	with bodies being buried in shallow graves leading to frequent uncovering by wild animals from the nearby national park; further concerned that this has caused untold anguish, pain and suffering to bereaved families, and psychological torment to the neighbouring community; now therefore, this House urges the national government through the Ministry of Health to urgently conduct an assessment of the public health risks posed by the continued use of the Lang'ata Cemetery, and to institute mitigatory measures and collaborate with other stakeholders, including the Nairobi City County Government, to identify suitable alternative land for use as a cemetery.						
57.	THAT , aware that, the eucalyptus tree species are popular among large scale and commercial tree farmers in Kenya; noting that, these tree species are grown in most ecological zones in the country and in particular in the <i>Western, Central Rift Valley, Central Kenya, parts of Eastern and the Coastal Regions</i> of the country; acknowledging that, farming of the eucalyptus trees has been on the rise due to their fast growth, good economic returns and diverse commercial uses such as transmission poles, fuelwood, timber, plywood, pulp, fencing posts and building materials among others; concerned that, eucalyptus trees species are majorly cited as high water depleting agents through high consumption, transpiration and evaporation thus causing the drying up of streams, rivers and depletion of groundwater water sources; deeply concerned that, the high depletion of water by the said trees has caused adverse negative effects on soil fertility, land degradation and are a serious threat to the biodiversity; recognizing that, due to the serious threats posed by the Eucalyptus trees to the biodiversity, there is need therefore for their	21/03/2023	The Hon.
