Further, the company was paid a total of Kshs.108,365,552 by the end of the period under review.

Audit verification in the month of February, 2022 indicated that the following works were outstanding;

- i. A football pitch; the public works officer informed the team that there was presidential directive to have an ablution block built on the pitch. Excavations had been done but the ablution block had not been built.
- ii. Lower garden retaining wall (centre portion)
- iii. Lower garden ramp (slab and balustrades)
- iv. Play structures installation (sand, picket fence and play structure set up)
- v. Irrigation fittings and pump installation
- vi. Ablution block plumbing fittings installation
- vii. Ablution block internal doors supply and installation
- viii. Lower garden landscaping (grassing and ground covers)
- ix. Lower garden storm water drainage
- x. Supply of garden waste receptacle.
- xi. Installation of garden lights and CCTV
- xii. Pump house and water tank plinth
- xiii. Concrete wall at the ends of the sea wall to lower gardens

The contractor was not on site and had not been on the ground since December, 2021.

In the circumstances, the delay in completion of the project may result in cost escalation and the public may not get value for money of Kshs.108,365,552 already paid.

2. Poor Construction of the Proposed Vasco Da Gama Seawall and Concrete Repairs

The project commenced on 25 May, 2020 and was supposed to be completed on 10 May, 2021 at a contract sum of Kshs.59,349,235. Although the contractor had finished

the works and handed over the project to National Museum of Kenya, audit verification during the month of February revealed that the pavement on the eastern wall had cracked and part of the ground had sank, casting doubt whether that side had been filled with gunny bags or selected boulders as proposed in the Bills of Quantities. In addition, the central walk way pavement concrete had cracked.

In addition, as per the Bills of Quantities, 40 feet containers and furniture of Kshs.500,000 and Kshs.200,000 respectively, initially acquired for the resident engineer's use were to revert to the employer. However, it was established that the container and furniture had not been handed over to the National Museums as indicated in the Bill of Quantities.

Consequently, the poor workmanship could be indicative of a lack of supervision and disregard to the desired value for money to the public.

REPORT ON EFFECTIVENESS OF INTERNAL CONTROLS, RISK MANAGEMENT AND GOVERNANCE

Conclusion

As required by Section 7(1)(a) of the Public Audit Act, 2015, based on the audit procedures performed I confirm that, nothing has come to my attention to cause me to believe that internal controls, risk management and overall governance were not effective.

Basis for Conclusion

The audit was conducted in accordance with ISSAI 2315 and ISSAI 2330. The standards require that I plan and perform the audit to obtain assurance about whether effective processes and systems of internal control, risk management and overall governance were operating effectively, in all material respects. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

Responsibilities of Management and the Board of Directors

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Public Sector Accounting Standards (Accrual Basis) and for maintaining effective internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error and for its assessment of the effectiveness of internal control, risk management and governance.

In preparing the financial statements, Management is responsible for assessing the National Museum's ability to sustain services, disclosing, as applicable, matters related to sustainability of services and using the applicable basis of accounting unless Management is aware of the intention to abolish the National Museums or to cease operations.

Management is also responsible for the submission of the financial statements to the Auditor-General in accordance with the provisions of Section 47 of the Public Audit Act, 2015.

In addition to the responsibility for the preparation and presentation of the financial statements described above, Management is also responsible for ensuring that the activities, financial transactions and information reflected in the financial statements are in compliance with the authorities which govern them, and that public resources are applied in an effective way.

The Board of Directors is responsible for overseeing the National Museums' financial reporting process, reviewing the effectiveness of how the National Museum monitors compliance with relevant legislative and regulatory requirements, ensuring that effective processes and systems are in place to address key roles and responsibilities in relation to governance and risk management, and ensuring the adequacy and effectiveness of the control environment.

Auditor-General's Responsibilities for the Audit

The audit objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion in accordance with the provisions of Section 48 of the Public Audit Act, 2015 and submit the audit report in compliance with Article 229(7) of the Constitution. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISSAIs will always detect a material misstatement and weakness when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

In addition to the audit of the financial statements, a compliance audit is planned and performed to express a conclusion about whether, in all material respects, the activities, financial transactions and information reflected in the financial statements are in compliance with the authorities that govern them and that public resources are applied in an effective way, in accordance with the provisions of Article 229(6) of the Constitution and submit the audit report in compliance with Article 229(7) of the Constitution.

Further, in planning and performing the audit of the financial statements and audit of compliance, I consider internal control in order to give an assurance on the effectiveness of internal controls, risk management and governance processes and systems in accordance with the provisions of Section 7(1)(a) of the Public Audit Act, 2015 and submit the audit report in compliance with Article 229(7) of the Constitution. My consideration of the internal control would not necessarily disclose all matters in the internal control that might be material weaknesses under the ISSAIs. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may

occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Because of its inherent limitations, internal control may not prevent or detect misstatements and instances of non-compliance. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the National Museums' policies and procedures may deteriorate.

As part of an audit conducted in accordance with ISSAIs, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of the Management's use of the applicable basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the National Museum's ability to continue to sustain services. If I conclude that a material uncertainty exists, I am required to draw attention in the auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my audit report. However, future events or conditions may cause the National Museums to cease to sustain its services.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information and business activities of the National Museums to express an opinion on the financial statements.
- Perform such other procedures as I consider necessary in the circumstances.

I communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that are identified during the audit.

I also provide Management with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships

and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

CPA Nancy Gathungu, CBS
AUDITOR-GENERAL

Nairobi

NATIONAL MUSEUMS OF KENYA
Annual Reports and Financial Statements
For the Year Ended June 30, 2021

XV. NOTES TO THE FINANCIAL STATEMENTS

1. General Information

National Museums of Kenya is established by and derives its authority and accountability from National Museums and Heritage Act. The entity wholly owned by the Government of Kenya and is domiciled in Kenya. The entity's principal activity is establishment of National Museums and the identification, protection, conservation and transmission of the cultural and natural heritage of Kenya

2. Statement of Compliance and Basis of Preparation

The financial statements have been prepared on a historical cost basis except for the measurement at re-valued amounts of certain items of property, plant and equipment, financial instruments at fair value and actuarially determined liabilities at their present value. The preparation of financial statements in conformity with International Public Sector Accounting Standards (IPSAS) allows the use of estimates and assumptions. It also requires management to exercise judgement in the process of applying the Organization's accounting policies. The areas involving a higher degree of judgement or complexity, or where assumptions and estimates are significant to the financial statements.

The financial statements have been prepared and presented in Kenya Shillings, which is the functional and reporting currency of the National Museums of Kenya . The cash flow statement is prepared using indirect method.

The financial statements have been prepared in accordance with the PFM Act, the State Corporations Act and International Public Sector Accounting Standards (IPSAS). The accounting policies adopted have been consistently applied to all the years presented.

NATIONAL MUSEUMS OF KENYA
Annual Reports and Financial Statements
For the Year Ended June 30, 2021

Adoption of New and Revised Standards

- i. Relevant new standards and amendments to published standards effective for the year ended 30 June 2020

Standard	Impact
IPSAS 40: Public Sector Combinations	Applicable: 1st January 2019 The standard covers public sector combinations arising from exchange transactions in which case they are treated similarly with IFRS 3 (applicable to acquisitions only). Business combinations and combinations arising from non-exchange transactions are covered purely under Public Sector combinations as amalgamations.

- ii. New and amended standards and interpretations in issue but not yet effective in the year ended 30 June 2020

Standard	Effective date and impact:
IPSAS 41: Financial Instruments	Applicable: 1 st January 2022: The objective of IPSAS 41 is to establish principles for the financial reporting of financial assets and liabilities that will present relevant and useful information to users of financial statements for their assessment of the amounts, timing and uncertainty of an entity's future cash flows. IPSAS 41 provides users of financial statements with more useful information than IPSAS 29, by: <ul style="list-style-type: none"> • Applying a single classification and measurement model for financial assets that considers the characteristics of the asset's cash flows and the objective for which the asset is held; • Applying a single forward-looking expected credit loss model that is applicable to all financial instruments subject to impairment testing; and • Applying an improved hedge accounting model that broadens the hedging arrangements in scope of the guidance. The model develops a strong link between an entity's risk management strategies and the accounting treatment for instruments held as part of the risk management strategy.

NATIONAL MUSEUMS OF KENYA
Annual Reports and Financial Statements
For the Year Ended June 30, 2021

Standard	Effective date and impact:
<p>IPSAS 42: Social Benefits</p>	<p>Applicable: 1st January 2022</p> <p>The objective of this Standard is to improve the relevance, faithful representativeness and comparability of the information that a reporting entity provides in its financial statements about social benefits. The information provided should help users of the financial statements and general purpose financial reports assess:</p> <ul style="list-style-type: none"> (a) The nature of such social benefits provided by the entity; (b) The key features of the operation of those social benefit schemes; and (c) The impact of such social benefits provided on the entity's financial performance, financial position and cash flows.
<p>Amendments to Other IPSAS resulting from IPSAS 41, Financial Instruments</p>	<p>Applicable: 1st January 2022:</p> <ul style="list-style-type: none"> (a) Amendments to IPSAS 5, to update the guidance related to the components of borrowing costs which were inadvertently omitted when IPSAS 41 was issued. (b) Amendments to IPSAS 30, regarding illustrative examples on hedging and credit risk which were inadvertently omitted when IPSAS 41 was issued. (c) Amendments to IPSAS 30, to update the guidance for accounting for financial guarantee contracts which were inadvertently omitted when IPSAS 41 was issued. <p>Amendments to IPSAS 33, to update the guidance on classifying financial instruments on initial adoption of accrual basis IPSAS which were inadvertently omitted when IPSAS 41 was issued.</p>
<p>Other Improvements to IPSAS</p>	<p>Applicable: 1st January 2021:</p> <ul style="list-style-type: none"> a) Amendments to IPSAS 13, to include the appropriate references to IPSAS on impairment, in place of the current references to other international and/or national accounting frameworks b) IPSAS 13, Leases and IPSAS 17, Property, Plant, and Equipment. Amendments to remove transitional provisions which should have been deleted when IPSAS 33, First Time Adoption of Accrual Basis International Public Sector Accounting Standards (IPSASs) was approved c) IPSAS 21, Impairment of Non-Cash-Generating Assets and IPSAS 26, Impairment of Cash Generating Assets. Amendments to ensure consistency of impairment guidance to account for revalued assets in the scope of IPSAS 17, Property, Plant, and

	<p>Equipment and IPSAS 31, Intangible Assets.</p> <p>d) IPSAS 33, First-time Adoption of Accrual Basis International Public Sector Accounting Standards (IPSASs).</p> <p>Amendments to the implementation guidance on deemed cost in IPSAS 33 to make it consistent with the core principles in the Standard</p>

iii. Early adoption of standards

The entity did not early – adopt any new or amended standards in year 2021.

Summary of significant accounting policies

- a) Revenue Recognition
- b) Revenue from non-exchange transactions

Transfers from government entities

Revenues from non-exchange transactions with other government entities are measured at fair value and recognized on obtaining control of the asset (cash, goods, services and property) if the transfer is free from conditions and it is probable that the economic benefits or service potential related to the asset will flow to the entity and can be measured reliably.

Government Grants

- i. Recurrent government grant credited to the Statement of Financial Performance based on the payment made by the government of Kenya.
- ii. Development grant is credited to the Statement of Financial Performance based on the amount spent. The unspent amount is deferred until spent.

Project income

These are funds earmarked for specific projects mostly dealing with Research in particular areas. The projects funds are credited to a deposit Account when received and only transfer the amount spent each month to income. In this case, income and expenditure are always the same. The balance remains in the respective deposit account.

NATIONAL MUSEUMS OF KENYA
Annual Reports and Financial Statements
For the Year Ended June 30, 2021

c) Taxation

The National Museums of Kenya adheres to taxation laws through timely filing of its tax obligations. VAT and excise duty are exempted on case by case-on application to the National Treasury and Kenya Revenue Authority.

d) Revenue from exchange transactions

Rendering of services

The entity recognizes revenue from rendering of services to the public through gate admissions.

Sale of goods

Revenue from the sale of goods is recognized when the significant risks and rewards of ownership have been transferred to the buyer, usually on delivery of the goods and when the amount of revenue can be measured reliably.

Interest income

Interest income is accrued using the negotiated rate.

Rental income

Rental income arising from operating leases on investment properties is accounted for upon realization.

e) Property, Plant and Equipment

Property, Plant and Equipment is stated at historical cost less accumulated depreciation. The assets are not depreciated in the year of purchase. Depreciation is calculated on the reducing balance basis to write down the cost of each asset to its residual value over its estimated useful life using the following rates:

- Motor Vehicles 25%
- Equipment and furniture 12.5%
- Computers 25%
- Buildings 1%

NATIONAL MUSEUMS OF KENYA
Annual Reports and Financial Statements
For the Year Ended June 30, 2021

f) Exhibits and Collections

As a policy, no value has been placed on exhibits, study collection and fixtures. Museum Exhibits have no commercial value, and the study collection is priceless.

g) Purchase of Animals

Purchase of primates is expensed in the financial performance statement at the time of purchase.

h) Financial Instruments

(i) Financial Assets

Initial recognition and measurement

Financial assets within the scope of IPSAS 29 Financial Instruments: Recognition and Measurement are classified as financial assets at fair value through surplus or deficit and receivables, held-to-maturity investments or available-for-sale financial assets, as appropriate. The organization determines the classification of its financial assets at initial recognition.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognized on the trade date, i.e., the date that the organization commits to purchase or sell the asset.

The National Museums of Kenya financial assets include cash and short-term deposits; trade and other receivables.

Derecognition

The organization derecognizes a financial asset or, where applicable, a part of a financial asset or part of a group of similar financial assets when; The rights to receive cash flows from the asset have expired or is waived, the organization has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party; and either: (a) the organization has

NATIONAL MUSEUMS OF KENYA
Annual Reports and Financial Statements
For the Year Ended June 30, 2021

transferred substantially all the risks and rewards of the asset; or (b) the organization has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

(ii) Financial Liabilities

Initial Recognition and Measurement

Financial liabilities within the scope of IPSAS 29 are classified as financial liabilities at fair value through surplus or deficit as appropriate. The National Museums of Kenya determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognized initially at fair value and, in the case of borrowings, plus directly attributable transaction costs.

The organization's financial liabilities include trade and other payables, bank overdrafts, financial guarantee contracts.

i) Employee Benefits

(i) Short Term

NMK has employees who carries out day-to-day operations and are entitled to salaries and allowance. The organization recognises these salaries and allowances as expenses, which are charged to financial performance statement.

(ii) Retirement Benefits

NMK operates a defined contribution staff Retirement Benefit Scheme for its employees. The Scheme is administered by Insurance Company of East Africa and is funded by contribution from both NMK and the employees. It also pays gratuity to staff on contract. NMK's contribution is charged to the financial performance statement in the year to which they relate. NMK also contributes to a statutory defined scheme; the National Social Security Fund (NSSF) contributions are determined by local statute and are currently vary according to basic salary per employee per month.

NATIONAL MUSEUMS OF KENYA
Annual Reports and Financial Statements
For the Year Ended June 30, 2021

j) Nature and Purpose of Reserves

(a) Capital Reserve

The organization creates and maintains reserves in terms of specific requirements. National Museums of Kenya has capital reserves and revaluation reserves. Reserves are monies budgeted, collected and set aside for replacement or deferred maintenance to the capital improvements. Boards establish reserve accounts for the future replacement or deferred maintenance of the common areas.

Reserve funds enable the organization to maintain the common areas with a reduced risk of special assessments and minimize the impact of financial challenges. The fund establishes and preserves reserves for a strong financial position to meet future expenditures and reduce the potential for reduction in property values.

(b) Revenue Reserve

A reserve, which is created out of the revenue profit, is called revenue reserve. Revenue profit is earned in the normal course of the business. Revenue reserve refers to the undistributed revenue profit. It is created for strengthening the financial position, replacing depreciable assets, redeeming liabilities and conducting research and development functions.

(c) Revaluation Reserve

A revaluation reserve is an increase in the value of fixed assets. Asset revaluation reserve is an accounting concept and represents a reassessment of the value of a capital asset as at a particular date. The reserve is considered a category of the equity of the entity. An asset is originally recorded in the accounts at its cost and depreciated periodically over its estimated useful life as a measure of the amount of the assets value consumed in that period. In practice, the actual useful life of an asset can be miscalculated or an event can cause a change to the useful life. Consequently, assets occasionally need to be revalued in order to reflect a closer approximation to their "worth" in the accounts. When the asset is revalued, the offsetting entry (in a double entry accounting system) would be made either to the profit or loss accounts or to the equity of the entity.

k) Branches

The regional stations reports are incorporated in these financial statements.

l) Translation of Foreign Currency

Translations in foreign currencies during the year are converted into Kenya Shillings at rates ruling at the transaction dates. Assets and liabilities, which are expressed in foreign currency, are translated into "Kenya Shillings" at rates ruling at the date in the financial position statement. The resulting difference from the conversion and translation are dealt with in the financial performance statement in year, which they arise.

m) Research and Development

Research and Development expenses are expensed through Financial Performance statement in the year are incurred.

n) Budget Information

The annual budget for the period 2020/2021 was prepared on the accrual basis, that is, all planned costs and income are presented in a single statement to determine the needs of the entity. As a result of the adoption of the accrual basis for budgeting purposes, there are no basis, timing or entity differences that would require reconciliation between the actual comparable amounts and the amounts presented as a separate additional financial statement in the statement of comparison of budget and actual amounts.

o) Related Parties

The National Museums of Kenya regards a related party as a person or an entity with the ability to exert control individually or jointly, or to exercise significant influence over the organization, or vice versa. Members of key Management are regarded as related parties and comprise the Directors Executive Team.

p) Comparative Figures

Where necessary comparative figures for the previous financial year have been amended or reconfigured to conform to the required changes in presentation.

q) Provisions

Provisions are recognized when the organization has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The expense relating to any provision is presented in the statement of financial performance net of any reimbursement.

r) Cash and Cash Equivalents

Cash and cash equivalents comprise cash on hand and cash at bank, short-term deposits on call and highly liquid investments with an original maturity of three months or less, which are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value. Bank account balances include amounts held at various commercial banks at the end of the financial year. For the purposes of these financial statements, cash and cash equivalents also include short-term cash imprests and advances to authorised officers, which were not surrendered or accounted for at the end of the financial year.

s) Inventories

Inventory is measured at the lower of cost and net realizable value.

t) Significant Judgments and Sources of Estimation Uncertainty

The preparation of the Entity's financial statements in conformity with IPSAS requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Entity based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. However, existing circumstances and assumptions about future developments may change due to market changes or circumstances arising beyond the control of the Entity. Such changes are reflected in the assumptions when they occur.

Useful Lives and Residual Values

The useful lives and residual values of assets are assessed using the following indicators to inform potential future use and value from disposal:

- i. The condition of the asset based on the assessment of experts employed by the Entity
- ii. The nature of the asset, its susceptibility and adaptability to changes in technology and processes
- iii. The nature of the processes in which the asset is deployed
- iv. Availability of funding to replace the asset
- v. Changes in the market in relation to the asset

u) Subsequent Events

There have been no events subsequent to the financial year end with a significant impact on the financial statements for the year ended June 30, 2021.

NATIONAL MUSEUMS OF KENYA
Annual Reports and Financial Statements
For the Year Ended June 30, 2021

3(a) Transfers from Government Entities

Description	2020-2021	2019-2020

Total		1,219,574,692	1,680,875,346

(b) Key Management Personnel

The key management personnel, as defined by IPSAS 20 Related Party Disclosures, are the members of Director's Executive Team. The total remuneration of members of Director's Executive Team, on a full-time basis, receiving remuneration from the Organization is:

	2020-2021 Kshs.	2019-2020 Kshs.
Key Management Remuneration	32,912,466	31,095,481
Total	32,912,466	31,095,481

20. COMMITMENTS AND CONTINGENCIES

Capital Commitments

The organization in this financial year has no capital commitments. At the year end, the organization had the following contingent liabilities. National Social Security Fund (N.S.S.F) arrears amounting to Kshs. 169,758,078 which relates to unpaid contributions of Kshs, 14,543,360 being principal amount and accrued interest penalty of Kshs. 155,214,718 as tabulated by NSSF. Also pension arrears accrued previous interest amounting to Kshs. 370,762,032 which relates to previous accumulated interest of Kshs. 331,774,273 and accrued interest penalty during the year of Kshs. 38,987,759

The organization was not able to settle all historical pending bills for recurrent and development as directed by The National Treasury due to the covid-19 pandemic, which at year-end stood at Kshs. 129,492,525 and Kshs.31,643,159.90 respectively and are likely to attract penalties and litigations.

Operating Lease Rentals

The National Museums of Kenya has no operating lease rentals for the financial year 2020/2021.

21. FINANCIAL RISK MANAGEMENT POLICIES

The National Museums of Kenya's financial risk management objectives and policies are as detailed below:

Significant Accounting Policies

Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset and financial liability are disclosed in note 2 to the financial statements.

Financial Risk Management Objectives

The organizations activities expose it to a variety of financial risks including credit risk, liquidity risks, interest rate and the effects of changes in foreign currency rates. The National Museums of Kenya's overall risk management programme focuses on unpredictability of changes in the operating environment and seeks to minimise the potential adverse effect of such risks on its performance by setting acceptable levels of risk.

Interest Rate Risk

The interest rate risk exposure arises mainly from interest rate movements on the company's cash balances.

At 30 June 2021, if the interest rates on the bank balances had decreased/increased by 5 percentage points with all other variables held constant, the impact on surplus for the year would have been Shs. 4,425,362 (2020: Sh. 21,569,475) higher/lower.

There has been no change to the company's exposure to interest rate or the manner in which it manages and measures the risk.

NATIONAL MUSEUMS OF KENYA
Annual Reports and Financial Statements
For the Year Ended June 30, 2021

Credit Risk Management

The organization's credit risk is primarily attributable to its other receivables and bank balances.

The amounts of receivables presented in the statement of financial position, estimated by the organization's management based on prior experience and their assessment of the current economic environment.

The credit risk on receivables is limited because the organization does not rely on them.

The credit risk on liquid funds with financial institutions is also low, because the counter parties are banks with high credit ratings.

The amount that best represents the organization's maximum exposure to credit risk as at 30 June 2021 is as follows:

	Fully Performing Kshs.	Past Due Kshs.	Total Kshs.
Bank Balances	88,507,231	-	88,507,231
Trade Receivables	11,458,195	-	11,458,195
Staff Debtors	21,610,060		21,610,060
Total	121,575,486		121,575,486

The amount that best represents the Centre's maximum exposure to credit risk as at 30 June 2020 is as follows:

	Fully Performing Kshs.	Past Due Kshs.	Total Kshs.
Bank Balances	431,389,496	-	431,389,496
Trade Receivables	8,391,777	-	8,391,777
Staff Debtors	20,547,036		20,547,036
Total	460,328,309		460,328,309

Liquidity Risk Management

Ultimate responsibility for liquidity risk management rests with the Management, who have built an appropriate framework. The organization manages liquidity risk by maintaining

NATIONAL MUSEUMS OF KENYA
Annual Reports and Financial Statements
For the Year Ended June 30, 2021

enough required funds for its operations through continuous monitoring of forecast and actual cash flows

Exchange risk

The National Museums of Kenya holds some of its bank balances in foreign currency. The fluctuations in currency exchange rates result in changes in the value of the monetary assets denominated in foreign currency hence expose the Centre to the risk of incurring exchange losses. The monetary assets held in foreign currency are closely monitored to ensure that they are not materially affected by adverse foreign currency fluctuations. There are no other foreign currencies denominated financial assets or liabilities.

At year end, the foreign currency bank account had the following balance:

	AMOUNT	
	In foreign Currency \$	Kshs.
At 30 June 2021		
US dollar bank account HQs	2,021.65	208,230
US dollar bank account IPR	54,497.04	5,745,926
At 30 June 2020		
US dollar bank account HQs	31,583.54	3,334,511
US dollar bank account IPR	121,071.80	11,433,813

NATIONAL MUSEUMS OF KENYA
Annual Reports and Financial Statements
For the Year Ended June 30, 2021

As at 30 June 2021, an increase/decrease of 10% in the Dollar exchange rates to the Kenya Shilling would have resulted in an increase/decrease in the deficit for the year of Kshs. 595,416(2020 Kshs. 1,476,832).

Capital Risk Management

The objective of the entity's capital risk management is to safeguard the Board's ability to continue as a going concern. The entity capital structure comprises of the following funds:

	2020 - 2021	2019 - 2020
	Kshs.	Kshs.
Revaluation Reserve	14,635,150	14,635,150
Retained earnings	(421,723,823)	12,940,522
Capital Reserve	3,530,492,122	3,344,611,023
Total funds	3,123,403,449	3,372,186,695
Total borrowings	-	-
Less: Cash and bank balances	88,507,231	431,406,546
Net debt (Excess cash and cash equivalents)	88,507,231	431,406,546

NATIONAL MUSEUMS OF KENYA
Annual Reports and Financial Statements
For the Year Ended June 30, 2021

1. The financial statements reflect material difference between the budget and actual amounts. The internal revenue target as approved in the revised budget estimates was not realised due nationwide museums closure to visitors following covid-19 pandemic.

Depreciation was over the approved budgetary allocation due to under provision while repair and maintenance exceeded approved estimates as a result of increased repairs on equipment, buildings and motor vehicles as well as rehabilitation of sites and monuments activities due to funding by the Sports, Arts and Social Development Fund.

The general expenses exceeded ceilings due to increased unavoidable activities during the year under review because of covid-19 expenses.

In relation to Board Expenses, overall, they were within budgetary allocation. However, sitting and subsistence, mileage and lunch allowances as well as meeting expenses were over spent due to number of meetings held during the year. The Chairman honoraria was within the budgetary allocations while over expenditure on medical insurance was as a result of under provision on allocations.

2. Changes from original budget are a consequence of government variations through normal budgetary process for both recurrent and development grants. Subsequently, a number of other factors that affect our internal revenue generation also results to alterations in budget to enable the organization to continue with its operations with minimal interruptions.
