(g) **Formulation of a Regulatory Framework on Artificial Intelligence in the Country**

THAT, aware that the world is rapidly embracing Artificial Intelligence (AI), which is the use of a digital computer or computer-controlled robots to perform tasks commonly associated with intelligent beings; **acknowledging that**, the 2022 Government Artificial Intelligence Readiness Index report ranked Kenya fifth in Africa and 90th globally in readiness to adopt Artificial Intelligence (AI); **further acknowledging that** the Oxford Insights Survey 2022 pegged Kenya's readiness to adopt AI at 40.3%; **appreciating that** AI has brought forth positive benefits that have increased efficiency in different sectors such as healthcare, manufacturing and robotics; **concerned that**, the exponential rate at which Artificial Intelligence is being embraced in the society without proper regulatory mechanisms has caused various negative consequences such as rising cases of disinformation and fake news; **noting that** there is need to protect Kenyans from the potential AI-instigated harms such as privacy breaches, AI-powered fake technology algorithms, algorithmic discrimination, autonomous weapons, job displacement and economic inequality, social manipulation and misinformation, financial market manipulation, and privacy invasion; **now therefore, this House urges** the Government, through the Ministry of Information, Communication and the Digital Economy to:

- (a) formulate a regulatory framework and ethical guidelines for implementation of Artificial Intelligence (AI) in the country to control its potential misuse; and,
