REREC	Rural Electrification and Renewable Energy Corporation
SAGAs	Semi-Autonomous Government Agencies
SHA	Social Health Authority
SHIF	Social Health Insurance Fund
TVETs	Technical and Vocational Education and Training institutions
UHC	Universal Health Insurance

FOREWORD BY THE CHAIRPERSON

The government may, within a financial year, spend funds that have not been appropriated if, what was appropriated for the financial year in the Appropriation Act is insufficient, or an unforeseen need has arisen, or when money has been withdrawn from the Contingency Fund. The parliamentary approval of the funds spent in such a manner must be sought within two months. The Supplementary Estimates II for FY 2024/25 was tabled in the National Assembly as provided for in Article 223 of the Constitution and Section 44 of the Public Finance Management Act, CAP412A.

Ordinarily, the Budget and Appropriations Committee is responsible for examining the Supplementary Estimates. However, on this occasion, the Supplementary Estimates were tabled in the National Assembly on 18th February 2025 and subsequently committed to the Liaison Committee for consideration. This was in accordance with the communication issued by the Speaker of the National Assembly on 18th February 2025.

The Supplementary Estimates II for the Financial Year 2024/25 were necessitated by expenditures incurred under Article 223 of the Constitution, which requires parliamentary regularization and need for additional allocations and reallocations. These adjustments aim to facilitate the approval of additional allocations required to address various financial gaps, including shortfalls in personnel emoluments, adjustments to receipts of Appropriation in Aid (A-I-A), and realignment of budgetary provisions to projected absorption levels.

REVIEW OF SUPPLEMENTARY ESTIMATES II

The Supplementary Estimates II for the Financial Year 2024/25 were tabled in the National Assembly on 18th February 2025 and referred to the Departmental Committees and the Liaison Committee for detailed consideration. As part of the review process, the Departmental Committees conducted consultative meetings with the respective Ministries, Departments, and Agencies within their jurisdiction. These meetings were aimed at scrutinizing the proposed adjustments in the Supplementary Estimates, as well as examining the expenditures incurred under Article 223 of the Constitution to ensure compliance with the law.

The Liaison Committee held consultative engagements with all the Departmental Committees to have a full understanding of the drivers of proposed changes in the supplementary estimates. The Committee engaged the Office of the Auditor-General and the Parliamentary Service Commission, to examine the proposed amendments to their respective budgets and evaluate the implications on their mandates and planned

programmes and activities. Finally, the Committee held deliberations with the National Treasury to have a full overview of the proposed changes on key government priorities. This collaborative process ensured that the Committee's decisions were not only well-informed but also equitable and consistent with the national development agenda.

In line with Article 201 of the Constitution, which underscores the need for public participation in financial matters, the Committee extended an invitation to the public to submit Memoranda addressing key concerns related to the Supplementary Estimates. As a result, the Committee received one submission, which was carefully considered in the decision-making process.

ACKNOWLEDGEMENT

The Committee wishes to express its heartfelt gratitude to the Office of the Speaker of the National Assembly for entrusting them with this noble undertaking and strategic guidance offered throughout the process. Sincere thanks to the Office of the Clerk of the National Assembly for administrative and procedural assistance, which greatly facilitated the Committee. Commendation to the Members of the Liaison Committee for their unwavering commitment and sacrifice in undertaking this critical task.

The Committee extends its gratitude to the Departmental Committees for their invaluable insights on sectoral dynamics. Finally, the Committee would like to extend its appreciation to the Parliamentary Budget Office, the Directorate of Appropriations, Audit, and General-Purpose Committees, and the Directorate of Departmental Committees for their extensive technical assistance in the review of the Supplementary Estimates and finalization of this report.

It is, therefore, my distinct privilege, on behalf of the Liaison Committee, to present the Report on the Supplementary Estimates II for the Financial Year 2024/25 to this August House, and to commend it for adoption.

HON. GLADYS J. BOSS, MGH, M.P.

DEPUTY SPEAKER/CHAIRPERSON, LIAISON COMMITTEE

PREFACE

Establishment and Mandate of the Committee

The Liaison committee is established under Standing Order 217 and mandated to;

- (a) guide and coordinate the operations, policies, and mandates of all Committees;
- (b) deliberate on and apportion the annual operating budget among the Committees;
- (c) consider the programs of all Committees, including their need to travel and sit away from the precincts of Parliament;
- (d) ensure that Committees submit reports as required by the Standing Orders;
- (e) determine, whenever necessary, the committee or committees to deliberate on any matter;
- (f) give such advice relating to the work and mandate of select committees as it may be considered necessary; and
- (g) consider reports of the Committee that have not been deliberated by the House and report to the House on the consideration of such reports.

Additionally, pursuant to the communication by the Speaker of the National Assembly on 18th February 2025, the Committee was mandated to consider the supplementary estimates II for FY 2024/25 and report to the House pending the reconstitution of the Budget and Appropriations Committee.

Committee Membership

The current membership of the Committee, following the lapse of the tenure of Audit and General-Purpose Committees in accordance to the National Assembly Standing Orders, comprise:

1. Hon. Gladys J. Boss, MGH, M.P. – **Deputy Speaker/Chairperson**
2. Hon. Martha Wangari, CBS, M.P. – **Vice-Chairperson**
3. Hon. Kimani Ichung’wah, MGH, M.P.
4. Hon. Japhet Kareke Mbiuki, CBS, M.P.
5. Hon. Julius Kibiwott Melly, M.P.
6. Hon. David Gikaria, CBS, M.P.

7. Hon. James Gakuya Mwangi, M.P.
8. Hon. Daniel Epuyo Nanok, CBS, M.P.
9. Hon. (Dr.) Robert Pukose, CBS, M.P.
10. Hon. Vincent Musyoka, CBS, M.P.
11. Hon. Johana Ng'eno Kipyegon, CBS, M.P.
12. Hon. Joash Nyamoko, HSC, M.P.
13. Hon. GK, George Macharia Kariuki, CBS, M.P.
14. Hon. Gathoni Wamuchomba, M.P.
15. Hon. Gabriel Koshal Tongoyo, CBS, M.P.
16. Hon. George Gitonga Murugara, CBS, M.P.
17. Hon. Peter Lochakapong, CBS, M.P.
18. Hon. Daniel Sitati Wanyama, CBS, M.P.
19. Hon. Nelson Koech, CBS, M.P.
20. Hon. John Kiarie Waweru, CBS, M.P.
21. Hon. Kangogo Bowen, CBS, M.P.
22. Hon. (Dr.) John Mutunga Kanyuithia, CBS, M.P.
23. Hon. (CPA) Francis Kuria Kimani, CBS, M.P.
24. Hon. Alice Wambui Ng'ang'a, CBS, M.P.
25. Hon. Eric Karemba Muchangi Njiru, CBS, M.P.

Committee Secretariat

The Committee was supported in the execution of its mandate by a secretariat composed of:

1. Ms. Florence Abonyo, OGW	Director, DAA & GPC (Directorate of Audit, Appropriations & General-Purpose Com.)
2. Dr. (FA.) Martin Masinde, OGW	Director, Parliamentary Budget Office (PBO)
3. Mr. Robert Nyaga	Ag. Senior Deputy Director, PBO
4. Mr. Nicholas Emejen	Deputy Director, DAA & GPC
5. Mr. Daniel Mutunga	Deputy Director, Departmental Committees
6. Mr. Oscar Namulanda	Deputy Director, DAA & GPC
7. Dr. Evans Kiganda	Principal Fiscal Analyst
8. Ms. Lynette Otieno	Senior Legal Counsel
9. Ms. Julie Mwithiga	Senior Fiscal Analyst
10. Mr. Dr. Abel Nyagwachi	Senior Fiscal Analyst
11. Mr. Danson Kachumbo	Senior Fiscal Analyst
12. Ms. Ella Kendi	Clerk Assistant I
13. Mr. Sakana Saoli	Clerk Assistant II
14. Mr. Ringine Mutwiri	Fiscal Analyst III
15. Ms. Loice Olesia	Fiscal Analyst III
16. Mr. Adera Onyango	Fiscal Analyst III
17. Mr. Solomon Alubala	Fiscal Analyst III
18. Mr. Kioko Kiminza	Fiscal Analyst III
19. Mr. Josphat Bundotich	Principal Sergeant at arms
20. Ms. Fridah Ngari	Media Relations Officer III
21. Mr. Kenneth Waweru	Office Assistant
22. Mr. Rodgers Kilungya	Audio Officer

I. OVERVIEW OF SUPPLEMENTARY ESTIMATES II FOR FY 2024/25

I.I Macroeconomic Environment

1. The Supplementary Estimates II for the FY 2024/25 was submitted to the National Assembly on Tuesday, February 18, 2025, pursuant to Article 223 of the Constitution of Kenya and Section 44 of the Public Finance Management Act. The Supplementary Estimates were committed to the Departmental Committees and the Liaison Committee for consideration and reporting to the House.
2. The Supplementary Estimates II have been prepared when the economy has largely stabilised as evidenced by declining inflation, lower interest rates and stability of the Kenyan shilling. Key contributing factors to these positive developments include sustained government interventions, a decrease in food prices due to favorable weather conditions, and a drop in global oil prices.
3. Despite the positive economic trends, several risks still portend to hinder Kenya's economic performance. These include climate-related shocks, which can disrupt agricultural production and food supply, leading to higher prices. High public debt expenditures that have strained the government's finances, reducing the funds available for essential services and development projects. There is also mounting pressure for investment in infrastructure and social services, which requires significant financial resources and careful prioritization.
4. The economy is estimated to have grown by 4.6 percent in 2024, with projections indicating an acceleration to 5.3 percent in 2025. Quarterly growth rates for 2024 were 5.0% in Q1, 4.6% in Q2, and 4.0% in Q3, with a projected rebound to 4.7% in Q4. The agricultural sector played a crucial role in this growth, supported by government subsidies on fertilizers and seeds. These subsidies made essential inputs more affordable for farmers, which is expected to continue driving strong agricultural performance and overall economic growth in 2025.
5. Inflation has declined from 6.3% in February 2024 to 3.5% in February 2025, due to lower fuel and food prices. Key drivers for the decline include lower global crude oil prices, a stronger Kenyan Shilling, and a Government to Government oil import process. Favorable weather conditions and government backed fertilizer subsidies have also increased agricultural yields, reducing food prices and easing inflationary pressure.
6. Following the easing of monetary policy stance as evidenced by a downward revision of the central bank rate from 13% in February 2024 to 10.75% in February 2025. The interest rate on the 91-day treasury bill has similarly declined from 16.5% in February 2024 to 8.9% in February 2025. These reductions have consequently lowered the cost of borrowing for the government, thereby easing the cost of financing the FY 2024/25 budget.

I.2 Fiscal Framework for Supplementary Estimates II

7. The supplementary Estimates II for the FY 2024/25 propose a significant increase in total expenditure and net lending by Kshs. 98.801 billion, representing a 2.5% rise from the approved expenditure of Kshs. 3,880.8 billion in supplementary estimates I, bringing the total budget to Kshs. 3,979.6 billion. The primary contributor to this increase is an additional Kshs. 85.873 billion (3.6%) in ministerial national government expenditure.
8. The supplementary Estimates II have adopted a similar trend with the supplementary estimates over the last three years, where fiscal consolidation efforts have been targeted at development expenditure. The Committee noted that despite the overall increase in total budget by Kshs. 98.8 billion, development expenditure has been reduced by Kshs. 51 billion. This is on top of the Kshs. 105 billion in development expenditure that was rationalized in the supplementary estimates I for 2024/25.
9. The reduction in development expenditure affects key priority areas, including over Kshs. 11 billion donor funding to the Special Global Fund for Malaria, HIV and TB under the National Treasury, reduction of over Kshs. 22 billion for water and sanitation interventions, reduction of over Kshs. 7 billion in the ICT sector, reduction of over Kshs. 5 billion for power generation and transmission and over Kshs. 2 billion for the agriculture sector.
10. The Committee expressed concern that the reduction in development expenditure as proposed in the supplementary estimates II may have several negative implications on the delivery of key BETA priorities, potentially hindering the completion of ongoing projects, leading to additional pending bills and stalled projects. This may further result in cost overruns, as delays and interruptions often increase the overall cost of delivering development projects.
11. The Committee observed that despite the increase in total expenditure and net lending from Kshs. 2,565 billion in the FY 2019/20 to Kshs. 3,979 billion in the supplementary estimates II for 2024/25, the proposed development expenditure of Kshs. 590 billion is lower than the actual development expenditure of over Kshs. 600 billion that was spent in the 2019/20 financial year. This indicates that, although overall spending has increased, the allocation for development expenditure has diminished.
12. The supplementary estimates II propose to increase ministerial recurrent expenditure by Kshs. 136.9 billion on account of the restoration of personnel emoluments and operations and maintenance expenditures that were rationalized during supplementary estimates I where some agencies were left with allocations that could not meet their critical operations for the entire financial year. The Committee, however, noted that the proposed increase in recurrent expenditure is much higher than the Kshs. 40.5 billion that was reduced during supplementary I.

13. The Committee expressed reservations over the credibility of the proposed fiscal consolidation measures, particularly the elimination of non-priority expenditures, as proposed by the National Treasury. This is given the significant increase in recurrent expenditure in the proposed supplementary estimates II. The Committee emphasized the need for commitment and more robust and transparent measures to ensure that the proposed fiscal consolidation goals are achievable and can effectively address the fiscal challenges facing the country.
14. The supplementary Estimates propose to increase the consolidated fund services expenditures by Kshs. 5,502 billion from Kshs. 1,237.2 billion to Kshs. 1,242.7 billion. The net increase in CFS is as a result of an additional Kshs. 19.7 billion in net lending towards repayment of guaranteed loans to the Kenya Airways and a reduction of Kshs. 14.1 billion in total interest payment on public debt. The Committee underscored the need to fast track the restructuring of state-owned enterprises to reduce their contingent liabilities and put them on a sustainable path.
15. The reduction in interest payment on public debt is due to a Kshs. 31.4 billion decrease in interest payment on foreign debt, which may be attributed to the appreciation of the Kenyan shilling. However, there is also a Kshs. 17.2 billion increase in interest payment on domestic debt, resulting from short-term domestic borrowing by the government at higher interest rates.
16. The Committee noted that the proposed expenditure on interest payment of Kshs. 995 billion accounts for 25% of the total budget, a significant increase compared to FY 2012/13, where interest payment was 10% of the overall budget. This indicates how public debt servicing is increasingly crowding out expenditure on critical development initiatives and social programs, potentially affecting the government's ability to invest in key areas that support long-term economic growth. The rising burden of debt servicing underscores the importance of implementing sustainable fiscal consolidation policies to balance debt obligations with essential development expenditures.
17. The proposed increase in overall expenditures in the supplementary estimates II is not matched by a commensurate increase in revenue collection. On the contrary, the ordinary revenue collections target has been revised downwards by Kshs. 50.1 billion from Kshs. 2,631.4 billion to Kshs. 2,580.9 billion. The main drivers of the lower revenue projection are VAT and Income Tax whose expected collection has been reduced by Kshs. 29.5 billion and Kshs. 15.1 billion respectively. The downward revision in the revenue collection target is in line with revenue performance in the first half of 2024/25 FY where KRA missed its VAT and Income tax collection target by Kshs. 36.5 billion and 28.6 billion respectively.
18. The increase in expenditure and net lending of Kshs. 98.8 billion and revision of ordinary revenue downward by Kshs. 50.1 billion has resulted in the fiscal deficit, including grants for FY 2024/25, projected to increase from Ksh768.6 billion to Kshs. 864.1 billion.

19. The increase in expenditure and net lending by Kshs. 98.8 billion, combined with the downward revision of ordinary revenue by Kshs. 50.1 billion, has led to a projected increase in the fiscal deficit including grants, for FY 2024/25 from Kshs. 768.6 billion to Kshs. 864.1 billion. The expanded fiscal deficit amounting to Kshs. 85.7 billion is expected to be financed through increasing domestic borrowing by Kshs. 169.6 billion, from Kshs. 413.1 billion to Kshs. 582.7 billion and reducing external borrowing by Kshs. 83.9 billion.
20. The Committee observed that the shift to domestic borrowing aligns with the National Treasury's proposed strategy to focus on local market borrowing, particularly in the second half of FY 2024/25 when interest rates are anticipated to be lower. However, this approach carries the risk of continued crowding out of the private sector, as government borrowing could limit the availability of credit for private businesses. Additionally, this strategy may exert upward pressure on interest rates, which could further impact the cost of borrowing for both the government and private sector.

2. KEY EXPENDITURE AREAS UNDER SUPPLEMENTARY II

2.1 Expenditure under Article 223 of the Constitution

21. Article 223 of the Constitution allows the National Government to utilize funds not appropriated by Parliament under certain conditions. These conditions include situations where the allocated amount for any purpose under the Appropriation Act is insufficient, a new expenditure need arises, or funds have been withdrawn from the Contingencies Fund. The National Government is required to report such withdrawals to Parliament within two months of the withdrawal.
22. Article 223 of the Constitution allows the National Government to spend monies that have not been appropriated by Parliament if the amount appropriated for any purpose under the Appropriation Act is insufficient or a need has arisen for expenditure for a purpose for which no amount has been appropriated by that Act, or money has been withdrawn from the Contingencies Fund and report the same to Parliament within two months after such withdrawal.
23. The Committee noted that the National Treasury has approved expenditures amounting to Kshs. 88.16 billion under Article 223 of the Constitution consisting of Kshs. 44.42 billion in recurrent expenditure and Kshs. 43.74 billion in development expenditure. Of which, Kshs. 40.42 billion has been disbursed. The remaining requests have been submitted as part of the reallocations sought under this supplementary budget.
24. The key expenditure areas under Article 223 in the submitted supplementary estimates include Kshs. 19.68 billion towards settlement of guaranteed debt to Kenya Airways, Kshs. 8 billion towards road construction, Kshs. 4.5 billion to the state for Internal Security and National Administration towards police modernization and enhanced security observations, Kshs. 2.5 billion towards drought-related mitigations and Kshs. 1.75 billion

for settlement of outstanding salary arrears for medical officers in both National and County governments.

25. The Committee observed that the continued application of Article 223 of the Constitution to areas that could have been budgeted for during the budget-making process undermines the credibility of the budget. Furthermore, it diminishes the role of Parliament in the allocation of resources. This practice tends to weaken the effectiveness of parliamentary oversight and the careful planning that goes into resource allocation during the regular budget process.

2.2 Proposed Reallocations and Additional Allocations

26. The supplementary estimates II aim to allocate additional resources or make reallocations to address emerging priorities. Key drivers for these reallocations and additional allocations include upward revisions in Appropriations in Aid, addressing shortfalls in personnel emoluments, covering shortfalls in operations and maintenance, and meeting the needs for security-related operations.
27. The security sector has been allocated an additional Kshs. 7.5 billion to the National Police Service of which 5 billion is to address shortfalls in insurance costs and 2.5 billion to support the Haiti peacekeeping mission, the National Intelligence Service has been allocated an additional Kshs. 9.8 billion for security related operations while the Ministry of Defence has an additional 6 billion mostly towards settlement of pending bills.
28. The additional allocations within the education sector include Kshs. 18 billion to the Teachers Service Commission to cater for insurance shortfalls, teacher promotion and personnel emolument shortfalls. The State Department for Technical Vocational Education and Training has an additional Kshs. 8 billion mostly due to upward revision of AIA for TVETs, an additional Kshs. 16 billion to the University of Education to among other things, Kshs. 4.2 for the implementation of Universities Collective Bargaining Agreement (CBA), upward revision in AIA for universities by Kshs. 6.48B. The state department for basic education has an additional allocation of Kshs. 6.5 billion towards the World Bank support of the Kenya Primary Education Equity in Learning Program while the reallocation of Kshs. 5.26B from secondary school capitation to cater for examination waivers.
29. The additional allocations to the health sector include an upward Revision in AIA by Kshs. 1.7 billion for the Kenyatta National Hospital, Kshs 1.4 billion AIA for Kenyatta University Teaching Research and Referral Hospital, additional Kshs. 1 billion towards shortfalls for personnel emoluments for MTRH and Kshs. 1.5 billion for recapitalization of KEMSA. Other additional allocations include Kshs. 3 billion for the primary healthcare fund, Kshs. 3 billion for Emergency, Chronic and Critical Illness Fund, Kshs. 1.5 billion stipend for healthcare professional interns and Kshs. 0.6 billion for operationalizing Primary Health Care Networks.

30. The proposed changes in the infrastructure sector include an additional Kshs. 16 billion for the roads sub sector on account of upward revision of collections to the Road Maintenance Levy Fund due to the additional Kshs. 7 that was incorporated into the levy. The sub sector equally has a reduction of approximately Kshs. 10 billion in GoK and partner funded programmes leaving the net change to approximately Kshs. 6 billion.
31. The Housing and Urban Development sub sector has a reduction of Kshs. 7.9 billion on account of Kenya Informal Settlement Improvement Project, which is a donor-funded project. The water and sanitation sub sector has a reduction of approximately 23 billion mainly on account of reductions in partner-funded projects. The ICT sub sector has a reduction of Kshs. 7 billion while the state department for energy has a reduction of Kshs. 7.7 billion all on account of partner funded projects.
32. The other key changes proposed in Supplementary Estimates II include an additional Kshs. 8 billion for shortfalls in personnel emoluments to the Kenya Revenue Authority, additional Kshs. 4.6 billion to the State Department for Tourism on account of upward revision in AIA for the Tourism Promotion Fund, Tourism Fund, Tourism Regulatory Authority and Kenyatta International Convention Centre.

3. SUBMISSIONS BY STAKEHOLDERS

33. The Committee invited the Office of the Auditor General, National Treasury and the Parliamentary Service Commission to present their submissions on the extent and implication of the proposed changes as per the Supplementary Estimates II for FY 2024/256.

3.1 Submissions by the Parliamentary Service Commission

34. The Parliamentary Service Commission (PSC) is tasked with ensuring that Parliament functions efficiently and effectively by providing essential services and facilities. Its mandate encompasses supporting Parliament in fulfilling its legislative, oversight, and representation roles. The PSC operates under its strategic plan for 2019-2030, which outlines its objectives, strategies, and activities aimed at enhancing the effectiveness of parliamentary operations and ensuring that Parliament can effectively serve the public and uphold democratic governance.
35. The Commission indicated that the Supplementary Estimates II did not significantly impact the allocation to Parliament. The only changes involved an additional Kshs. 75 million allocated to the National Assembly Vote and a reallocation of Kshs. 19 million under the Senate Vote for the payment of pending bills.
36. The Commission submitted that Parliament experienced budgetary reductions in supplementary I, which significantly impacted its operations. Despite this, there is no substantial enhancement proposed in the supplementary estimates II to address these issues. Furthermore, there are emerging needs that require intervention to ensure the effective functioning of Parliament.

37. To address the shortfalls and emerging needs, the Commission submitted that Parliament requires an additional Kshs. 5.26 billion, distributed across various votes: Kshs. 1.79 billion for Vote 2041, Kshs. 1.03 billion for Vote 2042, Kshs. 371 million for recurrent expenditure and Kshs. 700 million for development under Vote 2043, and Kshs. 1.37 billion for Vote 2044. These additional funds are necessary to cover critical areas such as the members' post-retirement medical scheme, allowances for drivers and bodyguards, contracted professional services, and increased NSSF contributions.

3.2 Submissions by the Auditor General

38. The Office of the Auditor General is established by the Constitution and serves as a critical institution for promoting transparency, accountability, and good governance in public finance management. The office is tasked with auditing the accounts of public entities at both National and County levels, the Judiciary, Legislature, Public debt, and all programs or projects receiving public funds, it ensures that public resources are managed efficiently and effectively to ensure value for money.
39. In the FY 2024/25, the Office of the Auditor General was allocated Kshs. 8.103 billion out of which Kshs. 8.025 billion for current and Kshs. 79 million for capital expenditure. As of 5th March 2025, the office had incurred a cumulative expenditure of Kshs. 5.25 billion consisting of Kshs. 5.22 billion in current and Kshs. 33.14 million in capital expenditure.
40. The OAG submitted that during the processing of supplementary estimates I for FY 2024/25, the office suffered an overall reduction of Kshs. 568.2 million. This reduction directly impacted the planned audit coverage and construction of the Mombasa Office. However, supplementary estimates II have proposed an additional allocation of Kshs. 150 million, which will address shortfalls arising from the earlier reductions. The additional allocation comprises Kshs. 100 million for planned audits and Kshs. 50 million towards the forensic audit of the public debt that was requested by the executive.
41. The OAG informed the Committee that the resource requirement for the forensic audit on public debt is approximately Kshs million, given the need to evaluate projects funded across the country. This implies that there is a shortfall that needs to be addressed for the audit to be comprehensive and meaningful. The office also sought the intervention of the Committee to allocate an additional Kshs. 200 million to enable commencement of construction works at the Mombasa Office.

3.3 Submissions by the National Treasury

42. The National treasury submitted that since the approval of the FY 2024/25 Supplementary Estimates I, the National Treasury has received requests for additional funding from MDAs amounting to KSh.900.1 billion. These include recurrent expenditures of Kshs. 493.0 billion and development expenditures of Kshs 407.1 billion.
43. The National treasury reported that in view of the prevailing fiscal constraints, and to maintain macro-economic stability and access to external financial markets, they were

only able to accommodate Approvals granted under Article 223 of the Constitution, salaries shortfalls for MDAs, allocations to SAGAs, and other critical expenditures amounting to Kshs. 199.9 billion in the FY 2024/25 supplementary estimates II.

44. Further, the National Treasury submitted that in addition to the submission on the FY 2024/25 supplementary estimates II, they have received requests for additional funding to cater for emerging priorities amounting to Kshs. 3.3 billion and requested the Committee to put them into consideration.
45. These additional expenditures include Kshs. 2 billion to the State Department for Medical Services, Kshs. 100 million to the Office of the Prime Cabinet Secretary, Kshs. 400 million for State House, Kshs. 100 million to the State Department for Correctional Services, Kshs. 50 million for the National Treasury, Kshs. 50 million for the State Department for Trade, Kshs. 200 million for the State Department for Roads, Kshs. 50 million to the State Law Office, Kshs. 159 million for the State Department for Internal Security and Kshs. 120 million for the National Assembly.

4. CONSOLIDATED FUND SERVICES EXPENDITURES

46. The Consolidated Fund Service (CFS) expenditures consist of mandatory expenses that are directly charged to the Consolidated Fund. These primarily include public debt servicing, pension payments, salaries and allowances for constitutional and independent office holders, among other expenditures.
47. The supplementary estimates II for FY 2024/25, proposes that the total CFS expenditures will amount to Kshs. 2.11 trillion, reflecting a decrease of Kshs. 23.6 billion from Kshs. 2.13 trillion as approved in the supplementary estimates I. This reduction is primarily due to the appreciation of the Kenyan shilling, resulting in a decrease of Kshs. 43.2 billion in external debt service expenditures. Additional changes include a reduction of Kshs. 75.6 million in salaries and allowances for holders of constitutional and independent offices, an increase of Kshs. 17.3 billion in interest expenses for domestic debt, and an increase of Kshs. 19.69 billion for guaranteed debt payments. Pension expenditures remain unchanged at Kshs. 223.15 billion.

4.1 Public Debt Servicing Expenditure

48. The total public debt stock stood at Kshs. 11 trillion. The expenditures to finance the repayment of this debt, in terms of interest payments and redemptions, constitute the largest share (88%) of CFS expenditures. Total public debt service is projected at Kshs. 1.87 trillion by the end of FY 2024/25. The Committee observed that while domestic debt accounts for 51% of total debt stock, it accounts for 71% of total debt servicing cost and external debt stock, which represents 49%, accounts for only 29% of the debt servicing expenditures. This implies that the government faces higher borrowing costs and risks domestically.

49. The supplementary estimates II projects that debt servicing expenditures are expected to decrease by Kshs. 43.2 billion, from Kshs. 1.9 trillion in the supplementary estimates I to Kshs. 1.87 trillion. The reduction in public debt servicing is attributed to a Kshs. 14.1 billion reduction in interest expenditures and a Kshs. 29.1 billion reduction in redemption expenditures/principal payments. The Committee noted that the expenditure on debt service is on an upward trend over the medium term and is projected to surpass the Kshs. 2 trillion in FY 2025/26, majorly driven by increased domestic debt service cost and expected maturity of international sovereign obligations.
50. The Committee observed that the projected expenditure on domestic debt servicing, amounting to Kshs. 1.33 trillion in the FY 2024/25, constitutes the largest component of public debt service obligations. The Supplementary Estimates II indicate an upward revision of Kshs. 17.3 billion in domestic debt servicing costs, driven by higher interest rates. This adjustment includes an increase of Kshs. 11.87 billion in interest payments for domestic bonds and Kshs. 8.65 billion for Treasury Bills. Conversely, interest payments on the government overdraft facility are anticipated to decline from Kshs. 12.6 billion to Kshs. 9.4 billion, reflecting a gradual reduction in the Central Bank Rate.
51. The projected external debt servicing expenditure for the FY 2024/25 is Kshs 530.12 billion, which reflects a decrease of Kshs 60.5 billion compared to Kshs 590.6 billion in supplementary estimates I. The reduction includes a decline of Kshs 31.4 billion in external debt interest payment and Kshs 29.1 billion in external debt redemption. The Committee observed that these favorable adjustments are attributed to the sustained appreciation and stability of the Kenya Shilling against major international currencies, particularly the USD and the Euro, which constitute 89% of external debt denomination.
52. External debt redemption is projected to decline from Kshs. 330.7 billion to Kshs. 301.6 billion. Significant reductions include Kshs. 9.7 billion for EXIM Bank of China, Kshs. 5.98 billion for the Trade Development Bank Syndicated Loan, Kshs. 4.7 billion for the International Development Association, Kshs. 1.33 billion for France, and Kshs. 1.26 billion for Japan. While external debt interest payments have been revised downward from the Kshs. 259.9 billion to Kshs. 228.5 billion. Key reductions include Kshs. 5.2 billion for Exim Bank of China, Kshs. 2.3 billion for the International Development Association, Kshs. 1.67 billion for the IMF, Kshs. 1.3 billion for Afrexim Bank, and Kshs. 1.15 billion for Standard Bank - SA Syndicated. However, the Committee noted that Kshs. 19.85 billion has been added for interest payments to the International Sovereign Bond issued in February 2024.

4.2 Pensions Payments

53. The Committee observed that Pension payments under CFS will remain unchanged at 223.15 billion Kshs, including Ordinary pensions (93.8 billion Kshs), Commuted Pension (85.8 billion Kshs), Public Service Superannuation Scheme (36.98 billion Kshs), and other pension schemes (6.6 billion Kshs). The largest payments are to retired civil servants

(138.2 billion Kshs), retired military members (25 billion Kshs), and dependents of retired civil servants (10.4 billion Kshs).

4.3 Salaries & Allowances for Constitutional & Independent Office Holders

54. Salaries and allowances for constitutional and independent offices are proposed to decrease by Kshs. 75.6 million, from Kshs. 4.16 billion to Kshs. 4.08 billion. Notable changes include reductions for the Salaries & Remuneration Commission (Kshs. 33.1 million in gratuity and Kshs. 23 million in allowances) and the Public Service Commission (Kshs. 27.2 million in gratuity). The National Police Service Commission increased by Kshs. 36.8 million in gratuity and Kshs. 3 million in salaries, while the IEBC has a 50 percent reduction for the Chairman, deputies, and commissioners.

4.4 Guaranteed Debt

55. Article 213 of the Constitution and Section 58 of the PFM Act enable the government to provide loan guarantees to public entities. By June 2024, outstanding guaranteed debt stood at Kshs. 100.2 billion. Supplementary Estimates II show that Kshs. 19.7 billion was spent on interest payments for Kenya Airways' guaranteed loans. The Committee observed that this guarantee is under the Sessional Paper No. 3 of 2017 and covers \$525 million (long-term loan) to US Exim Bank for liquidity management over five years and \$225 million (short-term loan) to Kenyan banks for working capital.

5. KEY OBSERVATIONS BY THE DEPARTMENTAL COMMITTEES

56. The Committee received submissions from Departmental Committees regarding proposed changes for programs and votes under the various MDAs they oversee. Based on these submissions, the Departmental Committees made observations, some of which are included in this report. A detailed matrix of observations and recommendations from the Departmental Committees is provided in Annex I of this report.

5.1 Finance and National Planning Committee

57. Certain expenditures incurred under Article 223 of the Constitution were not unforeseen or urgent. Expenditures such as capacity building for Public Financial Management (PFM) officials could have been planned and budgeted for within the regular budgeting process thus expenditures under Article 223 undermine the principle of fiscal discipline and prudent financial management.

58. The arrears to the Equalization Fund at the end of FY 2023/24 was approximately Kshs. 49 billion. Five years to the lapse of the Fund as per Article 204(6), the government is still lagging in the full operationalization of the fund. Whereas there have been consistent allocations and appropriations to the Fund by Parliament, the National Treasury has been delaying transfers to the Fund contrary to Article 204(1).

5.2 Justice and Legal Affairs Committee

59. The Judiciary is faced with several challenges, including insufficient financial resources, limitations of the IFMIS operations that disrupt implementation of planned activities, inadequate and delayed exchequer especially for development vote which in turn delays implementation of projects. The Committee observed the need to rationalize the Judiciary's development budget to realize funds that will cater for the deficit in the recurrent vote as prioritized, based on the critical needs.
60. The Office the Director of Public Prosecutions, though a key player towards improving national security, strengthening good governance and fight against corruption is underfunded. The office requires additional funding of Kshs 30 million to support the roll out of the *Uadilifu Case Management System* in all the forty-seven (47) counties to enhance its digitization programme.

5.3 Agriculture and Livestock Committee

61. There are historical pending bills that have not been considered for settlement in the FY 2024/25. The State Department for Livestock Development has a historical pending bill of over Kshs. 4 billion while the State Department for Agriculture has a historical pending bill of Kshs. 9.035 billion. The pending bills have been subjected to verification and validation and cleared for payment, although the same does not reflect in the treasury documents.
62. The upward revision in appropriations in aid for various Semi-Autonomous Government Agencies (SAGAs) in the agriculture sector is a promising development. These additional funds have been earmarked to enhance the growth and efficiency of relevant value chains, which are critical for boosting agricultural productivity and sustainability to strengthen the sector's contribution to the economy.

5.4 Defence, Intelligence and Foreign Relations Committee

63. The United Nations Security Council adopted resolution 2767 (2024), endorsing the African Union Peace and Security Council's decision to replace the African Union Transition Mission in Somalia (ATMIS) that ended on 31 December 2024 with the African Union Support and Stabilization Mission in Somalia (AUSSOM). The deployment of equipment for UN missions is guided by the UN Statement of Unit Requirement (SUR) prescribing standards of equipment for deployment. For Kenya to be allowed to deploy to the Mission and achieve full reimbursements under the UN's Contingent Owned equipment (COE) System, the deployed equipment must meet the operational capabilities prescribed. The equipment serviceability state of Kenya is way below the UN Statement of Unit Requirement (SUR) due to extended deployment in Somalia against a proportionate budget over time. The required funding of KES.5 billion is to facilitate the initial logistic requirement for deployment and take full opportunity of equipment

reimbursements. The requested amount will be recouped through reimbursements by the UN for the deployed units that go directly to MoD.

64. Kenya currently holds the Chairmanship of the EAC, a rotational position assumed on 30th November 2024, which entails significant responsibilities to achieve regional integration objectives. An additional funding of KES.310.04 million needed for EAC Chairmanship meetings, hosting the EAC Heads of State Summit and a High-Level Infrastructure Retreat, training Focal Point Persons, publicity, and retreats for EAC Ministers and Principal Secretaries.

5.5 Trade, Industry and Cooperatives Committee

65. The committee observed that KIRDI and KITI have a funding shortfall of Kshs.50 million each for operational and maintenance, including non-discretionary expenditures, thus affecting the effective implementation of their core mandates.
66. Kenya Accreditation Service is seeking an additional Kshs. 100 million to enhance its national accreditation program. This is to enable the implementation of the KENAS Act, which requires them to come up with regulations and recruit employees further to allow them to carry out public participation while developing the regulations covering all the conformity bodies.
67. This crucial funding will enable KENAS to uphold high standards of quality and reliability in its accreditation services. By securing these resources, KENAS aims to ensure that all accredited bodies consistently meet international benchmarks, thereby strengthening the credibility and competence of conformity assessment across various sectors.

5.6 Health Committee

68. The Social Health Authority (SHA) has registered 20.2 million Kenyans. However, only 3.9 million members are actively contributing to the Social Health Insurance Fund (SHIF), raising the issue of sustainability for the fund given the very few contributors.
69. The Primary Healthcare Fund and Emergency Chronic and Critical illness Fund has been allocated additional Kshs. 6 billion in the supplementary no. II budget, thus SHA and the Ministry of Health are currently reviewing the benefits package in line with the increased funding where the draft proposal is under review by the Attorney General.

5.7 Transport & Infrastructure Committee

70. To repay SGR loan, develop SGR phase 2B and 2C and enhance operations & maintenance in FY 2024/25, the State Department for Transport, requires Kshs. 25 billion for SGR loan repayment and Kshs. 4.7 billion for developing SGR phase 2B and 2C and enhancing operations and maintenance.
71. The Multinational Lake Victoria Maritime Communication & Transport Project restructured and renamed, Kenya Lake Victoria Maritime Communication and Transport Project as a result of a change in financing from Donor to GoK. However, the approval

of the change of name by National Treasury after the Supplementary II Estimates had been finalized makes it impossible for the projects to access the approved budget under the old name.

5.8 Housing, Urban Planning and Public Works Committee

72. The Affordable Housing Fund proceeds amounting to Kshs. 64,688 million and Kshs. 1,470 million have been allocated to the National Housing Corporation and Kshs. 1,593 million to the Kenya Slum Upgrading Fund (KENSUF), reflecting a reallocation of resources for ongoing Affordable and Social Housing projects as well as the associated social and physical infrastructure.

5.9 Communication, Information and Innovation Committee

73. The proposed reductions on some heads that have running contractual obligations lead to accumulation of pending bills, escalation of costs on account of fines and could also lead to litigation costs.

5.10 Energy Committee

74. The lack of accurate and up-to-date data on electrification rates across various constituencies in the country by the Rural Electrification and Renewable Energy Corporation and Kenya Power hamper the identification of underserved areas thus leaving many remote and marginalized communities without reliable electricity access.
75. The Kenya Petroleum Refineries Limited (KPRL) reallocated funds from the Oil Market Stabilization budget to cater for settlement of legacy debts outstanding on yield shift. However, there was lack of documentation providing critical details for the identities of the beneficiaries and specific amounts owed.

5.11 Lands Committee

76. The State Department for Lands and Physical Planning initiated a raft of reforms, which included the implementation of a cashless programme and boarding of all land transactions on the E-citizen platform, which drastically reduced revenue leakages and enhanced revenue collections across all their land stations countrywide.

5.12 Environment, Forestry and Mining Committee

77. The Kenya Meteorological Department is greatly underfunded, impeding the Modernization and Monetization of Meteorological Services to enhance Climate Information under the National Framework of Climate Services. To achieve their mandate, the Department requires an additional Kshs. 170 million.

5.13 Labour Committee

78. The National Treasury issued an austerity/ expenditure rationalization circular for certain expenditure items that were ratified and approved at the Supplementary (I) Estimates for

FY 2024/25. However, the Supplementary Estimates II for FY 2024/25 has negated the contents of the said circular.

79. There is perennial and persistent allocation of meagre resources to MDAs with delays in exchequer releases for development projects. This has resulted in huge pending bills and penalty charges by service providers and contractors.

5.14 Sports and Culture Committee

80. Due to the constrained fiscal space for SASDF attributed to the prioritization of CHAN and AFCON infrastructure development which include renovations of Kasarani, Nyayo and Kipchoge Keino stadia as well as construction of new Talanta Stadium, the Government also requires to pay USD 13 million, approximately Kshs. 1.682 billion for hosting rights to the Confederation of African Football (CAF). This funding is not available from SASDF due to various commitments made by the Fund.

81. The Bomas of Kenya is currently in the initial stages of constructing an ultra-modern conference facility. However, the State Department for Culture, Arts and Heritage has not furnished the Committee with clear funding modalities for the project, including projected costs, source and funding arrangements and timelines.

5.15 Administration and Internal Security Committee

82. The police operations were severely underfunded with the revised budget having Kshs. 5,334 million for the entire financial year. Other critically underfunded areas included food and ration by Kshs. 1,464 million, purchase of police security communication equipment by Kshs. 2,000 million and training expenses by Kshs. 432 million among others.

83. There was a need for resources to be re-allocated to the Police service that had not expended money on the Development expenditure which had a budgetary allocation of Kshs. 35 million for public Participation projects. The projects include construction of Police post at Ochoria in Muhoroni, construction of Obunga Police Camp and the construction of Police Station office Block in Kikambuni.

5.16 Tourism and Wildlife Committee

84. The creation of the Wildlife Conservation Trust Fund is in progress, with the necessary funds already deposited. However, an additional Kshs 50 million is required for resource mobilization, recruitment, staff maintenance, and other operational activities.

85. The Committee observed that delays in compensating victims of Human-Wildlife Conflict (HWC) have resulted in a surge in legal suits against the Kenya Wildlife Service (KWS). Currently, KWS has received court orders for payment of HWC compensation and legal charges amounting to Kshs. 950 million, with numerous threats of garnish orders that threaten their operations accounts.

5.17 Regional Development Committee

86. The Committed noted that the report on the unbundling of the functions of Regional Development Authorities (RDAs) was undertaken by the Intergovernmental Relations Technical Committee (IGRTC) highlighting the need to align the functions of the (RDAs) to the two levels of government as guided under the Fourth Schedule of the Constitution.
87. The taskforce chaired by IGRTC was formed by the Head of Public Service to review and align the mandates of the RDAs, and that a report with an implementation matrix on the mandates of the two levels of government was presented to the Office of the President in November 2024.

5.18 Social Protection Committee

88. The National Youth Service (NYS) requires additional funding for essential infrastructure geared towards accommodating an increased number of youths recruited into the NYS program. Furthermore, the rehabilitation of boreholes and sewer lines requires an additional Kshs 45 million.
89. Due to the upscale of the Inua Jamii Programme following presidential directive, approximately an additional 500,000 beneficiaries have been enrolled from June 2024. However, there is a funding gap of **Kshs 16.958 billion** which may cause the elderly persons, orphans, vulnerable children and persons with severe disabilities under Inua Jamii not to receive cash transfers from March to June 2025.
90. Under a Presidential directive the Kenya National Innovation Agency (KENIA) was directed to undertake commercialization of start-ups and undertake a youth-led innovation in the country to create employment for the Youth. However, no resources have been allocated to actualize the same.

5.19 Education Committee

91. There is a lack of allocations towards the construction of TVET institutions, a BETA project in the remaining 52 Constituencies. Given that the first phase contracts have already been awarded, lack of funding exposes the critical BETA project to the risk of pending bills, court actions which shall have an impact of the completion timelines and even stalling the projects.
92. Resources have been provided to cater for Collective Bargain Agreements (CBAs) for public universities staff as well as strategic interventions for Moi and Egerton Universities to ensure the smooth running of the sub-sector runs devoid of industrial actions.
93. The Assembly of Assistive Devices project under the State Department for Basic Education has faced significant setbacks due to budget cuts. With the project only at 35% completion, the removal of its entire allocation in the 2024/25 supplementary budget has created a major barrier to providing assistive gadgets for learners with special needs. This lack of funding jeopardizes the accessibility and inclusivity goals for Special Needs learners.

5.20 Blue Economy, Water and Irrigation Committee

94. The State Department for Water and Sanitation has faced a significant budget cut, with its Gross Estimates reduced by Kshs. 22 billion. While there is a slight increase of Kshs. 876.2 million for recurrent expenditure, the development expenditure has been slashed by Kshs. 22.9 billion. This reduction is likely to hinder the implementation and progress of planned projects and programs, potentially affecting water and sanitation services across the country.

6. COMMITTEE FINANCIAL RECOMMENDATIONS

The Committee recommends that the House:

6.1 Expenditure under Article 223

- I. approves Kshs: **40,418,918,412** spent under Article 223 of the Constitution in respect of Votes contained in the THIRD SCHEDULE.

6.2 Overall Supplementary Appropriations

- II. approves an increment of the total recurrent expenditure for Financial Year 2024/2025 by **Ksh. 138,558,586,916** in respect of the Votes contained in the FIRST SCHEDULE
- III. approves a reduction of the total capital expenditure for Financial Year 2024/2025 by **Kshs. 33,875,105,332** in respect of the Votes contained in the FIRST SCHEDULE;
- IV. approves an overall increment in the total budget for Financial Year 2024/2025 by **Kshs. 104,683,481,584** in respect of the Votes contained in the FIRST SCHEDULE;
- V. resolves that the FIRST and SECOND SCHEDULE forms the basis for the introduction of the first Supplementary Appropriation Bill, 2025.

SIGNED

HON. GLADYS J. BOSS, M.G.H, M.P.

CHAIRPERSON, LIAISON COMMITTEE

THE NATIONAL PAPERS LAID		17th March 2025
DATE:	Wednesday	DATE
RECEIVED	Hon. Gladys Boss (Chairperson, Liaison Committee)
