## Committee Reports

### Blue Economy Committee mulls reforms in the water sector

The National Assembly Departmental Committee on Blue Economy, Water and Irrigation last week held a meeting with Water and Sanitation Providers Association (WASPA) to consider the Water (Amendment) Bill, 2023 alongside other legislative proposals.

During his presentation before the Committee, the WASPA Chief Executive Officer Mr. Anthony Ambugo, underscored the need for a defined legal framework that delineates the responsibilities of various water agencies.

The Committee, chaired by Hon. David Bowen (Marakwet East), said it will consider the proposal to merge the Water Resources Authority (WRA) and the Water Services Regulatory Board (WASREB).

“Instead of having two regulators, we should bring together these agencies in order to streamline governance in the water sector. In addition, we need to prioritize last mile connectivity, incorporate a corporate social responsibility (CSR) component, and focus on the sanitation and conservation of water towers and catchment areas,” said Hon. Bowen.

The Water (Amendment) Bill seeks to consolidate legislation aimed at addressing various challenges, including excessive non-revenue water losses, governance issues within water service providers, multiple taxation of water companies, the burden of substantial loans turning into debts for water service providers, and other related challenges.

### Lands Committee raises concern over State Department's Kshs.18 billion historical pending bills

The National Assembly Departmental Committee on Lands chaired by Hon. Joash Nyamoko met with the Principal Secretary State Department on Lands and Physical Planning Hon. Nixon Korir to discuss budget implementation and monitoring for the Financial Year 2022/2023.

The committee sought to establish the financial performance by vote and programme from the State Department on Lands and Physical Planning indicating actual receipts, exchequer issues, recurrent expenditure, pending bills and actual output achieved relative to set targets.

According to documents scrutinized by the Committee, the State Department has pending bills amounting to Kshs.625 M comprising of verified pending bills of Kshs.447M and unverified bills amounting to Kshs.178M with audits ongoing.

During his presentation, PS Korir informed the Committee that

Members of the Committee on Lands scrutinizing documents during a meeting with the State Department on Lands

the State Department has historical legal pending bills amounting to Kshs.18.236 billion which resulted from non-payment for judgment settlements over the years.

This revelation by the PS raised concerns on the role of the Attorney General as advisor to the Government. “What is the role of the Attorney General as the principal legal advisor of the Government if the Ministry of Lands has lost so many cases resulting in 18.236B in judgement settlements?” Hon. Nyamoko asked.

Further, Members questioned the propriety of the Attorney General in representing the Ministry in land adjudication matters after reviewing documents that revealed the Ministry has for the past 17 years accumulated 26 unpaid court awards which have accrued massive interest over time.

In addition to asking PS Korir to provide comprehensive documentation on land adjudication procedures and all the court cases, the Committee resolved to investigate the matter further.

Aware of the current trends in the communication field, Parliament of Kenya embraced the use of social media for real-time dissemination of information.

Earlier, the Committee engaged technical teams drawn from Media Relations Department, Information and Communication Technology (ICT), Public Communications Department, Library Services and Parliamentary Broadcasting Unit (PBU) to deliberate leveraging on social media and ICT to strengthen dissemination of Parliamentary business online.

“Effective communication on Parliamentary business to the public requires strategic engagement with the media and use of current trends in digital communication including social media and other digital mediums,” said Hon Nanok.

## PIC Commercial Affairs questions the handling of remuneration of KRA top officials.

The National Assembly Public Investments Committee on Commercial Affairs and Energy has raised concerns over the handling of remuneration of top Kenya Revenue Authority (KRA) officials by a private firm.

While reviewing the KRA’s audited accounts for the Financial Year 2016/2017, the Committee led Hon David Pkosing (Pokot South) established that the remuneration of 32 top staff at the KRA had been handled by a private multinational firm, Deloitte and Touche.

The Committee questioned this arrangement noting that it was puzzling. “Why would a Government entity entrust the salaries and compensation of its senior staff to a private firm?” asked Hon. Pkosing.

In her response, Acting KRA Commissioner General Ms. Rispah Simiyu acknowledged the 18-year service contract with Deloitte and Touché, but said it had been since terminated.

“Salaries for senior management staff starting from June 20, 2000, were processed by Deloitte and Touche. The contract ended on February 13, 2018, and we now internally manage all salaries,” she said.

Ms. Simiyu said the decision was undertaken as a cost-cutting measure, adding that they saved over Sh10 million through the arrangement.

“Over the 18-year period, the total expenses for managing senior management staff payroll amounted to Sh9, 234,000. Hiring a supervisor-level staff member for the same role would have cost Sh21, 383,040 in salary only,” Ms. Simiyu explained

## Sports and Culture Committee visits National Museums of Kenya

With culture being at the forefront of our identity as a people, the National Assembly Sports and Culture Committee has expressed its commitment to ensure the prioritization of that what makes us truly Kenyan. This was buttressed during the Committee’s visit to the National Museums of Kenya.

During the visit, the legislators, led by chairperson Hon. Daniel

Members of the Committee on Sports and Culture led by chairperson, Hon. Wanyama, during their visit to the National Museums of Kenya.

Wanyama had a chance to witness Kenya’s vast heritage as the Museum houses over nine million historical artefacts which are an integral part of Kenya’s identity and history.

Among these artefacts are complete skeletons of the Homo Ergaster

which is an extinct species of archaic humans who lived in Africa, Nariokotome Boy, commonly known as the ‘Turkana boy’, whose remains date back to 1.6 million years.

Hon. Nabuin Ekwom (Turkana North), in whose constituency the remains were discovered, sought the indulgence of the NMK board in ensuring the development of the area commonly referred to as the ‘cradle of mankind’ to commemorate the important part of human development.

Hon. Wanyama assured the facility’s management of the Committee’s dedication to the preservation of Kenya’s cultural heritage, and committed to advocate for allocation of additional funds in the next budget cycle.

“This visit has given us valuable insight into your needs and how, as the policy-makers we can support. We will prioritize the National Museums Bill and explore options for allocating the much-needed funds to properly preserve our heritage,” said Hon. Wanyama.

## Justice and Legal Affairs Committee receives proposal on Conflict of Interest Bill

The Justice and Legal Affairs Committee last week received additional submissions regarding the Conflict of Interest Bill, 2023. The Bill sponsored by the Leader of Majority Party, Hon. Kimani Ichung'wah (Kikuyu), seeks to provide for the management and regulation of conflict of interest in the discharge of official duties.

The Justice and Legal Affairs Committee Vice-Chairperson Hon. Mwengi Mutuse (Kibwezi West) alongside Hon. John Makali (Kanduyi) during the meeting with officials from the Public Service Commission.

During a meeting chaired by the Vice-Chairperson Hon. Mwengi Mutuse (Kibwezi West), the Committee took views from the Public Service Commission (PSC). In its submissions PSC did not agree with the proposed law since, noting that, conflict of interest is already addressed by Public Officers Ethics Act, '2003 and the Leadership and Integrity Act. PSC proposed that these existing laws be amended to address any gaps.

"It is better to amend the existing legislations and address gaps, if any, instead of developing a new law, which only replicates what already exists," said the Chairperson of PSCK, Amb. Anthony Muchiri.

In addition, the PSC had reservations on the proposal to have the Ethics and Anti-Corruption Commission (EACC) as the central repository for wealth declarations. They observed that the responsibility of administering the Public Officer Ethics Act has been assigned to various Commissions, with each of them responsible for the officers under its purview.

"Rendering these Commissions and the 47 County Public Service Boards redundant, is untenable and it will be against the spirit of the United Nations Convention against Corruption because EACC does not exercise disciplinary control over the public officers," Amb. Muchiri said.

## Committee on Implementation questions land agencies on implementation status of House resolutions

The Select Committee on Implementation questioned officials of the Ministry of Lands and the National Land Commission (NLC) for failure to implement recommendations by the Lands Committee in the 12<sup>th</sup> Parliament. Led by Chairperson, Hon. Raphael Wanjala, Members engaged the Principal Secretary for Lands Hon. Nixon Korir and the chairperson of the NLC Mr. Gershom Ottachi.

House resolutions yet to be implemented include those on complaint by Kamiti Anmer Forest Squatters Association on the allocation of a 419.5 acre's piece of land in Kamiti Forest. The squatters are in conflict with three other groups laying claim the same parcel of land.

"The ministry cannot implement the recommendation of the house as the land is still registered as public land. We urge the petitioners, in consultation with the Kenya Forest Services, to initiate the degazettement process," said PS Korir.

Members also enquired on the status of a petition seeking to secure land ownership rights to Mwananguvuze residents in Likoni Constituency on seven plots, three of which are still registered as Government land, despite occupation by squatters for decades.

"The Committee recommended that the Ministry of Lands in consultation with the NLC and the county government, regularizes the petitioners' settlement on the alienated government land, but this is yet to be done, why?" asked Hon. Wanjala.

In response, Hon. Korir informed the Committee that the Mombasa County government is expected to revoke the subdivision of the land which was first registered in 1994, yet the squatters have occupied the land since 1980.

## Members Pass Motion seeking introduction of comprehensive sex education in schools

Members of Parliament last week passed on a Motion seeking the introduction of comprehensive sex education in Kenyan schools with an aim of curbing teenage pregnancies and related health risks.

The Motion, sponsored by Hon. Njeri Maina (Kirinyaga), urges the National Government, through the State Department of Basic Education, to introduce comprehensive health, wellness, and sex education as a core subject in the school curriculum.

According to Hon. Maina, Comprehensive Sexuality Education (CSE) is vital for the well-being of children and young people. She noted that the existing education system falls short in equipping children with the knowledge and skills needed to make responsible choices in their lives.

“What is this House doing to protect the future of our children? We can no longer afford to fold our hands and expect the situation to resolve itself,” Hon. Maina said.

Hon. Suzanne Kiamba (Makueni) cautioned against the introduction of sex education that might inadvertently promote values inconsistent with African culture.

“There is a need to identify where the gap is because sometimes, we have foreign ideologies being promoted in the name of health education, which is against our African values. When we talk about sexual health education, this includes issues like lesbianism, homo-

sexuality among others. First, we need

She argues that the Comprehensive sexuality education (CSE) is central to children and young people's well-being, equipping them with the knowledge and skills they need to make healthy and responsible choices in their lives.

to understand the limits when talking about comprehensive health education,” Hon. Kiamba explained.

Hon. Njuguna Kawanjiku (Kiambaa) highlighted the potentially controversial nature of comprehensive health and sex education, especially concerning religious groups. He said the Government should develop a curriculum addressing specific health issues, particularly HIV/AIDS.

“We need to allow the Government to develop a curriculum that will address particular health issues like HIV/AIDS. We cannot ignore and assume that HIV/AIDS is no longer in existence,” said Hon. Kawanjiku.

## House debates Bill proposing to enhance diversity and equal opportunity in public service

Public entities may soon be required to submit an annual reports to Parliament, providing comprehensive details on their adherence to Kenya's diversity and equal opportunity standards within the public service.

This requirement will come into effect if the House passes the Public Service (Values and Principles) (Amendment) Bill sponsored by Hon. Rahim Dawood (North Imenti).

The Bill seeks to promote diversity in Kenya's public service by ensuring fair representation and advancement of men and women from all ethnic backgrounds, as well as individuals with disabilities.

According to the Bill, the reports by public entities will be crucial in shedding light on essen-

tial details, including the total number of employees, their gender distribution, age demographics, counties of birth, and counties of residence.

“By mandating entities to submit annual reports and promoting transparency in employment practices, the Bill strives to create a more inclusive and representative public service sector, aligning with the nation's constitutional values and principles,” said Hon. Dawood.

He added that the Bill's main objective is to ensure the public service reflects the diversity of Kenyan communities while providing equal opportunities to all Kenyans.

By aligning with the principles and values enshrined in Article 232 of the Constitution, Hon. Dawood said the public service sector will be able to foster a more inclusive environment.

### Supporting and Promoting local fertilizer manufacturing industries

By Hon. Samuel Atandi, MP, Alego Usonga

**That, aware that**, the Fertilizer and Animal Foodstuff Act, 2015 provides for the regulation of fertilizer importation in the country; **further aware that**, the Fertilizer and Animal Foodstuffs Board regulates the fertilizer and animal foodstuffs industry including the manufacture and production of fertilizers;

**Noting that**, the country currently relies heavily on imported fertilizer due to inadequate local production capacity; **further noting that**, the low local production leads to high costs for farmers, reducing their profits and results in an unhealthy reliance on imported fertilizer; **concerned that**, this scenario threatens the country's food security in case of supply disruptions and discourages local production;

**Recognizing that** local fertilizer production could lead to improved fertilizer quality, increased crop yields and a reduction in environmental harm caused by the use of substandard fertilizers; **recalling that** the country has the potential to produce fertilizer that could meet the country's domestic demand and also supply the regional market; **further recognizing that** there is need for the government to work with local producers to develop high quality fertilizer tailored to the needs of Kenyan farmers and crops; now therefore

**This House resolves that** the National Government through the Ministry of Agriculture and Livestock Development, supports and promotes local fertilizer manufacturing industries by investing in research and development to bolster the domestic fertilizer manufacturing sector.

### Regulatory Framework for the Moneylender industry in the County

By Hon. Beatrice Kemei, MP, Kericho County

**That, aware that** the Consumer Protection Act, 2012 provides for the protection of the consumer and prevention of unfair trade practices in consumer transactions in line with Article 46 of the Constitution; **further aware that** there exists unregulated moneylenders, commonly referred to as 'shylocks', that provide loans outside the scope of formal financial institutions;

**Noting that** with the repeal of the Moneylenders Act in 1984, unscrupulous business people have exploited the loopholes to the detriment of the general public; **concerned that** these lenders operate outside of the formal financial sector and as such, engage in predatory practices such as high interest rates, hidden fees, unclear terms and conditions and aggressive loan recovery methods;

**Further concerned that** the absence of clear and enforceable regulations is untenable and requires immediate remedy; **recognizing that** the effects of these unregulated operations extend beyond financial implications but are also social and emotional with reports of depression, family breakups and even instances of suicide by borrowers due to excessive penalties and harsh recovery methods;

**Now therefore, this House resolves that** the government, through the National Treasury and Economic Planning develops a framework to regulate unlicensed money lenders to promote a fair and sustainable financial system.
