24. **MOTION - MAINSTREAMING A FRAMEWORK FOR CLEAN COOKING IN KENYA**
(Sen. Hamida Kibwana, MP)

THAT AWARE THAT, Article 42 of the Constitution guarantees every person the right to a clean and healthy environment, which includes access to safe energy options;

...../Motion

FURTHER AWARE THAT, over 900 million Africans, including more than 90% of households in Kenya's rural areas, still rely on traditional biomass (firewood, charcoal, animal waste) for cooking, resulting in high levels of indoor air pollution that cause premature deaths, particularly among women and children;

CONCERNED THAT, in Kenya, indoor air pollution has been linked to over 23,000 annual deaths, with women and girls bearing the disproportionate burden of time spent collecting firewood and cooking, limiting their education and economic opportunities;

NOTING THAT, traditional cooking methods contribute significantly to deforestation, greenhouse gas emissions, and climate vulnerability at the county level, undermining national commitments under the Energy Act, 2019, the Climate Change Act, 2016, and Kenya's Nationally Determined Contributions (NDCs);

RECALLING THAT, the Africa Clean Cooking Summit (Paris, 2023) mobilized USD 2.2 billion in commitments for clean cooking, and the International Energy Agency has recommended urgent financing and policy action to achieve universal access by 2040;

ACKNOWLEDGING, the efforts of some counties, development partners, and private sector actors in piloting clean cooking projects, but recognizing that these remain small-scale and fragmented;

NOW THEREFORE, the Senate resolves that the: -

- i.) Council of Governors develops county-level policies, frameworks, and budgets that mainstream clean cooking into devolved energy and health functions;
- ii.) National Treasury and Ministry of Energy prioritize clean cooking in financing frameworks, including results-based financing and blended finance models to de-risk private investment;
- iii.) County Governments incorporate clean cooking targets in their County Integrated Development Plans (CIDPs) and ensure public institutions such as schools, health facilities, and prisons adopt clean cooking solutions;
- iv.) National Treasury and County Governments to fast-track letters of authorization to unlock carbon finance markets (Article 6.2 and CORSIA) for clean cooking projects; and
- v.) County Governments engage the private sector actors, and community organizations to expand clean cooking access, create local jobs, and reduce pressure on forest resources.

33. **MOTION - STRENGTHENING DISABILITY-INCLUSIVE EDUCATION FOR LEARNERS WITH ALL FORMS OF DISABILITY, INCLUDING NEURODEVELOPMENTAL CONDITIONS AND SPECIFIC LEARNING DISABILITIES**

(Sen. Catherine Mumma, MP)

THAT, AWARE THAT Article 53(1)(b) of the Constitution guarantees every child the right to free and compulsory basic education while Articles 27, 43, 54 and 56 of the Constitution, the Persons with Disabilities Act, The Children Act and the United Nations Convention on the Rights of Persons with Disabilities (CRPD), require the State to promote equality, dignity and access to inclusive education for persons with disabilities and other vulnerable groups through appropriate legislative, policy, administrative and budgetary measures;

RECOGNIZING THAT national laws and policies, including the Basic Education Act, the Persons with Disabilities Act, the Children Act and the Competency-Based Curriculum Framework, provide for inclusive and equitable education through reasonable accommodation and appropriate support for learners with disabilities and special educational needs, including neurodevelopmental and learning disabilities, and that the Constitution assigns Early Childhood Development Education and childcare facilities to county governments while the national government oversees education policy, curriculum, standards and teacher management, thereby requiring effective intergovernmental coordination to promote disability-inclusive education;

CONCERNED THAT despite existing legal and policy frameworks, many learners with disabilities continue to face barriers in accessing quality

...../Motion

education due to gaps in identification, assessment, specialized personnel, assistive technologies, infrastructure and support services as highlighted by the Auditor-General's Performance Audit on education for learners with special needs (2025) which revealed deficiencies in resources and institutional capacity, leaving many learners, including those with neurodevelopmental conditions and learning disabilities, inadequately supported despite significant public investment in education;

RECOGNIZING THAT disability-inclusive education requires sustainable financing, accountability, reliable data, evidence-based planning, intergovernmental collaboration and meaningful participation of persons with disabilities in education processes;

NOW THEREFORE, THE SENATE RESOLVES THAT-

1. The Ministry of Education, in collaboration with National Treasury and County Governments, shall within six (6) months develop and submit to Parliament a costed National Disability-Inclusive Education Implementation and Financing Framework outlining learner needs, accessibility gaps, support services, implementation timelines, accountability mechanisms and sustainable financing arrangements;

APPENDIX**1. NOTICE OF MOTION - ESTABLISHMENT OF A NATIONAL FRAMEWORK FOR THE DIAGNOSIS, TREATMENT AND MANAGEMENT OF ENDOMETRIOSIS IN KENYA**

(Sen. Karen Nyamu, MP)

THAT, AWARE THAT Article 43(1)(a) of the Constitution guarantees every person the right to the highest attainable standard of health, including the right to healthcare services;

FURTHER AWARE THAT the Kenya Health Policy (2014–2030) and the National Reproductive Health Policy (2022–2032) provide a framework for the provision of equitable, quality and accessible reproductive health services, including addressing conditions that affect the health and wellbeing of women and girls;

COGNIZANT THAT endometriosis is a chronic gynaecological condition that can cause severe pain, infertility and other complications, with significant effects on the physical, psychological, social and economic wellbeing of women and girls;

NOTING THAT while the Ministry of Health has previously undertaken measures to strengthen endometriosis care, including establishing specialized centers, training laparoscopic surgeons, providing laparoscopic equipment and conducting public awareness initiatives, there remains a gap in the collection of reliable national data on the prevalence and burden of endometriosis, as well as in coordinated planning and delivery of comprehensive care;

CONCERNED THAT women and girls continue to face delayed diagnosis and treatment due to limited awareness, misdiagnosis, inadequate specialist capacity and unequal access to appropriate services, with specialist care concentrated in a few facilities and existing health financing arrangements requiring review to ensure equitable and affordable access to diagnosis, treatment, pain management, fertility care, psychosocial support and long-term follow-up;

NOW THEREFORE, THE SENATE RESOLVES THAT, the National Government, through the Ministry of Health, in collaboration with County Governments –

1. Develops and implements a National Endometriosis Management Framework providing for awareness, early recognition, diagnosis, referral, treatment, pain management, fertility care, psychosocial support and long-term follow-up;

...../Appendix

2. Strengthens endometriosis services at national and county levels by establishing referral pathways, training healthcare workers, expanding specialist capacity and equipping designated referral facilities to provide comprehensive endometriosis care;
3. Establishes a national endometriosis data and research mechanism, through the Kenya Health Information System and in collaboration with the Kenya Medical Research Institute, to collect, analyze and report data on the prevalence, diagnosis, treatment and outcomes of endometriosis; and
4. Reviews and strengthens the adequacy of financing for endometriosis care under the Social Health Authority, to ensure affordable access to medically necessary diagnosis, treatment, surgery, fertility care, pain management and long-term care.
