37.	**THAT,** aware that avocado farming and processing activities have expanded rapidly in Kenya; noting that, *Kenya National Bureau of Statistics (KNBS) Economic Survey, 2024* approximated the national production at 848,100 tonnes in 2024, up from 633,000 tonnes in 2023, valued at Kenya Shillings 29.5 billion; appreciating that according to the survey, Murang'a County contributed about 200,991 tonnes of the total production, making it the leading avocado-producing county in the country; concerned that avocado processing generates large volumes of organic waste including peels, seeds, pulp, and pomace, which, when improperly managed, cause environmental degradation,	19/02/2026	The Hon. 	water contamination, and increased greenhouse gas emissions; further concerned that residents of Murang'a County and other major avocado-growing regions have raised serious concerns over the improper disposal of avocado waste which undermines the right to a clean and healthy environment as envisaged under Article 42 of the Constitution thus posing significant public health and environmental risks; appreciating that studies by the *Food and Agriculture Organization (FAO, 2023)* and global best practices from Mexico and Chile demonstrate that avocado waste can be converted into bio-fertilizer, biogas, animal feed, and other value-added products; recognising that by embracing valorisation of avocado waste, Kenya stands a chance to reduce environmental pollution and public health risks, create employment opportunities, and support a circular economy in the avocado sector; appreciating the role of the National Government in the formulation of policies and frameworks to guide and support effective waste management by county governments; Now therefore, this House **resolves** that the National Government formulates an avocado waste management and valorisation policy to provide for— (a) sustainable avocado waste management and valorisation,
