10. MOTION: 033/2023 –SUPPORTING AND PROMOTING LOCAL FERTILIZER MANUFACTURING INDUSTRIES

Motion having being Made and Question proposed;

THAT, aware that, the Fertilizer and Animal Foodstuff Act, 2015 provides for the regulation of fertilizer importation in the country; further aware that, the Fertilizer and Animal Foodstuffs Board regulates the fertilizer and animal foodstuffs industry including the manufacture and production of fertilizers; noting that, the country currently relies heavily on imported fertilizer due to inadequate local production capacity; further noting that, the low local production leads to high costs for farmers, reducing their profits and results in an unhealthy reliance on imported fertilizer; concerned that, this scenario threatens the country's food security in case of supply disruptions and discourages local production; recognizing that local fertilizer production could lead to improved fertilizer quality, increased crop yields and a reduction in environmental harm caused by the use of substandard fertilizers; recalling that the country has the potential to produce fertilizer that could meet the country's domestic demand and also supply the regional market; further recognizing that there is need for the government to work with local producers to develop high quality fertilizer tailored to the needs of Kenyan farmers and crops; now therefore this House resolves that the National Government through the Ministry of Agriculture and Livestock Development, supports and promotes local fertilizer manufacturing industries by investing in research and development to bolster the domestic fertilizer manufacturing sector.

(The Hon. Samuel Atandi, M.P.)

Debate interrupted on Wednesday, April 02, 2025 – Morning Sitting, resumed

There being no Member wishing to contribute,

Mover Replied

Question put and agreed to
